PERMEX PETROLEUM CORPORATION
NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
THREE AND SIX MONTHS ENDED MARCH 31, 2024
(UNAUDITED)

1. BACKGROUND

Permex Petroleum Corporation (the “Company”) was incorporated on April 24, 2017 under the laws of British Columbia, Canada and maintains its head office at 1700 Post Oak Boulevard, 2 Blvd Place Suite 600, Houston Texas, 77056. Its registered office is located at 10th floor, 595 Howe Street, Vancouver, British Columbia, Canada, V6C 2T5. The Company is primarily engaged in the acquisition, development and production of oil and gas properties in the United States. The Company’s oil and gas interests are located in Texas and New Mexico, USA. The Company is listed on the Canadian Securities Exchange (the “CSE”) under the symbol “OIL”. On April 16, 2024, the Company received a cease trade order (the “FFCTO”) issued by the British Columbia Securities Commission (the “BCSC”) due to its failure to file the annual financial statements for fiscal 2023 and quarterly reports for fiscal 2024. The trading was halted on the CSE effective April 17, 2024. Subsequent to March 31, 2024, the Company brought all filings required by the BCSC up to date. On September 6, 2024, the FFCTO was revoked by the BCSC, and the Company’s common shares were reinstated for trading on the CSE effective September 9, 2024.

On September 12, 2023, the Company’s board of directors approved a reverse stock split of the Company’s issued and outstanding common stock at a 1 for 4 ratio, which was effective October 23, 2023. All issued and outstanding common stock, options, and warrants to purchase common stock and per share amounts contained in the financial statements have been retroactively adjusted to reflect the reverse stock splits for all periods presented.

These amended condensed interim consolidated financial statements of the Company for the three and six months ended March 31, 2024 were approved and authorized for issue by the Board of Directors on December 20, 2024.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The unaudited condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“US GAAP”) and applicable rules and regulations of the United States Securities and Exchange Commission (“SEC”) regarding interim financial reporting. Certain information and note disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, the condensed consolidated financial statements include all adjustments necessary, which are of a normal and recurring nature, for the fair presentation of the Company’s financial position and of the results of operations and cash flows for the periods presented. These interim results are not necessarily indicative of the results to be expected for the fiscal year ending September 30, 2023 or for any other interim period or for any other future fiscal year. These condensed consolidated financial statements should be read in conjunction with the audited financial statements and footnotes included in Company’s Annual Report on Form 10-K for the fiscal year ended September 30, 2023.

Principles of Consolidation

The accompanying consolidated financial statements include the assets, liabilities, revenue and expenses of the Company’s wholly-owned subsidiary, Permex Petroleum US Corporation. All intercompany balances and transactions have been eliminated.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

Going concern of operations

These consolidated financial statements have been prepared on a going concern basis which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The Company has incurred losses since inception in the amount of \$13,367,612, has a working capital deficiency of \$4,181,211 as of March 31, 2024 and has not yet achieved profitable operations. The Company requires equity or debt financings to fund its operation, which it has been unable to secure in sufficient amounts to date, and there can be no assurances that it will be able to do so in the future. The aforementioned factors raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are issued.

The Company also expects to raise additional funds through equity and debt financings. There is no assurance that such financing will be available in the future. Subsequent to March 31, 2024, the Company has raised \$1,365,000 through the issuance of convertible debentures. These debentures had a maturity date of September 12, 2024 but are currently in default due to the Company's failure to repay the principal and accrued interest on the maturity date. The Company is currently negotiating a debt restructuring plan with the debenture holders. Additionally, the Company has received subscription proceeds totaling \$2,350,000. Management believes that this plan provides an opportunity for the Company to continue as a going concern subject to its continued ability to raise funds to maintain its operations and manage its working capital deficiency.

In view of these matters, continuation as a going concern is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to, meet its financial requirements, raise additional capital, and the success of its future operations. The financial statements do not include any adjustments to the amount and classification of assets and liabilities that may be necessary should the Company not continue as a going concern.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reporting period. Management evaluates these estimates and judgments on an ongoing basis and bases its estimates on experience, current and expected future conditions, third-party evaluations and various other assumptions that management believes are reasonable under the circumstances.

Significant estimates have been used by management in conjunction with the following: (i) the fair value of assets when determining the existence of impairment factors and the amount of impairment, if any; (ii) the costs of site restoration when determining decommissioning liabilities; (iii) the useful lives of assets for the purposes of depletion and depreciation; (iv) petroleum and natural gas reserves; and (v) share-based payments. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, and makes adjustments when facts and circumstances dictate. These estimates are based on information available as of the date of the financial statements; therefore, actual results could differ from those estimates.

New accounting standards

On October 1, 2023, the Company adopted Accounting Standards Update (ASU) No. 2016-13, *Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, as issued by the FASB, the modified retrospective approach. This update replaces the incurred loss methodology with a forward-

looking current expected credit loss (CECL) model for most financial assets measured at amortized cost. The CECL model requires the recognition of credit losses for financial assets based on expected losses rather than incurred losses. Adoption of this standard is on a modified retrospective basis and had no impact on the Company's financial position, results of operations, cash flows or net loss per share.

In December 2023, the FASB issued ASU 2023 - 09, Income Taxes (Topic740) Improvements to Income Tax Disclosures, which becomes effective for fiscal years beginning after December 15, 2024. The standard requires companies to disclose specific categories in the income tax rate reconciliation table and the amount of income taxes paid per major jurisdiction. The Company does not expect the standard to have a material effect on its consolidated financial statements and has begun evaluating disclosure presentation alternatives.

4. CONCENTRATION OF CREDIT RISK

The Company’s financial instruments that are exposed to concentrations of credit risk consist primarily of its cash equivalents and trade receivables. The Company’s cash balances sometimes exceed the United States’ Federal Deposit Insurance Corporation insurance limits. The Company mitigates this risk by placing its cash and cash equivalents with high credit quality financial institutions and attempts to limit the amount of credit exposure with any one institution. To date, the Company has not recognized any losses caused by uninsured balances.

The majority of the Company’s receivable balance is concentrated in trade receivables, with a balance of \$12,033 as of March 31, 2024 (September 30, 2023 - \$73,021). For the six months ended March 31, 2024 and 2023, the

Company had two significant customers that accounted for approximately 100% and 91%, respectively, of our total oil, and natural gas revenues. For the three months ended March 31, 2024 and 2023, the Company had two significant customers that accounted for approximately 100% and 85%, respectively, of our total oil, and natural gas revenues. Two customers represented \$8,667 (72%) of the trade receivable balance. The Company routinely assesses the financial strength of its customers. The non-trade receivable balance consists of goods and services tax (“GST”) recoverable of \$6,226. GST recoverable is due from the Canadian Government. Management believes that the Company is not exposed to significant credit risk. During the six months ended March 31, 2024, the Company recognized \$9,587 (2023 - \$nil) in credit losses on its receivables. During the three months ended March 31, 2024, the Company recognized \$nil (2023 - \$nil) in credit losses on its receivables.
