NOTICE OF NO AUDITOR REVIEW OF CONDENSED INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the condensed interim financial statements, they must be accompanied by a notice indicating that the condensed interim financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed interim financial statements of the Company have been prepared by and are the responsibility of the Company's management. The Company's independent auditor has not performed a review of these condensed interim financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of condensed interim financial statements by the entity's auditor.

1. NATURE AND CONTINUANCE OF OPERATIONS

Spod Lithium Corp. (Formerly EEE Exploration Corp.) (the "Company") was incorporated on November 11, 2014 under the laws of British Columbia, Canada. On April 15, 2021, the Company changed its name to EEE Exploration Corp. and on September 21, 2022, the Company name was changed to Spod Lithium Corp. On June 21, 2021, the Company commenced trading on the Canadian Securities Exchange ("CSE" or "Exchange") under the symbol "SPOD". The Company is engaged in the business of mineral exploration. The Company's corporate head office is located at Suite 1910, 1030 West Georgia Street, Vancouver, British Columbia, Canada.

These condensed interim financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The Company's continuing operations, and its financial success will be dependent upon the extent to which it can successfully develop its exploration and evaluation assets and whether those assets contain ore reserves that are economically recoverable. The development of the Company's business may take many years to be successful and the amount of resulting income, if any, is difficult to determine with any certainty. On October 31, 2022, the Company had not yet achieved profitable operations, incurred a net loss of \$115,315 (2021: \$35,576) for the three months then ended, had a deficit of \$885,029 (July 31, 2022 - \$769,714), and expects to incur further losses in the development of its business, all of which casts significant doubt about the Company's ability to continue as a going concern.

Since March 2020, several measures have been implemented in Canada and the rest of the world in response to the increased impact from novel coronavirus ("COVID-19"). The Company continues to operate its business at this time. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on business operations, cannot be reasonably estimated at this time. The Company anticipates this could have an adverse impact on its business, results of operations, financial position and cash flows in 2023.

The condensed interim financial statements were approved by the Board of Directors on December 30, 2022.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION

These condensed interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been omitted or condensed, and therefore these condensed consolidated interim financial statements should be read in conjunction with the Company's July 31, 2022 audited annual financial statements and the notes to such financial statements.

These condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified at fair value through profit and loss or fair value through other comprehensive income, if applicable, which are stated at their fair value. These condensed interim financial statements are presented in Canadian dollars, which is also the Company's functional currency. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Future changes in accounting policies

Accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

For the three months ended October 31, 2022 (Expressed in Canadian dollars)

3. EXPLORATION AND EVALUATION ASSETS

Golden Moon Property

On August 31, 2020, the Company entered into a property option agreement where it can acquire up to an 80% interest in the Golden Moon Property, comprised of 10 claims located in the Province of Quebec, by spending \$450,000 on the property on or before December 31, 2023 or cash payments in lieu thereof and issuing 1,500,000 common shares. In September 2020, the Company issued 500,000 shares with a fair value of \$25,000 in terms of the option agreement (Note 4).

In January 2022, the Company acquired a 20% interest in the Golden Moon Property for \$10,000.

In March 2022, the Company acquired the remaining 80% interest in the Golden Moon Property by issuing 1,000,000 common shares with a fair value of \$180,000 as consideration (Note 4). Upon acquiring the remaining 80% interest in the property, the original option agreement from August 31, 2020 was terminated.

The Company now owns a 100% interest in the Golden Moon Property, subject to: a 1% net smelter returns royalty on the property that the Company has granted to Noranda Royalties Inc. ("Noranda") on three mineral claims (the "Noranda Royalty") and a 1% net smelter returns royalty on seven mineral claims comprising the property that the Company previously granted to the prospectors of the property (the "Prospector Royalty"). The Company has the right to repurchase the Noranda Royalty at any time for \$500,000, and the Company also has the right to repurchase the Prospector Royalty at any time for \$500,000.

On October 26, 2022, the Company granted GIA Resources Inc. (GIA) an option to earn a 100% interest in Spod's Golden Moon Property, subject to the underlying NSRs on the property. To earn a 100% interest in the property, GIA is required to make aggregate exploration expenditures of \$450,000 on the property and to issue an aggregate of 1,700,000 common shares to Spod as follows:

On or before	Shares Received	Exploration Expenditures
November 5, 2022	(Issued) 250,000	-
October 31, 2023	300,000	\$100,000
October 31, 2024	500,000	Additional \$150,000
October 31, 2025	650,000	Additional \$200,000
Total	1,700,000	\$450,000

GIA has the right to accelerate the exploration expenditures and share issuances and is entitled to make cash payments to Spod in lieu of incurring the exploration expenditures.

