

Chemesis International Inc. Launches Viverian CBD Products in Puerto Rico

Natural Ventures will utilize its state-of-the-art manufacturing facility to manufacture its Viverian CBD product line

April 9, 2019

Vancouver, British Columbia – Chemesis International Inc. (CSE: [CSI](#)) (OTC: [CADMF](#)) (FRA: [CWAA](#)) (the “Company” or “Chemesis”), announces it will produce and distribute its all-natural CBD product line Viverian, in Puerto Rico, through its subsidiary Natural Ventures.

Viverian is a hemp-derived CBD product line that promotes healthy living and provides consumers with quick and easy methods of consumption. The product line includes CBD tinctures, as well as capsules that may assist with sleep, relaxation, improved concentration, relief for discomfort, and improved overall health and wellness. These products have been lab tested, are THC free, and made of 100% botanical ingredients.

New regulations from the Puerto Rican Department of Health will allow Natural Venture to utilize its high-quality manufacturing facility. The new regulations allow licensed manufacturing facilities to incorporate hemp derived CBD in to its portfolios as long as the products are entered in to the tracking system and tested through licensed labs in Puerto Rico.

Natural Ventures anticipates Viverian products will be available in dispensaries before April 30th, and will also offer contract manufacturing services for other licensees in Puerto Rico.

“Natural Ventures is a key part of Chemesis’ long term strategy to build a major presence in Latin America, and by launching Viverian, it allows penetration into the Puerto Rican CBD market,” said CEO of Chemesis, Edgar Montero. “Chemesis believes it has an advantage in the Latin American CBD market as it is able to leverage its state-of-the-art facility, its previously [announced](#) partnership with First Medical that brings up to 6,000 acres of hemp cultivation, and its all-natural Viverian CBD product catalogue.”
