Notes to the Condensed Interim Financial Statements (unaudited)

For the three months ended March 31, 2022 and 2021

1. Nature of Operations and Going Concern

Graycliff Exploration Limited (formerly 1093683 B.C. Ltd.), a company incorporated under the laws of British Columbia, Canada (the “**Company**” or “**Graycliff**”) is engaged in the acquisition, exploration, development and extraction of natural resources, specifically precious metals.

Its head office is located at 401 Bay Steet, Suite 2702, Toronto, Ontario, Canada. The Company is listed on the Canadian Securities Exchange, trading under the symbol “GRAY” and effective December 16, 2020, it began trading on the OTCQB Venture Marketplace (“OTCQB”) under the symbol “GRYCF”

Mineral exploration projects, even when successful, require large amounts of exploration investment to prove mineable reserves, generally over long periods of time, prior to commencement of production. The ability of the Company to continue as a going concern is dependent upon, among other things, being able to obtain additional financing, the continued support of its existing shareholders, and the outlining and development of commercial deposits of metals at its project to generate positive cash flows from operations. While the Company has been successful in securing financing and identifying suitable properties to date, there is no assurance that the Company will continue to be successful in achieving these objectives.

As at March 31, 2022, the Company had a working capital balance of \$1,302,889 (December 31, 2021 - \$2,113,412) and an accumulated deficit of \$7,809,398 (December 31, 2021 - \$6,998,875). The Company’s ability to continue operations is dependent on management’s ability to secure additional financing, and while it has been successful in doing so in the past, there can be no assurances that it will be able to do so in the future. These conditions indicate the existence of material uncertainties that may cast significant doubt about the Company’s ability to continue as a going concern.

The ability of the Company to realize the costs it has incurred to date on its properties is dependent upon the Company being able to identify economically recoverable reserves, to finance their development costs and to resolve any environmental, regulatory or other constraints, which may hinder the successful development of the reserves. Although the Company has taken steps to verify title to the properties on which it is conducting exploration and development activities and in which it has an interest, in accordance with industry standards for the current stage of exploration and development of such properties, these procedures do not guarantee the Company’s title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, and non-compliance with regulatory and environmental requirements.

The accompanying annual financial statements have been prepared using International Financial Reporting Standards applicable to a going concern. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern. It would, in this situation, be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying Financial Statements. Such adjustments could be material.

In March 2020, the COVID-19 outbreak was declared a global pandemic by the World Health Organization. The situation is dynamic and the ultimate duration and magnitude of the impact on the economy, capital markets and the Company’s financial position cannot be reasonably estimated at this time. The Company is monitoring developments and will adapt its business plans accordingly. The actual and threatened spread of COVID-19 globally could adversely impact the Company’s ability to carry out its plans and raise capital.

These unaudited condensed interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes the realization of assets and discharge of liabilities in the normal course of business. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern. It would, in this situation, be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying Financial Statements. Such adjustments could be material.

2. Basis of Presentation

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the IFRS Interpretations Committee ("IFRIC"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim financial statements are based on IFRS issued and outstanding as of May 26, 2022, the date the Board of Directors approved the financial statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2021, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2021 could result in restatement of these unaudited condensed interim financial statements.

Basis of presentation

These unaudited condensed interim financial statements have been prepared on a historical cost basis, with the exception of financial instruments classified at fair value through profit or loss ("FVTPL"). In addition, these unaudited interim condensed financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Functional and presentation currency

These unaudited condensed interim financial statements are presented in Canadian Dollars, which is also the functional currency of the Company. All financial information is expressed in Canadian Dollars otherwise stated and has been rounded to the nearest dollar.

Recent Accounting Pronouncements

At the date of authorization of these unaudited condensed interim financial statements, the IASB and the IFRIC have issued the following amendments which are effective for annual periods beginning on or after January 1, 2022. Many are not applicable or do not have a significant impact to the Company and have been excluded. The Company is currently assessing the impact upon the adoption of the following amendments on its financial statements:

Amendments to IAS 1

In January 2020, the IASB issued amendments to IAS 1 which clarify the requirements for classifying liabilities as either current or non-current by: (i) specifying that the conditions which exist at the end of the reporting period determine if a right to defer settlement of a liability exists; (ii) clarifying that settlement of a liability refers to the transfer to the counterparty of cash, equity instruments, other assets or services; (iii) clarifying that classification is unaffected by management's expectation about events after the balance sheet date; and (iv) clarifying the classification requirements for debt an entity may settle by converting it into equity.

The amendments clarify existing requirements, rather than make changes to the requirements, and so are not expected to have a significant impact on an entity's financial statements. However, the clarifications may result in reclassification of some liabilities from current to non-current or vice-versa, which could impact an entity's loan covenants. Because of this impact, the IASB has provided a longer effective date to allow entities to prepare for these amendments. In July 2020, the IASB issued an amendment to defer the effective date of the amendments by one year from its originally planned effective date to annual periods beginning on or after January 1, 2023 due to the impact of COVID-19. Early application is permitted.

