MANAGEMENT DISCUSSION & ANALYSIS
For the Nine Months Ended April 30, 2019

This Management Discussion and Analysis ("MD&A") of Express Capital Corp. ("Express" or the "Company") has been prepared by management as of June 27, 2019 and should be read together with the unaudited condensed interim financial statements and related notes for the period ended April 30, 2019 which are prepared in accordance with International Financial Reporting Standards ("IFRS"). Additional information regarding the Company can be found on SEDAR at www.sedar.com. All of the following amounts are expressed in Canadian dollars unless otherwise stated. The reader should also refer to the annual audited financial statements for the period ended July 31, 2018.

This MD&A may contain "forward-looking statements" which reflect the Company's current expectations regarding the future results of operations, performance and achievements of the Company. The Company has tried, wherever possible, to identify these forward-looking statements by, among other things, using words such as "anticipate," "believe," "estimate," "expect" and similar expressions. The statements reflect the current beliefs of the management of the Company, and are based on currently available information. Accordingly, these statements are subject to known and unknown risks, uncertainties and other factors, which could cause the actual results, performance, or achievements of the Company to differ materially from those expressed in, or implied by, these statements.

The Company undertakes no obligation to publicly update or review the forward-looking statements whether as a result of new information, future events or otherwise. Historical results of operations and trends that may be inferred from the following discussions and analysis may not necessarily indicate future results from operations.

Recent Accounting Policies Not Yet Adopted

IFRS 16, Leases (effective January 1, 2019) introduced new requirements for the classification and measurement of leases. Under IFRS 16, a lessee no longer classifies leases as operating or financing and records all leases on the condensed consolidated statement of financial position, unless the lease term is 12 months or less or the underlying asset has a low value. The Company has applied a modified retrospective transition approach. The Company does not have any leases, and as a result, this standard had no impact on the Company's financial statements on adoption.

IFRIC 23, Uncertainty over Income Tax Treatments (effective January 1, 2019) provides guidance when there is uncertainty over income tax treatments including, but not limited to, whether uncertain tax treatments should be considered separately; assumptions made about the examination of tax treatments by tax authorities; the determination of taxable profit, tax bases, unused tax losses, unused tax credits, and tax rates; and, the impact of changes in facts and circumstances. This interpretation did not have an impact on the Company's financial statements.

The Company has not early adopted this revised standard and is currently assessing the impact that this standard will have on its financial statements.

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

Financial Instruments and Other Instruments

The carrying amounts of cash and accounts payable approximate fair value because of the short-term maturity of these items.
