#### 1. CORPORATE INFORMATION AND CONTINUANCE OF OPERATIONS

American Pacific Mining Corp. (the "Company") was incorporated under the Business Corporations Act (British Columbia) on July 1, 2017, and is in the business of mineral exploration and development.

The Company's head office, principal address, registered address and records office is Suite 910 - 510 Burrard Street, Vancouver, B.C., V6C 3A8, Canada.

At the date of the unaudited condensed consolidated interim financial statements, the Company has not identified a known body of commercial grade mineral on any of its properties. The ability of the Company to realize the costs it has incurred to date on these properties is dependent upon the Company identifying a commercial mineral body, to finance its development costs and to resolve any environmental, regulatory or other constraints which may hinder the successful development of the property. To date, the Company has not earned any revenues and is considered to be in the exploration stage.

These unaudited condensed consolidated interim financial statements have been prepared assuming the Company will continue on a going-concern basis. The Company has incurred losses since its inception and the ability of the Company to continue as a going-concern depends upon its ability to raise adequate financing and to develop profitable operations. As at June 30, 2019, the Company had working capital of \$1,512,236 and an accumulated deficit of \$5,153,927. The Company's continuation as a going concern is dependent upon the successful results from its mineral property exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. Management intends to funds operating costs over the next twelve months with cash and cash equivalents and through further equity financings. On July 29, 2019, the Company completed a non-brokered private placement of 9,325,000 units at a price of \$0.10 for gross proceeds of \$932,500. Management believes that the Company has sufficient working capital to meet its liabilities for the next twelve months.

These unaudited condensed consolidated interim financial statements of the Company for the six months ended June 30, 2019 were approved by the Board of Directors on August 26, 2019.

#### 2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

#### Basis of preparation

These financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. These unaudited condensed consolidated interim financial statements follow the same accounting policies and methods of application as the annual audited financial statements for the year ended December 31, 2018. Certain amounts in prior periods have been reclassified to conform to the current period presentation.

(Expressed in Canadian Dollars)

#### 2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (CONTINUED)

#### **Basis of preparation (continued)**

This interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended December 31, 2018. However, this interim financial report provides selected significant disclosures that are required in the annual financial statements under IFRS.

#### **Basis of consolidation**

These unaudited condensed consolidated interim financial statements comprise the accounts of the Company and the following wholly-owned subsidiary of the Company:

American Pacific Mining (US) Inc. ("APM US")

APM US has a reporting date of December 31.

#### **Subsidiaries**

A subsidiary is an entity over which the Company has power to govern the operating and financial policies in order to obtain benefits from its activities. #### 3. NEW ACCOUNTING STANDARDS

#### Adoption of new and amended accounting standards

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for accounting periods beginning before or on January 1, 2019.

The adoption of the following IFRS pronouncement will result in enhanced financial statement disclosures in the Company's annual consolidated financial statements.

#### IFRS 16 - Leases

New standard to establish principles for recognition, measurement, presentation and disclosure of leases with an impact on lessee accounting, effective for annual periods beginning on or after January 1, 2019. Under IFRS 16, as a lessee, the Company is required to recognize all leases in the statement of financial position as a "right-of-use" asset and a lease liability unless the lease term is 12 months or less or the underlying asset has a very low value.

(Expressed in Canadian Dollars)

#### 3. NEW ACCOUNTING STANDARDS (CONTINUED)

#### Adoption of new and amended accounting standards (continued)

#### IFRS 16 - Leases (continued)

The asset is subsequently accounted for in accordance with the cost or revaluation model in IAS 16 Property, Plant and Equipment or as Investment Property under IAS 40 Investment Property. The liability is unwound over the term of the lease giving rise to an interest expense. The adoption of this standard did not have an impact on the unaudited condensed consolidated interim financial statements.