2. Basis of Presentation (Cont'd)

Amendments to IAS 37 – Provisions, Contingent Liabilities and Contingent Assets (“IAS 37”)

In May 2020, the IASB issued amendments to update IAS 37. The amendments specify that in assessing whether a contract is onerous under IAS 37, the cost of fulfilling a contract includes both the incremental costs and an allocation of costs that relate directly to contract activities. The amendments also include examples of costs that do, and do not, relate directly to a contract. These amendments are effective for annual periods beginning on or after January 1, 2022. Earlier application is permitted.

Amendments to IAS 8

In February 2021, the IASB issued Definition of Accounting Estimates, which amended IAS 8. The amendments clarify how companies should distinguish changes in accounting policies from changes in accounting estimates. That distinction is important because changes in accounting estimates are applied prospectively only to future transactions and other future events, but changes in accounting policies are generally also applied retrospectively to past transactions and other past events. The amendments to IAS 8 are effective for annual periods beginning on or after January 1, 2023. Early application is permitted.

3. Amounts Receivable

On January 15, 2020, the Company advanced \$50,000 to Venex Capital (“Venex”), a Company controlled by one of Graycliff’s former directors, in the form of an unsecured demand loan bearing interest at 5% per annum. On February 13, 2020, the Company advanced a further \$25,000 to Venex in the form of an unsecured demand loan bearing interest at 5% per annum. On June 30, 2020, Venex repaid \$25,000 of the initial \$50,000 demand loan, resulting in a balance of \$50,000 plus accrued interest of \$1,612 included in Advances Receivable at June 30, 2020. On July 13, 2020, July 21, 2020 and July 29, 2020, Venex repaid a further \$7,500, \$22,500 and \$20,000, respectively, of the demand loan receivable leaving only accrued interest of \$1,774 outstanding as of March 31, 2022.

4. Flow-through Share Premium Liability

The flow-through common shares issued in a financing are often issued at a premium to the market price in recognition of the tax benefits accruing to subscribers. The flow-through premium is recorded as a liability and derecognized through income as the eligible expenditures are incurred. At March 31, 2022, there is no flow-through premium recorded.

As of March 31, 2022, the Company must incur \$902,097 in eligible exploration expenditures on or before December 31, 2022 (December 31, 2021 - \$1,338,402).

5. Convertible Debenture

On September 24, 2020, Graycliff closed a \$530,000 non-brokered private placement offering of 5% unsecured convertible debentures (the “Debenture”) at an issue price of \$1,000 per Debenture. The Debenture had a maturity of twenty-four months and bore interest at a rate of 5% per annum, payable at maturity in cash or common shares of the Company (“Common Shares”) at a conversion price of \$0.60 per common share. Each holder had the option to convert prior to maturity at the same conversion price.

The fair value of the liability was recorded at \$415,031, discounted at an effective interest rate of 18%. The \$114,969 residual value of the Debenture is allocated to the conversion feature. The Company incurred transaction costs of \$3,450 which was allocated pro-rata on the value of the conversion feature and the liability component.

Balance, December 31, 2020	\$ 432,396
Interest expense	6,462
Accretion expense	12,507
Balance on conversion	\$ 451,365

On March 31, 2021, these debentures were converted to common shares in advance of their maturity date. As a result of the early conversion, the Company issued 905,961 common shares, including 22,628 common shares that were issued for the accrued interest on the Debentures. The Company recognized a gain on conversion of \$22,009 representing the difference between the principal amount of the debt and accrued interest thereon and the discounted book value of the debt.

On January 20, 2021, Graycliff completed a non-brokered private placement offering of 400,000 units issued at a price of \$0.50 per unit for gross proceeds of \$200,000. Each unit is comprised of one common share and one-half of one common share purchase warrant. Each whole warrant is exercisable to acquire one common share for a period of 24 months following the closing at an exercise price of \$0.60 per common share. The Company paid finder's fee commissions of \$9,200 cash and 18,400 finder's warrants on the financing. Each finder's warrant has a strike price of \$0.50 per share and an expiry two years from the closing.

On March 30, 2021, the Company issued 250,000 common shares, to acquire key mining leases and claims which consolidate the ground surrounding the Shakespeare Gold Mine located within Graycliff's Shakespeare Gold Project. These shares were valued at \$225,000.

On April 8, 2021 and April 21, 2021, a total of 375,000 options were exercised resulting in \$67,750 in proceeds for the Company.

