Nextleaf Receives Authorization for Sales in the Province of Saskatchewan

Nextleaf is pleased to announce the Saskatchewan Liquor and Gaming Authority, the provincial regulator responsible for permitting and monitoring the operation of local cannabis wholesalers and retailers in Saskatchewan, has authorized the Company to supply *Glacial Gold*[™] CBD and THC products directly to the province's retail and wholesale markets.

The model in Saskatchewan is unique as it allows for both the sale and distribution of cannabis products by the private sector. Consumers in the province can look forward to the launch of *Glacial Gold*[™] as a price-point and value leader in distillate-focused product categories.

Glacial Gold[™] distillate is produced through the Company's patented, automated closed-loop, chilled-alcohol extraction plant at Nextleaf Labs, a Health Canada licensed processing facility. Nextleaf's proprietary technology efficiently transforms cannabis and hemp grown in B.C. and throughout Canada into high-purity cannabis distillate at an industrial scale.
