1. NATURE OF OPERATIONS AND GOING CONCERN

POSaBIT Systems Corporation ("POSaBIT" or the "Company"), was incorporated on June 12, 2017, pursuant to the *Business Corporations Act* (British Columbia). On April 5, 2019, the Company completed the reverse acquisition of POSaBIT, Inc. ("POSaBIT US"), a private company incorporated under the laws of the State of Washington, by way of a triangular merger (the "Transaction" or "Merger") (note 5.1 (a)). Upon completion of the Transaction, the Company changed its name to POSaBIT Systems Corporation and now primarily involve the point-of-sale arrangements designed to offer consumers an easy way to purchase goods and services. Pursuant to the Transaction, the shareholder of POSaBIT US received 1.7539815 securities of the Company for each security of POSaBIT US held including common shares, options, and warrants.

In connection with the Transaction, the Company delisted from the TSXV and obtained listing on the Canadian Securities Exchange ("CSE") under the trading symbol "PBIT".

The Company's head office is located at 1128 8th Street, Kirkland, Washington 98033. Its registered address in Canada is 77 King Street West, Suite 400, Toronto, Ontario, M5K 0A1.

These unaudited interim consolidated financial statements (the "Financial Statements") have been prepared on the assumption that the Company will continue as a going concern, which contemplates the realization of assets and settlement of liabilities as they fall due in the normal course of business for the foreseeable future. The Company's ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs. The Company has incurred losses and has had negative cash flows from operations from the inception that have primarily been funded through financing activities.

As at September 30, 2020, the Company has a reported working capital deficit of \$2,855,371 (December 31, 2019 – \$2,131,849) and has shareholders' deficiency \$2,864,718 (December 31, 2019 – \$1,750,417). These factors indicate the existence of a material uncertainty that may cast significant doubt as to the Company's ability to continue as a going concern. The Company will need to raise additional capital during the next twelve months and beyond to support current operations and planned development. The Financial Statements do not reflect the adjustments to the carrying amounts of assets and liabilities and the reported expenses that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

2. BASIS OF PREPARATION

2.1 Statement of compliance

These unaudited interim consolidated financial statements, including comparatives, have been prepared in accordance with *International Accounting Standards ("IAS") 34* 'Interim Financial Reporting' using accounting policies consistent with the IFRS issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

The Consolidated Financial Statements were approved and authorized for issuance by the Board on November 5, 2020.

Notes to the Unaudited Interim Consolidated Financial Statements For the three and nine months ended September 30, 2020 and 2019 (Expressed in United States Dollars)

2.2 Basis of presentation and measurement

The Financial Statements have been prepared on the historical cost basis, modified where applicable. In addition, the Financial Statements have been prepared using the accrual basis of accounting, except for cash flow information.

2.3 Basis of consolidation

The Financial Statements consolidate the accounts of the Company and its wholly-owned subsidiaries, DoubleBeam, Inc. ("DoubleBeam") and POSaBIT US, Inc. (together, the "Subsidiaries").

All intercompany transactions, balances and unrealized gains and losses from intercompany transactions are eliminated on consolidation. Subsidiaries are entities over which the Company is exposed to, or has rights to, variable returns as well as the ability to affect those returns through the power to direct the relevant activities of the entity. The existence and effect of potential voting rights that are presently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are fully consolidated from the date on which control is obtained by the Company and are deconsolidated from the date on which control ceases.

3. ADOPTION OF NEW AND REVISED STANDARDS AND RECENT PRONOUNCEMENTS

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after January 1, 2020. The following IFRS amended standards have been issued but not yet adopted, as they are being evaluated to determine their impact on the Company.

IFRS 10 — Consolidated Financial Statements ("IFRS 10") and IAS 28 — Investments in Associates and Joint Ventures ("IAS 28") were amended in September 2014 to address a conflict between the requirements of IAS 28 and IFRS 10 and clarify that in a transaction involving an associate or joint venture, the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business. The effective date of the amendments to IFRS 10, is yet to be determined, however early adoption is permitted. The Company has not yet adopted this standard and is assessing its impact on its consolidated financial statements.

IFRS 17 – Insurance Contracts ("IFRS 17") was new in 2017 and will replace IFRS 4 – Insurance Contracts. The amended Standard provides updated guidance for entities in dealing with insurance contracts (including reinsurance contracts) it issues or holds and goes into effect for annual periods commencing after January 1, 2021. The Company has not yet adopted this IFRS 17 and is currently assessing the effects on its consolidated financial statements.

IAS 1 – Presentation of Financial Statements ("IAS 1"). In January 2020, the classification of liabilities as current or non-current was amended. An entity shall apply the amendments for annual reporting periods on or after January 1, 2022, retrospectively in accordance with IAS 8 – Accounting Policies, changes in accounting estimates and errors. The Company has not yet adopted this amendment and is currently assessing the effects on its consolidated financial statements.

Notes to the Unaudited Interim Consolidated Financial Statements For the three and nine months ended September 30, 2020 and 2019 (Expressed in United States Dollars)

4. BUSINESS COMBINATIONS

4.1 Transaction with Foreshore

The Company completed the Transaction on April 5, 2019. The Transaction constitutes a reverse-takeover of Foreshore but does not meet the definition of a business combination, and therefore *IFRS 3 Business Combinations* is not applicable. As a result, and in accordance with reverse take-over accounting for a transaction that is **not** considered a business combination:

a) Foreshore is treated as the acquiree and POSaBIT is treated as the acquirer and therefore, the go-forward entity is deemed to be a continuation of POSaBIT and POSaBIT is deemed to have acquired control of the assets and business of Foreshore in the consideration of the issuance of capital, options and warrants, as applicable.