6. Share Capital (Cont'd)

On April 14, 2021, the Company completed a non-brokered private placement offering of 1,246,333 non flow-through units (the "NFT Unit") at \$0.75 per NFT Unit and 1,875,000 flow through shares ("FT Share") at a price of \$0.80 per FT Share of the Company for gross proceeds of \$2,434,750. Each NFT Unit consists of one common share which is not a "flow-through" share and one-half purchase warrant ("NFT Warrant"). Each whole NFT Warrant will entitle the holder to purchase one additional common share which is not a "flow-through" share at a price of \$1.00 for two years from the closing. The Company paid finder's fee commissions of \$167,808 cash and issued 214,993 finder's warrants on the Financing. Each finder's warrant has an exercise price of \$0.75 per share and an expiry two years from the closing.

On May 12, 2021, the Company acquired additional mining claims adjacent to the Company's Shakespeare Gold Project. Under the terms of the acquisition, Graycliff issued 1,800,000 common shares (recorded as project acquisition costs in operations), valued at \$936,000, for a 100% interest in the Baldwin Project, subject to a 2% net smelter return royalty.

On August 23, 2021, pursuant to its Shakespeare Property option agreement (see Note 12), Graycliff issued 500,000 common shares, valued at \$237,500 recorded as project acquisition costs in operations.

On December 7, 2021, Graycliff completed the first tranche of a private placement offering of 3,589,963 flow-through units ("FT Unit") at a price of \$0.30 per FT Unit of the Company for gross proceeds of \$1,076,990. Each FT Unit consists of one common share and one-half (1/2) purchase warrant with each whole warrant entitling the holder to purchase one common share at a price of \$0.45 for a period of two years from the closing date. The Company paid finders fees of \$73,499 in connection with this financing.

On December 15, 2021, Graycliff completed the second and final tranche of a private placement offering. The second tranche of the financing consisted of 1,171,663 Units (each, a "Unit") of the Company, issued at a price of \$0.30 per Unit for gross proceeds of \$351,499. Each Unit consists of one common share and one common share purchase warrant, with each warrant entitling the holder to purchase one common share at a price of \$0.45 for a period of two years from the closing date.

Warrants

In connection with the January 19, 2021 financing, the Company issued 200,000 warrants with an exercise price of \$0.60 per common share and 18,400 broker warrants, with each broker warrant having an exercise price of \$0.50 per common share. All of these warrants have an expiry two years from the date of issuance. The \$64,733 value of these warrants was calculated using the Black-Scholes option pricing model with the following weighted average assumptions: share price - \$0.47; risk free rate of return - 0.16%; expected volatility - 141%; expected life - 2 years; expected dividend yield - 0%.

In connection with the April 14, 2021 financing, the Company issued 623,166 warrants with an exercise price of \$1.00 per common share and 214,993 broker warrants, with each broker warrant having an exercise price of \$0.75 per common share. All of these warrants have an expiry two years from the date of issuance. The \$623,669 value of these warrants was calculated using the Black-Scholes option pricing model with the following weighted average assumptions: share price - \$1.00; risk free rate of return - 0.24%; expected volatility - 154%; expected life - 2 years; expected dividend yield - 0%.

In connection with the December 7, 2021 financing, the Company issued 1,794,981 warrants with an exercise price of \$0.45 per common share and 248,497 broker warrants, with each broker warrant having an exercise price of \$0.30 per common share. All of these warrants have an expiry two years from the date of issuance. The \$193,818 value of these warrants, and \$31,654 value of these finders warrants, was calculated using the Black-Scholes option pricing model with the following weighted average assumptions: share price - \$0.23; risk free rate of return - 1.14%; expected volatility - 119%; expected life - 2 years; expected dividend yield - 0%.

In connection with the December 15, 2021 financing, the Company issued 1,171,663 warrants with an exercise price of \$0.45 per common share. All of these warrants have an expiry two years from the date of issuance. The \$109,998 value of these warrants was calculated using the Black-Scholes option pricing model with the following weighted average assumptions: share price - \$0.21; risk free rate of return - 0.95%; expected volatility - 119%; expected life - 2 years; expected dividend yield - 0%.

8. Mineral Property Interests

On August 23, 2019, the Company signed an option agreement to acquire the Shakespeare Property in Ontario. Pursuant to this agreement, the Company allotted 500,000 common shares to the individuals from whom this property was optioned. These shares were subscribed and paid for as part of the October 24, 2019 financing.

The following are share and exploration expenditure commitments under the option agreement:

Share commitments:

- 500,000 shares within 24 months from the closing date of the option agreement (completed).

Exploration commitments:

- Incur exploration expenditures of \$100,000 within 12 months of the regulatory body approval of the transaction (completed).
- Incur additional exploration expenditures of \$200,000 within 24 months from the closing date of the option agreement; and an additional 500,000 shares (completed).

On October 15, 2020, the Company announced the acquisition of 15 additional mining claims comprising approximately 330 hectares at the Company's Shakespeare Gold Project. Under the terms of the acquisition, Graycliff issued 975,000 common shares for the new claims.

During the year ended December 31, 2021, the Company issued 2,550,000 common shares for acquisition of mining claims in Shakespeare Gold Project (see Note 6).
