This Management Discussion and Analysis (“MD&A”) of Spod Lithium Corp. (formerly EEE Exploration Corp. (“Spod” or the “Company”)) has been prepared by management as at April 1, 2024 and should be read together with the condensed interim financial statement for the six months ended January 31, 2024 and the annual audited financial statements for the period ended July 31, 2023 and related notes for the year ended July 31, 2023 which are prepared in accordance with International Financial Reporting Standards (“IFRS”). Additional information regarding the Company can be found on SEDAR at [www.sedar.com](http://www.sedar.com). The following amounts are expressed in Canadian dollars unless otherwise stated.

This MD&A may contain “forward-looking statements” which reflect the Company’s current expectations regarding the future results of operations, performance, and achievements of the Company. The Company has tried, wherever possible, to identify these forward-looking statements by, among other things, using words such as “anticipate,” “believe,” “estimate,” “expect” and similar expressions. The statements reflect the current beliefs of the management of the Company and are based on currently available information. Accordingly, these statements are subject to known and unknown risks, uncertainties and other factors, which could cause the actual results, performance, or achievements of the Company to differ materially from those expressed in, or implied by, these statements.

The Company undertakes no obligation to publicly update or review the forward-looking statements whether as a result of new information, future events or otherwise. Historical results of operations and trends that may be inferred from the following discussions and analysis may not necessarily indicate future results from operations.

### **Company Overview**

Spod Lithium Corp. (the “Company”) was incorporated as a wholly owned subsidiary of reporting issuer Pharmalogix Investments Corp. (Formerly UWO Consulting Ltd.) (“UWO”) on November 11, 2014 under the laws of British Columbia, Canada. On April 15, 2021, the Company changed its name to EEE Exploration Corp. and on September 21, 2022, the Company name was changed to Spod Lithium Corp. On September 21, 2021, the Company commenced trading on the Canadian Securities Exchange (“CSE” or “Exchange”) and is currently trading under the symbol “SPOD”. The Company is engaged in the business of mineral exploration focusing on the acquisition and development of mineral properties containing battery, base and precious metals. Pursuant to a plan of arrangement between the Company and UWO, the Company’s shares were distributed to the shareholders of UWO during the year ended July 31, 2018.

The Company’s exploration and evaluation assets are located in Canada in the provinces of Quebec and Ontario.

The Company’s most recent activities include the following:

In August 2023, the option agreement for the Megali property was amended to extend the requirement to incur \$350,000 to September 18, 2023. The Company fulfilled this commitment. The Company also paid \$50,000 and issued 700,000 Class A common shares pursuant to the Megali option agreement.

In August of 2023, the Company announced due to improving conditions surrounding the Company’s properties in the James Bay region of Quebec, the company’s long awaited 2023 exploration program scheduled on the Company’s Megali and Lithium Grande 4 properties commenced.

In October 2023, the Company provided the following exploration update on its MegaLi project.

- Several pegmatite outcrops have been identified and sampled. Observations show the potential to identify large pegmatites on Block C. Pegmatites are concentrated in 500 metres wide swarms recognized over a kilometric strike length.
- Mineralogical and textural characteristics observed allow to link Block C pegmatites to the LCT type (Lithium-Cesium-Tantalum).

- The MegaLi project shares its border with Patriot Battery Metals Inc's Corvette property and is located about 3 km south from CV5 pegmatite system. The CV5 pegmatite contains 109.2 Mt of inferred resources at 1.74% LiO<sub>2</sub> contains in spodumene.
- 111 prioritised rock-chip samples are on their way to ALS Laboratories for alkaline fusion assaying.
- Fieldwork remains ongoing with only 18 of the forecasted 25 ground campaign days completed to date.

In October 2023, the Company announced the closing of a non-brokered private placement for gross proceeds of \$303,170 through the issuance of 4,330,999 units at a price of \$0.07 per unit, each unit consisting of one Class A common share and one-half of one transferable Class A common share purchase warrant. Each whole warrant is exercisable for an additional common share at \$0.12 for 24 months from the date of issuance.

In October 2023, the Company and GIA amended the option agreement for the Golden Moon Property to extend to extend each annual requirement by one year.

In December 2023, the Company advised shareholders that the first phase of its exploration program on its MegaLi ( 78 mineral claims covering a total area of 3,996.67 hectares - 40 square kilometres) and Lithium Grande 4 ( 41 mining claims covering 2,100 hectares - 21 square kilometres) projects located in James Bay, Quebec was completed.

In December 2023, the Company announced the closing of a non-brokered private placement for gross proceeds of \$1,443,750 through the issuance of 10,694,444 units at a price of \$0.135 per unit, each unit consisting of one Class A common share and one-half of one transferable Class A common share purchase warrant. Each whole warrant is exercisable for a non-flow-through common share at \$0.12 for 24 months from the date of issuance.

In February 2024, the Company provided results from lithium grab samples and geometric survey from its prospecting program at MegaLi and La Grande 4 properties in James Bay, Quebec. The gravimetry survey executed last fall gave a clear signature for the block C pegmatites and the indication of a stacking of similar signatures away from the exposed pegmatite. This survey combined with the lithium values found in the rock sample assays have generated several prospective drill targets for the 2024 winter exploration program. Highlighted results were as follows:

- Drilling targets are identified through surface sampling and gravimetric survey on Spod's Block C Pegmatite as part of the 2024 winter program.
- Initial prospecting on MegaLi and La Grande 4 claim blocks A, D, E, F all returned Li anomalies. Highest result from La Grande 4 block A is 540 ppm Li.
- Grab samples from the lithium-bearing pegmatites on Spod's discovery Block C, located 5 km east south-east from the Patriot Battery Metals CV5 spodumene resources, assayed up to 440ppm Li, and rubidium enrichment reaching 2,920 ppm.

In March 2024, the Company announced that it entered into an option agreement with Gravel Ridge Resources Ltd. and 1544230 Ontario Inc. under which SPOD has the option to acquire a 100% interest in 80 unpatented mining claims known as the Barbara Li Project located in the Province of Ontario.

In March 2024, the Company announced the appointment of Ms. Veronique Laberge as the new Chief Financial Officer of the Company.

In March 2024, the Company announced that it has been selected to receive a \$200,000 Ontario Junior Exploration Program ("OJEP") grant from the Government of Ontario to support its exploration efforts on its North Nipigon -Niemi Project in the Georgia Lake Pegmatite field.

---

***Credit risk***

Credit risk is the risk of loss due to the counterparty's inability to meet its obligations. The Company's exposure to credit risk is on its cash and other receivables. Risk associated with cash is managed through the use of major banks which are high credit quality financial institutions as determined by rating agencies. Other receivables comprise sales tax refunds from the Canadian federal government. Credit risk has been assessed as low.

***Liquidity risk***

Liquidity risk is the risk that the Company will encounter difficulties in meeting obligations when they become due. The Company ensures that there is sufficient capital in order to meet short-term operating requirements, after taking into account the Company's holdings of cash. The Company's cash are held in corporate bank accounts available on demand. Liquidity risk has been assessed as high.

***Market Risk***

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and price risk.

***Currency Risk***

The Company is subject to normal market risks including fluctuations in foreign exchange rates and interest rate. While the Company manages its operations in order to minimize exposure to these risks, the Company has not entered into any derivatives or contracts to hedge or otherwise mitigate this exposure. The Company does not have any assets or liabilities denominated in foreign currencies and engages in very few transactions denominated in a foreign currency; therefore, its exposure to currency risk is low.

***Interest Rate Risk***

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk.