#### IFRIC 23 – Uncertainty over Income Tax Treatments

This standard was issued by the IASB in June 2017 and specifies the interpretation to be applied to the determination of taxable profit, tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under IAS 12. IFRIC 23 is effective for annual periods beginning on or after January 1, 2019 with early adoption permitted. The adoption of this standard did not have an impact on the unaudited condensed consolidated interim financial statements

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets. The Company has investigated title to all of its exploration and evaluation assets, and, to the best of its knowledge, title to all of its properties, are properly registered and in good standing.

#### 11. CAPITAL MANAGEMENT

The Company defines its components of equity as capital. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue business opportunities and to maintain a flexible capital structure that optimizes the costs of capital at an acceptable risk.

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust capital structure, the Company may consider issuing new shares, and/or issue debt, acquire or dispose of assets, or adjust the amount of cash on hand.

The Company's investment policy is to keep its cash on deposit in an interest-bearing Canadian chartered bank account. Set out below are the Company's financial assets and liabilities by category:

	Jun	e 30, 2019	December 31, 2018		
Financial assets:					
Fair value through profit and loss

IFRS 13 establishes a fair value hierarchy that reflects the significance of inputs used in making fair value measurements as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3: Inputs that are not based on observable market data.

The Company has determined the estimated fair values of its financial instruments based upon appropriate valuation methodologies.

#### a) Fair value (continued)

The levels of the fair value inputs used in determining estimated fair value of the Company's financial assets and liabilities at FVTPL, and FVTOCI financial instruments as at June 30, 2019 and December 31, 2018 are shown below.

					Estimated	fair values		
	Jun	e 30, 2019		Level 1	Leve	el 2	Level 3

#### b) Financial risk management

#### Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's exposure to credit risk includes cash, term deposits and amounts receivable.

The Company's cash is held at a large Canadian financial institution in interest bearing accounts. The Company has no investments in asset-backed commercial paper.

The Company's maximum exposure to credit risk is the carrying value of its financial assets.

Management believes that the credit risk concentration with respect to these financial instruments is remote. Cash and term deposits based in Canada are accessible. The Company's amounts receivable balance does not represent significant credit exposure as it is principally due from the Government of Canada.

#### Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. The Company manages liquidity by maintaining adequate cash balances to meet liabilities as they become due.

At June 30, 2019, the Company had cash of \$650,725 and accounts payable and accrued liabilities of \$167,354. All accounts payable and accrued liabilities are current.

(Expressed in Canadian Dollars)

#### 12. FINANCIAL INSTRUMENTS (CONTINUED)

#### b) Financial risk management (continued)

#### Market risk

The significant market risks to which the Company is exposed are interest rate risk, foreign currency risk, and price risk.

#### Interest Rate Risk

Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's cash is held at a Canadian chartered bank. Management believes that the credit risk concentration with respect to cash is remote as the cash are easily accessible.

The Company's interest rate risk principally arises from the interest rate impact of interest earned on cash and term deposit. A 1% change in interest rates on the balance of cash at June 30, 2019 would result in an approximately \$65,000 change to the Company's net loss for the six months ended June 30, 2019.

#### Foreign Currency risk

The Company is exposed to currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars ("CAD"). The Company has not entered into any foreign currency contracts to mitigate this risk.

The Company's cash, subscriptions receivable, and accounts payable and accrued liabilities are held in CAD and United States dollars ("USD"); therefore, USD accounts are subject to fluctuation against the CAD.

The Company's financial instruments were denominated as follows as at June 30, 2019:

	in Canadian dollars	in US dollars
Cash	638,638	9,236
Amounts receivable	65,432	-
Reclamation deposit	-	20,000
Accounts payable and accrued liabilities	(99,079)	(52,173)
Total foreign currencies	604,991	(22,937)
Foreign currency rate	1.000	1.3086
Equivalent to Canadian dollars	\$ 604,991	(30,016)

Based on the above net exposures as at June 30, 2019, and assuming that all other variables remain constant, a 10% change of the CAD against the USD would change profit or loss by approximately \$3,000.

#### Commodity price risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities may be subject to risks associated with fluctuations in the market price of commodities. The Company is not exposed to significant other price risk.