For accounting purposes, POSaBIT is deemed to have issued the following securities in exchange for the net assets of Foreshore:

The fair value of the consideration issued for the net assets of Foreshore is as follows:

	\$
3,250,000 common shares valued at \$0.45 per share	1,456,746
300,000 Options	112,730
43,000 Agent Options	16,126
	1,585,602

Allocated to Foreshore's net assets:

	Ψ
Cash	77,589
Accounts payable	(185)
Net assets	77,404
Cost of listing (expensed)	1,508,198
	1,585,602

- i) The fair value of the options was calculated using the Black-Scholes option pricing model with the following assumptions: Risk-free interest rate of 1.59%, volatility of 80.355%, share price of \$0.45 and dividends of nil.
- ii) The fair value of the Agent Options was calculated using the Black-Scholes option pricing model with the following assumptions: Risk-free interest rate of 1.59%, volatility of 80.355%, share price of \$0.45 and dividends of nil.
- iii) In addition to the cost of listing transaction fees of \$1,508,198, the Company incurred legal fees of \$134,864 and audit costs of \$83,597, all of which are included as transaction costs on the consolidated statements of comprehensive loss.
- b) Share capital of Foreshore and POSaBIT:

The equity structure (the number and type of equity interests issued) reflects the equity structure of POSaBIT (the legal parent and the RTO acquiree), including the equity interests the POSaBIT issued to affect the Transaction. Accordingly, the equity structure of Foreshore (the legal subsidiary and the RTO acquirer) is restated using the exchange ratio established in the Merger to reflect the number of shares of POSaBIT issued in the RTO.

Notes to the Unaudited Interim Consolidated Financial Statements For the three and nine months ended September 30, 2020 and 2019 (Expressed in United States Dollars)

4.2 DoubleBeam

4.2.1 Acquisition of DoubleBeam (2018)

On February 16, 2018, the Company acquired 100% of the shares of DoubleBeam ("Acquisition"), an unlisted company based in the state of California that specializes in point of sale payment processing. The Company has acquired DoubleBeam to expand its operations and integrate DoubleBeam's structure with its own. The Acquisition has been accounted for using the acquisition method.

The total purchase price paid for DoubleBeam was \$621,000 by way of the Company issuing common shares in the amount for 22.7% of the fair value of its common shares on February 16, 2018.

The fair value of the identifiable assets and liabilities of DoubleBeam as at the date of acquisition were:

	Total
	\$
Purchase Price:	
Shares exchanged	629,000
	629,000
Net assets acquired:	
Cash	17,400
Accounts receivable	54,600
Equipment	18,000
Intangible assets	51,000
Customer list and software	40,000
Accounts payable	(62,000)
Goodwill	511,000
	629,000

POSaBIT US estimated the fair value of intangible assets, customer list, and software based on a discounted cash flow model. Furthermore, the excess of the consideration paid over the fair value of the identifiable assets (liabilities) acquired were recognized as goodwill, which primarily consisted of the assembled workforce.

As at December 31, 2019, the Company completed goodwill impairment testing that resulted in an impairment in the goodwill of \$200,000 (December 31, 2018 – \$nil). The Company estimated the recoverable amount of goodwill based on discounted cash flows (a five-year projection and a terminal year thereafter) and incorporated assumptions an independent market participant would apply. The key assumptions used in the calculation of the recoverable amount relate to the future cash flows and growth projections, future weighted average cost of capital and, income tax rates These key assumptions were based on historical data, project development data from internal sources as well as industry and market trends. The Company adjusted the discount rate for its CGU for the risks associated with achieving its forecast. A post-tax discount rate of 15% was used in the calculation.

Notes to the Unaudited Interim Consolidated Financial Statements For the three and nine months ended September 30, 2020 and 2019 (Expressed in United States Dollars)

The Sale closed on May 22, 2020 (the "**Closing**"), with the conveyance of certain assets (both tangible and intangible) by the Company and the assumption of certain liabilities by the purchaser. The purchase price was \$270,000, \$150,000 been received as at the reporting date and \$120,000 to be received in one final payment (the "**Final Payment**") 180 days after closing, subject to certain conditions. See note 22.3 regarding the Final Payment.

18. FINANCIAL RISK MANAGEMENT

Financial instruments measured at fair value are classified into one of levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities; and

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

At September 30, 2020, the Company's financial instruments consist of cash and cash equivalents, receivables, due from sale of discontinued operations, due from related parties, accounts payable and accrued liabilities, lease liability, liability against future sales receipts and notes payable. The fair values of cash and cash equivalents, accounts receivable, due from sale of discontinued operations, due from related parties, accounts payable and accrued liabilities, liabilities against future sales receipts and lease liability approximate their carrying values due to the relatively short-term to maturity nature. The Company classifies its notes payable at amortized cost.

Financial risk factors

The Company's activities expose it to a variety of financial risks: credit risk and liquidity risk. The Company's overall risk management program and business practices seek to minimize any potential adverse effects on the Company's financial performance. Risk management is carried out by the senior management team.

a) Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to receivables and monies due from its processors.

The Company believes that its receivables balance is fully collectable. As of September 30, 2020, \$1,192,249 (December 31, 2019 – \$460,843) in receivables was outstanding. The Company applies the simplified approach to providing for expected credit losses as prescribed by IFRS 9, which permits the use of the lifetime expected loss provision for all receivables. The loss allowance is based on the Company's historical collection and loss experience and incorporates forward-looking factors, where appropriate. The provision matrix below shows the expected credit loss rate at each aging category of receivables:
