1. Nature of Operations and Going Concern

Graycliff Exploration Limited (formerly 1093683 B.C. Ltd.), a company incorporated under the laws of British Columbia, Canada (the "Company" or "Graycliff") is engaged in the acquisition, exploration, development and extraction of natural resources, specifically precious metals.

Its head office is located at 2702-401 Bay Street Toronto, ON M5H 2Y4. The Company is listed on the Canadian Securities Exchange, trading under the symbol "GRAY" and effective December 16, 2020, it begin trading on the OTCQB Venture Marketplace ("OTCQB") under the symbol "GRYCF"

Mineral exploration projects, even when successful, require large amounts of exploration investment to prove mineable reserves, generally over long periods of time, prior to commencement of production. The ability of the Company to continue as a going concern is dependent upon, among other things, being able to obtain additional financing, the continued support of its existing shareholders, and the outlining and development of commercial deposits of metals at its project to generate positive cash flows from operations. While the Company has been successful in securing financing and identifying suitable properties to date, there is no assurance that the Company will continue to be successful in achieving these objectives.

These unaudited condensed interim financial statements have been prepared based on accounting principles applicable to a going concern, which assumes the realization of assets and discharge of liabilities in the normal course of business. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern. It would, in this situation, be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying Financial Statements. Such adjustments could be material.

As at March 31, 2023, the Company had a working capital balance of \$265,046 (December 31, 2022 - \$463,617) and an accumulated deficit of \$9,582,418 (December 31, 2022 - \$9,263,728). The Company's ability to continue operations is dependent on management's ability to secure additional financing, and while it has been successful in doing so in the past, there can be no assurances that it will be able to do so in the future. These conditions indicate the existence of material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern.

The ability of the Company to realize the costs it has incurred to date on its properties is dependent upon the Company being able to identify economically recoverable reserves, to finance their development costs and to resolve any environmental, regulatory or other constraints, which may hinder the successful development of the reserves. Although the Company has taken steps to verify title to the properties on which it is conducting exploration and development activities and in which it has an interest, in accordance with industry standards for the current stage of exploration and development of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, and non-compliance with regulatory and environmental requirements.

The accompanying annual financial statements have been prepared using International Financial Reporting Standards applicable to a going concern. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern. It would, in this situation, be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying Financial Statements. Such adjustments could be material.

2. Basis of Presentation

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the IFRS Interpretations Committee ("IFRIC"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim financial statements are based on IFRS issued and outstanding as of May 17, 2023, the date the Board of Directors approved the financial statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2022, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2022 could result in restatement of these unaudited condensed interim financial statements.

Basis of presentation

These unaudited condensed interim financial statements have been prepared on a historical cost basis, with the exception of financial instruments classified at fair value through profit or loss ("FVTPL"). In addition, these unaudited interim condensed financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Functional and presentation currency

These unaudited condensed interim financial statements are presented in Canadian Dollars, which is also the functional currency of the Company. All financial information is expressed in Canadian Dollars otherwise stated and has been rounded to the nearest dollar.

Recent Accounting Pronouncements

Amendments to IAS 12

On May 7, 2021, the IASB issued Deferred Tax related to Assets and Liabilities arising from a Single Transaction. The amendments narrow the scope of the initial recognition exemption ("IRE") so that it does not apply to transactions that give rise to equal and offsetting temporary differences. As a result, companies will need to recognize a deferred tax asset and a deferred tax liability for temporary differences arising on initial recognition of a lease and a decommissioning provision. The adoption of the new standard did not impact the financial statements of the Company.

Amendments to IAS 8

In February 2021, the IASB issued Definition of Accounting Estimates, which amended IAS 8. The amendments clarify how companies should distinguish changes in accounting policies from changes in accounting estimates. That distinction is important because changes in accounting estimates are applied prospectively only to future transactions and other future events, but changes in accounting policies are generally also applied retrospectively to past transactions and other past events. The amendments to IAS 8 are effective for annual periods beginning on or after January 1, 2023. The adoption of the new standard did not impact the financial statements of the Company.

Amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements

On February 12, 2021, the IASB issued Disclosure Initiative – Accounting Policies. The amendments help companies provide useful accounting policy disclosures. The adoption of the new standard did not impact the financial statements of the Company.

3. Amounts Receivable

On January 15, 2020, the Company advanced \$50,000 to Venex Capital ("Venex"), a Company controlled by one of Graycliff's former directors, in the form of an unsecured demand loan bearing interest at 5% per annum. On February 13, 2020, the Company advanced a further \$25,000 to Venex in the form of an unsecured demand loan bearing interest at 5% per annum. Over the course of 2020, Venex repaid the loan and accrued interest, leaving only accrued interest of \$1,774 outstanding as of December 31, 2021 and 2020. During 2022, the outstanding accrued interest was received in full.

Included in the amounts receivable as of March 31, 2023 is HST receivable of \$21,189 (2022 - \$84,616).

4. Flow-through Share Premium Liability

The flow-through common shares issued in a financing are often issued at a premium to the market price in recognition of the tax benefits accruing to subscribers. The flow-through premium is recorded as a liability and derecognized through income as the eligible expenditures are incurred. At March 31, 2022, there is no flow-through premium recorded.

