

**UNITED LITHIUM CORP. COMMENCES EXPLORATION
AT BIG SMOKY BRINE LITHIUM PROJECT IN NEVADA, USA**

Vancouver, B.C. (January 22, 2018) – United Lithium Corp. (CSE: UTL) (the “**Company**”) announces it has commenced Phase I of its exploration program at its Big Smoky Valley Brine Lithium Property located in Esmeralda County, Nevada, USA (the “**Property**”).

The exploration work includes property wide soil/sediment sampling to understand the distribution pattern of lithium in shallow subsurface sediments across the Property, and to define target areas for further drilling if warranted. The program also includes one more round of water sampling from an existing monitoring well drilled in 2016 (BSV16-02) to see variations in lithium values over time.

The Company will evaluate its options for further work based on the results of the current exploration work.

About United Lithium Corp.

United Lithium Corp. is a Canadian-based issuer listed on the Canadian Securities Exchange. It is currently engaged in the business of lithium exploration and holds a right to acquire a 100% interest, subject to certain royalties, in the Big Smoky Valley Brine Lithium Property (the “**Property**”) located in southwest Nevada, USA, approximately 25 miles (40 kilometres) from Tonopah in Esmeralda County. It is about 50 kilometres to the west of Goldfield, the County Seat of Esmeralda County. The Property consists of 100 contiguous placer claims located in Townships 1 (T1N), Range 38 East, and Sections 20, 21, 22, 27, 28 and 29 in Esmeralda County, Nevada, USA. Each claim is approximately 20 acres with a total property area of 2,000 acres. The Property is located about 12 kilometres to the north of Albemarle Corp.’s Silver Peak mine (previously Chemetall), which has been producing lithium from brines since 1966. The Company’s objective is to explore and, if warranted, develop the Property.

ON BEHALF OF THE BOARD OF
