ABOUT FORTE MINERALS CORP

The Company is committed to maximizing shareholder value through acquiring, exploring, discovering, and developing copper and gold projects in Perú. Moving rapidly along the line of opportunity towards a value maxima is very attractive to investors. Significant value growth is generated when early-stage exploration moves towards resource definition while zoning in on target development and eliminating the early-stage grassroots risk. All three of Forte's properties offer this opportunity, with tremendous upside considering their geological potential.
