

Direct Communication Solutions Partners with Teltonika to Provide IoT Solutions in North America

San Diego, California--(Newsfile Corp. - May 16, 2023) - Direct Communication Solutions, Inc. (OTCQX: DCSXD) (CSE: DCSI) (FSE: 7QU0) ("**DCS**" or the "**Company**"), a leading provider of information technology solutions for the Internet of Things (IoT) market, is pleased to announce a new partnership with Teltonika Telematics, a technology company based in Lithuania that specializes in designing, manufacturing, and marketing Internet of Things (IoT) devices and solutions.

Under the new strategic collaboration, DCS will become a Master Partner of Teltonika Telematics in the USA and Canada. Teltonika Telematics will be able to offer its customers a full suite of IoT solutions provided by DCS. The Company will have access to the entire product portfolio, including GPS trackers, video telematics equipment, and other IoT devices, enabling businesses in North America to utilize the latest and most advanced telematics solutions.

By implementing these cost-saving measures, these solutions will enable Teltonika Telematics to operate more effectively and efficiently. In addition, DCS will oversee these services to ensure top-tier technical support and customer experience.

As a Master Partner, DCS will have exclusive access to Teltonika Telematics priority technical support and training, thus, ensuring that customer needs are answered most competently and reliably. Moreover, MiFleet, a sister company of DCS, is also a part of the collaboration between Teltonika Telematics and DCS. As a provider of fleet management and telematics solutions for small to medium-sized businesses, MiFleet brings a wealth of experience to the partnership and expands the reach to even more customers and industries. By offering solutions tailored to specific needs and delivering excellent customer service, the collaboration among Teltonika Telematics, DCS, and MiFleet is set to benefit significantly a wide range of businesses in North America and the telematics industry as a whole.

"We are excited to partner with Teltonika Telematics and support their comprehensive IoT strategy," said Chris Burse, CEO of DCS. "Our full solutions and services portfolio will enable Teltonika Telematics to offer solutions to their customer base and meet their needs with actionable data monitoring." Mantas Stalnionis, Telematics Sales Director for North America Continent at Teltonika Telematics, added: "This collaboration marks an important milestone for us, as it combines our cutting-edge technology with DCS expertise in fleet management and telematics. As a result, customers can expect even more advanced and effective solutions for their fleet management needs in the USA and Canada."

DCS and Teltonika Telematics are dedicated to providing inventive and dependable IoT solutions to customers in various sectors. This fresh partnership amalgamates the strengths of two industry leaders to offer enhanced value and customer support.

Teltonika Telematics' product portfolio includes a wide range of IoT devices such as, trackers, sensors, and software and cloud-based solutions that enable businesses and organizations to connect and manage their devices, data, and applications. Teltonika Telematics' IoT solutions are used in various industries, including transportation, logistics, energy, agriculture, and healthcare. Teltonika Telematics strongly focuses on innovation and R&D, and its products are known for their reliability, security, and flexibility.

Forward-Looking Statements

This release contains forward-looking statements reflecting management's current views of future events and operations. These statements are based on current expectations and assumptions subject to risks and uncertainties that could cause results to differ materially. We believe that these potential risks and uncertainties include, without limitation: the ongoing COVID-19 pandemic, the Company's dependence on third-party manufacturers, suppliers, technologies and infrastructure; risks related to intellectual property; industry risks, including competition, online security, government regulation and global economic conditions; and the Company's financial position and need for additional funding. Statements in this release should be evaluated in light of these factors. These risk factors and other important factors that could affect our business and financial results are discussed in our Management's Discussion and Analysis, periodic reports and other public filings available on SEDAR at www.sedar.com and posted with the OTC Disclosure and News Service. DCS undertakes no duty to update or revise any forward-looking statements.

Neither the Canadian Securities Exchange nor its Regulation Services Provider (as that term is defined in the policies of the Canadian Securities Exchange) accepts responsibility for the adequacy or accuracy of this release.
