

Announce Completion of Name Change

August 21, 2023 / Vancouver, British Columbia / Critical Reagent Processing Corp. (formerly, Oz Lithium Corporation) (CSE: CRPC) (OTC: GRXXF) (Frankfurt: G0A) is pleased to announce that it has changed its name to Critical Reagent Processing Corp., effective August 17, 2023.

The Company's ticker symbol on the Canadian Securities Exchange (the "CSE") has changed to "CRPC". The ticker symbol on the Frankfurt Stock Exchange remains the same.

The new CUSIP number is 22675G102 and the new ISIN is CA22675G1028.

About Critical Reagent Processing Corp.

Critical Reagent Processing Corp. (CRPC) is the 100% owner of the Laguna Santa Maria Soda Ash Project, located in Salta Province, Argentina. The 500-hectare property hosts a natural deposit of sodium carbonate, or soda ash. Soda ash is a necessary reagent for the production of lithium carbonate. The U.S. Geological Survey reported in 2022, 165,000 tonnes of soda ash were exported from the United States to Argentina, with a value of \$ U.S. 48 million.

CRPC believes the Laguna Santa Maria Project holds a competitive advantage over soda ash importation into Argentina as it is located in country, and in an area of significant lithium carbonate production and project development. Management is continuing to evaluate the property and market for soda ash in Argentina. Results of a bulk sample chemical evaluation are expected shortly.

ON BEHALF OF THE BOARD

Adrian Hobkirk
