

ACME Lithium to Participate in the Conference on Mining and Its Role in EV Demand Presented by Maxim Group LLC and Hosted by M-Vest on Tuesday, October 4th

Vancouver, British Columbia--(Newsfile Corp. - September 29, 2022) - **ACME Lithium Inc. (CSE: ACME) (OTCQX: ACLHF)** (the "Company", or "ACME"), announced today that Company CEO, Stephen Hanson has been invited to present at the ***Conference on Mining and its Role in EV Demand***, presented by Maxim Group LLC and hosted by M-Vest, on Tuesday, October 4th at 11 A.M. EDT.

Tate Sullivan, Industrials Research Analyst at Maxim Group, will host panel discussions with mining companies to discuss global supply trends of various materials that industrial companies need to buy in order to satisfy future demand for batteries and electric vehicles. Panels will discuss mining developments in the U.S. for lithium, nickel, and other mineral resources. Executives from mining companies will provide different perspectives on the long-term outlook for demand from battery and electric vehicle customers.

This conference will be live on M-Vest. To attend, just sign up to become an M-Vest member.

Neither the CSE nor its regulations service providers accept responsibility for the adequacy or accuracy of this news release. This news release may contain forward-looking information within the meaning of applicable securities laws ("forward-looking statements"). Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects," "plans," "anticipates," "believes," "intends," "estimates," "projects," "potential" and similar expressions, or that events or conditions "will," "would," "may," "could" or "should" occur and in this news release include but are not limited to the attributes of, timing for and expected benefits to be derived from exploration, drilling or development at ACME's project properties. Information inferred from the interpretation of drilling, sampling and other technical results may also be deemed to be forward-looking statements, as it constitutes a prediction of what might be found to be present when and if a project is actually developed. These forward-looking statements are subject to a variety of risks and uncertainties which could cause actual events or results to differ materially from those reflected in the forward-looking statements, including, without limitation: risks related to fluctuations in metal prices; uncertainties related to raising sufficient financing to fund the planned work in a timely manner and on acceptable terms; changes in planned work resulting from weather, logistical, technical or other factors; the possibility that results of work will not fulfill expectations and realize the perceived potential of the Company's properties; risk of accidents, equipment breakdowns and labour disputes or other unanticipated difficulties or interruptions; the possibility of cost overruns or unanticipated expenses in the work program; the risk of environmental contamination or damage resulting from the Company's operations and other risks and uncertainties. Any forward-looking statement speaks only as of the date it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking statement, whether as a result of new information, future events or results or otherwise.
