EXPLORATION AND EVALUATION ASSETS

Pilgrim Property

On December 23, 2020, the Company entered into a share purchase agreement (the "Share Purchase Agreement") with shareholders of Pilgrim Exploration Corp. ("Pilgrim"), under which the Company acquired all of Pilgrim's issued and outstanding common shares. Pilgrim was the registered holder of 10 mineral exploration claims located in the Nelson Mining District in British Columbia. In exchange for the purchase of Pilgrim's shares, the Company issued 3,000,000 units valued at \$540,000. Each unit is comprised of one common share and one-half of one share purchase warrant exercisable into one common share at an exercise price of \$0.35 for a period of two years from the date of issuance.

In connection with the transaction, the Company also issued 300,000 units as finder's fees, with each unit comprising of one common share and one common share purchase warrant. Each warrant was exercisable into one common share at an exercise price of \$0.63 for a period of two years from the date of issuance.

The acquisition of Pilgrim did not meet the definition of a business combination, and therefore has been accounted for as an asset purchase of mineral property interests with the Company acquiring the outstanding shares of Pilgrim on December 23, 2020. The consideration for the acquisition of Pilgrim was based on the fair value of the units issued as of the date of their issuance.

The following table summarizes the fair value of the total consideration paid and the aggregate fair value of identified assets acquired and liabilities assumed:

Purchase price	\$
3,000,000 units of the Company	540,000
300,000 units for finders' fees	54,000
	594,000
Net assets acquired	\$
Exploration and evaluation assets	594,000

During the year ended October 31, 2022, the company determined that further exploration of the Pilgrim property was not planned as it focuses on other properties and accordingly the Pilgrim property was considered impaired and \$594,000 in acquisition costs were written off.

Each warrant was exercisable into one common share at an exercise price of \$0.42 for a period of two years from the date of issuance.

In connection with the transaction, the Company issued 310,000 units for finder's fees, with each unit comprising of one common share and one common share purchase warrant. Each warrant was exercisable into one common share at an exercise price of \$0.63 for a period of two years from the date of issuance.

The transaction did not meet the definition of a business combination and therefore, has been accounted for as an asset purchase of mineral property interests with the Company acquiring the outstanding shares of Folkestone on January 25, 2021. The consideration for the acquisition of Folkestone has been calculated at fair value of the units issued on the date of issuance.

In the management of capital, the Company includes the components of shareholders' equity as well as cash. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new shares, issue debt, acquire or dispose of assets or adjust the amount of cash.
