IZOTROPIC CORPORATION

Notes to the Condensed Interim Consolidated Financial Statements

For the six months ended October 31, 2018

Expressed in Canadian Dollars

(Unaudited – prepared by management)

1. NATURE AND CONTINUANCE OF OPERATIONS

Izotropic Corporation (the “Company”) was incorporated in the Province of British Columbia on May 19, 2016, under the Business Corporations Act of British Columbia. The Company’s head office is located at 800 – 15355 24 Avenue, Suite 424, Surrey, British Columbia, Canada. The Company is a research and development company specializing in cancer research and early detection for breast cancer.

On April 25, 2017, the Company entered into an agreement with the Regents of the University of California (the “Regents”) for an Exclusive License Agreement related to breast cancer detection and treatment (Note 9).

These condensed interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The Company’s financial success is dependent on management’s ability to raise adequate financing on reasonable terms and to commence profitable operations in the future. The proposed business of the Company involves a high degree of risk and there is no assurance that the Company will identify proper technologies or inventions that will be successful, and even if so identified and warranted, it may not be able to finance such technologies within the requisite time period. These factors indicate the existence of a material uncertainty which may cast significant doubt about the Company’s ability to continue as a going concern. Should the Company be unable to realize its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded in these consolidated interim financial statements. These consolidated interim financial statements do not include adjustments that would be necessary should the Company be unable to continue as a going concern.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

The condensed interim consolidated financial statements were authorized for issue by the Board of Directors on December 20, 2018.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basic of measurement

These financial statements are prepared on a historical cost basis except for financial instruments classified as fair value through profit or loss, which are stated at their fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Basis of consolidation

The consolidated financial statements include the accounts of the Company and its controlled entity. The controlled entity is fully consolidated from the date of acquisition, being the date on which the Company obtains control and continues to be consolidated until the date such control ceases. Inter-company balances and transactions have been eliminated upon consolidation.

Use of estimates

The preparation of these consolidated financial statements requires management to make judgements and estimates that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include the going concern of operations and the recoverability of deferred tax assets.

Presentation and functional currency

The functional and presentation currency, as determined by management, of the Company and its subsidiary is Canadian dollar.

Accounting policies

The policies applied in these condensed interim financial statements are consistent with policies disclosed in Note 2 of the financial statements for the year ended April 30, 2018. Therefore, these condensed interim consolidated financial statements should be read in conjunction with the Company's audited financial statements for the year ended April 30, 2018.

6. PROMISSORY NOTE

On April 25, 2016, the Company entered into a secured promissory note for a principal amount of \$200,000, bearing interest at a rate of 5%. The proceeds were received on May 30, 2016 and is due on demand after May 30, 2018. As security for the promissory note, the Company provided an assignment agreement, exercisable at the sole discretion of the lender, to transfer 1,000,000 escrow shares of the Company, as collateral. Upon full repayment of the promissory note and accrued interest, the assignment agreement will be cancelled.

On issuance, the estimated fair value of the promissory note was determined to be \$166,352, resulting the recognition of a discount of \$33,648 upon issuance, which was recorded as promissory note reserve and amortized over the term of the promissory note.

On October 12, 2017, the Company fully repaid the promissory note and accrued interest of \$215,000. During the year ended April 30, 2018, the Company recognized interest and accretion of \$24,726 (2017: \$23,922), which has been recorded as interest expense. On settlement, the Company reclassified the amount originally recorded to the reserve to deficit.

11. CAPITAL MANAGEMENT

The Company manages its capital, consisting of share and working capital, in a manner consistent with the risk characteristic of the assets it holds. All sources of financing are analyzed by management and approved by the board of directors.

The Company’s objectives when managing capital is to safeguard the Company’s ability to continue as a going concern. The Company is meeting its objective of managing capital through preparing short-term and long-term cash flow analysis to ensure an adequate amount of liquidity. The Company is not subject to any externally imposed capital restrictions.

There were no changes in the Company's approach to capital management during the period. The Company is not subject to any external restrictions on its capital.

12. FINANCIAL RISK MANAGEMENT

The Company is exposed in varying degrees to a variety of financial instrument related risks.

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company’s primary exposure to credit risk is on its cash. Cash is held with the same financial institution giving rise to a concentration of credit risk. This risk is managed by using a major Canadian bank that is a high credit quality financial institution.

12. FINANCIAL RISK MANAGEMENT (continued)

Liquidity risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements. The Company's sole source of funding will be the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

Foreign exchange risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. During the year ended April 30, 2017, the Company entered into a licensing agreement denominated in US dollars. The Company does not hedge its exposure to fluctuations in foreign exchange rates.

Interest rate risk

Interest rate risk refers to the risk that fair values of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company is exposed to interest rate risk as cash earn interest income at variable rates. The fair value of cash is minimally affected by changes in short term interest rates.
