As at September 30, 2023 and September 30, 2022, the carrying value of the amount owed from the equipment supplier was \$nil after historical recognition of loss provisions for the balances in full.

In 2020, the Company issued the equipment supplier a demand notice requesting repayment of the equipment deposit and loan in full (not paid). Accordingly, the Company commenced legal action in 2021 by way of issuing a notice of claim against the equipment supplier, which was met with the equipment supplier issuing a statement of defence and counterclaim involving a third party. The Company does not believe that there is any substantive merit to any of the claims asserted against it and denies that any of the claims are supported by evidence.

To the MD&A Date, the Company and the equipment supplier have not negotiated terms for the repayment to the Company of principal and interest on the amounts loaned, and the refund of equipment deposits. There have been no material developments in respect of this matter and the claims have not been contested in the courts.

During the year ended September 30, 2023, the Company recognized loss provisions totalling \$81,324 in respect of credit losses associated with two debtors.
