

NEXUS REPRICES NON-BROKERED FINANCING OF UNITS

NOT FOR DISTRIBUTION TO U.S. NEWSWIRES OR DISSEMINATION IN THE UNITED STATES

Vancouver, British Columbia – April 9, 2024 – Nexus Uranium Corp. (CSE: NEXU, OTCQB: GIDMF, FRA: 3H1) (the “**Company**” or “**Nexus**”) announces that it is repricing its previously announced offering (the “**Offering**”) of units (“**Units**”).

Under the original terms of the Offering, the Company was proposing to issue a minimum of 1,333,333 Units at a price of \$0.60 and a maximum of 2,000,000 Units at a price of \$0.60 per Unit. Under the revised terms of the Offering, the Company will issue a minimum of 1,600,000 Units and a maximum of 2,400,000 Units at a price of \$0.50 per Unit. The minimum gross proceeds (\$800,000) and maximum gross proceeds (\$1,200,000) remains unchanged.

Each Unit will consist of one common share of the Company (a “**Common Share**”) and one Common Share purchase warrant (a “**Warrant**”). Each Warrant will entitle the holder thereof to purchase one Common Share of the Company (a “**Warrant Share**”) for a period of 24 months following the Closing Date of the Offering at an exercise price of \$0.60 per Warrant Share.

The Offering is structured to take advantage of the listed issuer financing exemption whereby the securities of the Company issued pursuant to the Offering will be freely tradeable equity securities not subject to a hold period (see below).

Subject to compliance with applicable regulatory requirements and in accordance with National Instrument 45-106 - *Prospectus Exemptions* (“**NI 45-106**”), the Offering is being made to purchasers resident in each of the Provinces of Canada, except Quebec, pursuant to the listed issuer financing exemption under Part 5A of NI 45-106 (the “**Exemption**”). The securities offered under the Exemption will not be subject to a hold period in accordance with applicable Canadian securities laws. There is an amended and restated offering document (the “**Offering Document**”) related to the Offering that can be accessed under the Company's profile at www.sedarplus.ca and on the Company's website at www.nexusuranium.com. Prospective investors should read this Offering Document before making an investment decision.

Upon closing of the Offering, the Company may pay to certain eligible finders a cash finder's fee of up to 7.0% of the aggregate gross proceeds of the Offering. The Company may also issue to such finders non-transferrable warrants of the Company exercisable at any time prior to the date that is 24 months from the

Closing Date to acquire that number of Common Shares equal to 7.0% of the number of Units issued under the Offering, at an exercise price of \$0.60.

The Company plans to use the net proceeds of the Offering to fund payments due under its existing option agreements and land holding obligations, to complete exploration work and for general corporate purposes and working capital.

The Offering is scheduled to close on or about April 25, 2024 (the "**Closing Date**") and completion of the Offering is subject to certain conditions including the receipt of all necessary approvals, including the approval of the Canadian Securities Exchange.

About Nexus Uranium Corp.

Nexus Uranium Corp. is a multi-commodity development company focused on advancing the Cree East uranium project in the Athabasca Basin and the Wray Mesa uranium-vanadium project in Utah in addition to its precious metals portfolio that includes the development-stage Independence mine located adjacent to Nevada Gold Mine's Phoenix-Fortitude mine in Nevada, the Napoleon gold project in British Columbia, and a package of gold claims in the Yukon. The Wray Mesa project covers 6,282 acres within the heart of the prolific Uruvan mining district in Utah and has extensive historical drilling of over 500 holes defining multiple mineralized zones. The Independence project hosts an M&I (measured and indicated) resource of 334,300 ounces of gold (28M tonnes at 0.41 g/t gold) and an inferred resource of 847,000 ounces (9M tonnes at 3.22 g/t gold) of gold with a substantial silver credit. A 2021 Preliminary Economic Assessment (PEA) outlined a low-cost heap leach operation focusing on the near-surface resource with total production of 195,443 ounces of gold at an all-in sustaining cost of \$1,078 (U.S.) per ounce of gold. The Napoleon project comprises over 1,000 hectares and prospective for multiple forms of gold mineralization, with exploration in the area dating back to the 1970s with the discovery of high-grade gold. The Yukon gold projects are comprised of almost 8,000 hectares of quartz claims prospective for high-grade gold mineralization with historical grab sampling highlights of 144 g/t gold.

Nexus Uranium cautions investors the preliminary economic assessment is preliminary in nature, it includes inferred mineral resources that are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves, and there is no certainty that the preliminary economic assessment will be realized. The Company further cautions investors Mineral Resources which are not Mineral Reserves do not have demonstrated economic viability and further cautions investors the quantity and grade of the reported inferred Mineral Resources are

uncertain in nature and there has been insufficient exploration to define these inferred Mineral Resources as indicated Mineral Resources.

The Company cautions investors it has yet to verify the historical data and further cautions investors grab samples are selective by nature and are unlikely to represent average grades of sampling on the entire property.