During the three months ended October 31, 2022, for the Golden Moon Property, the Company incurred \$nil in exploration costs. At October 31, 2022 total project costs are \$422,534 (July 31, 2022 - \$422,534).

NW Abitibi Project

On February 22, 2021, the Company entered into a property option agreement where it can acquire a 100% interest in the NW Abitibi Project, comprised of sixty-three mineral claims located in the Province of Ontario. During the year ended July 31, 2021, the Company paid \$20,000 cash and issued 100,000 common shares with a fair value of \$20,000 (Note 4). The Company has decided that upon the completion of an evaluation of this project, not to proceed with further exploration. Accordingly, the acquisition costs of \$40,000 incurred to July 31, 2022 have been written off.

3. EXPLORATION AND EVALUATION ASSETS (cont'd)

Byron Pegmatite Property

On June 7,2022, the Company entered into a purchase option agreement to acquire a 100% interest in 46 unpatented mining claims located in the Province of Ontario, by the issuance of 300,000 common shares and cash payments totaling \$74,000 as follows:

On or before	Cash payments	Shares Issued

The Company has determined the estimated fair values of its financial instruments based on appropriate valuation methodologies; however, considerable judgment is required to develop these estimates. The fair values of the Company's financial instruments are not materially different from their carrying values.

The Company's financial instruments are exposed to certain financial risks, which include the following:

Credit risk

Credit risk is the risk of loss due to the counterparty's inability to meet its obligations. The Company's exposure to credit risk is on its cash. Risk associated with cash is managed through the use of major banks which are high credit quality financial institutions as determined by rating agencies. Other receivables comprise sales tax refunds from the Canadian federal government. Credit risk has been assessed as low.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting obligations when they become due. The Company ensures that there is sufficient capital in order to meet short-term operating requirements, after taking into account the Company's holdings of cash. Liquidity risk has been assessed as high.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and price risk.

Currency Risk

Currency risk is the risk of change in profit or loss that arises from fluctuations of foreign exchange rates and the degree of volatility of these rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk. The Company does not have any assets or liabilities denominated in foreign currencies and engages in very few transactions denominated in a foreign currency; therefore, its exposure to currency risk is low.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk.

Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to price risk.

For the three months ended October 31, 2022 (Expressed in Canadian dollars)

6. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders.

The Company considers the items included in shareholders' equity and cash as capital. The Company manages the capital structure and makes adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets. The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to fund exploration activities. To secure the additional capital necessary to pursue these plans, the Company intends to raise additional funds through the equity or debt financing. There were no changes in the Company's approach to capital management since inception. The Company is not subject to any external capital requirements.

7. RELATED PARTY TRANSACTIONS

As at October 31, 2022, due to related party includes \$20,096 (July 31, 2022 – \$6,275) to directors or a company controlled by a director. The amounts are unsecured, non-interest bearing and has no fixed terms of repayment.

During the three months ended October 31, 2022, the Company incurred management fees of \$46,881 (2021 - \$9,000), rent of \$nil (2021 - \$2,100) to a director.

8. FLOW-THROUGH SHARE LIABILITY

For the purposes of calculating any premium related to the issuances of the flow-through shares, the Company compares the market price of its shares to the subscription price of flow-through shares to determine if there was a premium paid on the flow-through shares (Note 4). As a result, the Company's flow-through liability on issuance of flow-through shares in connection with the private placements is as follows:

	October 31, 2022	July 31, 2022
	\$	\$
Balance, opening	32,090	71,465
Addition	-	-
Reversal	32,090	(39,375)
Balance, ending	-	32,090

As of October 31, 2022, the Company is committed to spending approximately \$1,189,364 (July 31, 2022 - \$98,901) in connection with its flow-through offering. Failure to incur the required eligible expenditures may result in penalties and taxes and the Company may also be liable to indemnity the shareholders for their income taxes and penalties.

9. SUBSEQUENT EVENT

On November 17, 2022, the Company closed a property purchase agreement with Jadeite Capital Ltd. and Generic Geo Inc. to purchase the North Nipigon exploration property comprising 401 mineral claims located north of the town of Nipigon, Ontario. The Company will acquire 100% interest in the property by making an aggregate cash payment of \$65,000 and by issuing an aggregate 4,000,000 Class A common shares to the sellers on the closing of the agreement. The property is subject to a 2% net smelter return royalty in favour of Jadeite Capital Ltd.
