1. NATURE OF OPERATIONS

Black Tusk Resources Inc. ("the Company") was incorporated on November 18, 2016 under the laws of British Columbia. The address of the Company's corporate office and its principal place of business is 200-666 Burrard Street, Vancouver, British Columbia, Canada.

The Company's principal business activities include the acquisition and exploration of mineral property assets. As at October 31, 2019, the Company had not yet determined whether the Company's mineral property asset contains ore reserves that are economically recoverable. The recoverability of amount shown for exploration and evaluation asset is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the property or realizing proceeds from its disposition. The outcome of these matters cannot be predicted at this time and the uncertainties cast significant doubt upon the Company's ability to continue as a going concern.

The Company had a deficit of \$3,088,528 as at October 31, 2019, which has been funded by the issuance of equity. The Company's ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs.

These financial statements do not give affect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Statement of compliance

The financial statements are prepared in accordance with IAS 34 Interim Financial Reporting ("IAS34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). They do not include all financial information required for full annual financial statements and should be read in conjunction with the Audited Financial Statements of the Company for the year ended April 30, 2019.

The financial statements are prepared in accordance with accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretation of the International Financial Reporting Interpretation Committee ("IFRIC").

The financial statements were authorized for issue by the Board of Directors on December 18, 2019.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS

There have been no material revisions to the nature of judgments and estimates of amounts reported in the Company's April 30, 2019 annual financial statements.

4. NEW ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

Standards issued, but not yet effective, up to the date of issuance of the Company's financial statements are listed below. This listing of standards and interpretations issued are those that the Company reasonably expects to have an impact on disclosures, financial position or performance when applied at a future date. The Company intends to adopt these standards when they become effective.

IFRS 16 – Leases

In June 2016, the IASB issued IFRS 16 – Leases. IFRS 16 establishes principles for the recognition, measurement, presentation and disclosure of leases, with the objective of ensuring that lessees and lessors provide relevant information that faithfully represents those transactions. IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently. However, lessees are no longer classifying leases as either operating leases or finance leases as it is required by IAS 17. The standard is effective for annual periods beginning on or after January 1, 2019.

IFRIC Interpretation 22 Foreign Currency Transactions and Advance Consideration ("IFRIC 22"): On December 8, 2016, the IASB issued IFRIC 22, which addresses the exchange rate to use in transactions that involve advance consideration paid or received in a foreign currency. The Standard provides guidance on how to determine the date of the transaction for the purpose of determining the spot exchange rate used to translate the asset, expense or income on initial recognition that relates to, and is recognized on the de-recognition of, a non-monetary prepayment asset or a non-monetary deferred income liability. It is effective January 1, 2018. The Company is currently assessing the impact on the adoption of this interpretation.

Environmental legislation is becoming increasingly stringent and the expenses of regulatory compliance are increasing. The impact of new and future environmental legislation on the Company's operations may cause additional expenses and restrictions.

9. FINANCIAL INSTRUMENTS AND FINANCIAL RISK (continued)

Assets measured at fair value on a recurring basis were presented on the Company's statements of financial position as at October 31, 2019 are as follows:

	Fair Value Measurements Using			Total
	Quoted Prices in Active Markets For Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
