("Cannvas" or the "Company") (CSE: MTEC) (Frankfurt: 3CM)**, a leader in digital cannabis education and a leading business technology company in the cannabis space, and **Medical Marihuana Patient Relief Inc. ("MMPatient Relief")**, a private late-stage Access to Cannabis for Medical Purposes Regulations ("ACMPR") license applicant, are pleased to announce the signing of a letter of intent (the "LOI"), to negotiate, in good faith, a joint marketing agreement whereby the two companies will work together to market and promote cannabis education. "Working with Cannvas enables us to have the latest education content which is a core component to meeting our objectives."

"It's encouraging to see an innovative Canadian cannabis company like MM Patient Relief recognize the value of unbiased cannabis education to become a valuable partner with the Cannvas.Me platform and help spread awareness on the potential health benefits the plant offers," said Steve Loutskou, Chief Operating Officer, Global Markets, Cannvas MedTech Inc. "Working closely with MMPatient Relief to create a joint marketing program highlighting both our strengths in the cannabis sector, we hope to leverage the Cannvas.Me platform to provide relevant and timely cannabis learning to potential and active MM Patient Relief clients focused on familiarizing themselves with its high quality products."

MM Patient Relief Inc. will be using proprietary technology to increase the crop yield and quality of cannabis produced in a newly renovated stand-alone 10,000 sq.ft. building in Tecumseh, Ontario. It is planning to market to sophisticated customers seeking superior strains and alternatives to long-term pharmaceutical pain relief. MM Patient Relief is a 100% private and locally-owned business.

MM Patient Relief products will be featured in Cannvas Kiosks, a network of digital cannabis education kiosks powered by the Cannvas.Me platform and installed in high-traffic medical and retail areas. Products will also be placed in Cannvas Marché locations, a brick-and-mortar education hub with digital learning resources, on-site medical and educational staff and a fulfillment program. Each Marché also offers hands-on education sessions on a variety of cannabis-related topics with no pressure to purchase or consume.