As of March 31, 2023, the Company had met all of its flow-through expenditure obligations (as at March 31, 2022 – had an obligation to incur \$902,097 in eligible exploration expenditures on or before December 31, 2022).

On July 12, 2022, the Company closed the first tranche of a private placement, issuing 2,950,000 units for gross proceeds of \$590,000. Each unit consisted of one common share and one common share purchase warrant. Each warrant entitles the holder to purchase one additional common share at a price of \$0.30 for a period of 36 months from the date of issue.

On September 7, the Company closed the second and final closing of this financing, raising an additional \$20,000 and issuing 100,000 units. In connection with the first closing of the private placement, the Company paid a cash finder's fee of \$39,000 and issued 160,000 finder's warrants, representing 8% cash and 8% finder's warrants. The Company did not pay finder's fees as part of the second close. The terms of the finders' warrants are identical to the warrants attached to the financing.

On March 2, 2023, the Company issued 2,000,000 common shares for the purchase of new claims.

Warrants

In connection with the July 12, 2022, financing, the Company issued 2,950,000 warrants with an exercise price of \$0.30 per common share. All of these warrants have an expiry three years from the date of issuance. The \$248,570 value of these warrants was calculated using the Black-Scholes option pricing model with the following weighted average assumptions: share price - \$0.18; risk free rate of return - 3.17%; expected volatility - 86%; expected life - 3 years; expected dividend yield - 0%.

Warrants (cont'd)

On July 14, 2022, financing, the Company issued 160,000 finders warrants with an exercise price of 0.30 per common share. All of these warrants have an expiry three years from the date of issuance. The 14,038 value of these warrants was calculated using the Black-Scholes option pricing model with the following weighted average assumptions: share price - 0.19; risk free rate of return - 0.25; expected volatility - 0.25; expected life - 0.25; expected dividend yield - 0.25.

In connection with the September 7, 2022, financing, the Company issued 100,000 warrants with an exercise price of \$0.30 per common share. All of these warrants have an expiry three years from the date of issuance. The \$4,955 value of these warrants was calculated using the Black-Scholes option pricing model with the following weighted average assumptions: share price - \$0.12; risk free rate of return – 3.56%; expected volatility - 94%; expected life - 3 years; expected dividend yield - 0%.

At March 31, 2022, there were 7,595,300 warrants outstanding, with each warrant entitling the holder to acquire one common share of the Company at the prices noted below:

6. Related Party Transactions (Cont'd)

The Company incurred the following charges with directors and/or officers of the Company and/or companies controlled by them for the three-month periods ended March 31, 2023 and 2022:

	March 31, 2023	March 31, 2022
	(\$)	(\$)
Consulting - President and CEO	22,500	22,500
Consulting - CFO	15,000	15,000
•	37,500	37,500

At March 31, 2023, \$11,737.50 was due to the Company's President and CEO on account of unpaid fees. This amount is accrued and included in accounts payable.

During the quarter ended March 31, 2023, a company, in which a Graycliff director is a principal, received \$10,500 for marketing and corporate services (quarter ended March 31, 2022 - \$10,500).

7. Mineral Property Interests

On August 23, 2019, the Company signed an option agreement to acquire 100% of the Shakespeare Gold Project ("Shakespeare") in Ontario, subject to a 2% net smelter return ("NSR") royalty. Pursuant to this agreement, the Company allotted 500,000 common shares to the individuals from whom this property was optioned. These shares were subscribed and paid for as part of the October 24, 2019 financing. The Company also had to issue an additional 500,000 common shares prior to August 23, 2021 and incur \$100,000 by August 23, 2020 and an additional \$200,000 by August 23, 2021 on exploration expenditures. The Company owns the property outright, subject to the NSR.

On October 15, 2020, the Company announced the acquisition of 15 additional mining claims comprising approximately 330 hectares at Shakespeare. Under the terms of the acquisition, Graycliff issued 975,000 common shares for the new claims.

During the year ended December 31, 2021, the Company issued 2.550,000 common shares for acquisition of mining claims at Shakespeare (see Note 6).

On March 2, 2023, the Company signed an asset purchase agreement to acquire the Lunge Project, subject to a 2% NSR, in the Sudbury Basin of Ontario. The newly acquired project comprises 27 claim units covering 601 hectares. Under the terms of the acquisition, Graycliff issued 2,000,000 common shares for the new claims.

8. Loss Per Share

The calculation of basic loss per share for the three months ended March 31, 2023 and 2022 was based on total loss attributable to common shareholders of \$318,690 (2022 - \$810,523) and a weighted average number of common shares outstanding of 33,886,342 (2022 - 30,003,801).

Diluted loss per share equals basic loss per share as all outstanding options and warrants were anti-dilutive for all periods presented.

9. Right of Use Asset and Lease Liability

On June 1, 2022, the Company entered into a lease agreement for office space in Ontario, Canada. The lease payments are discounted using an interest rate of 15%, which is the Company's incremental borrowing rate. The lease has an expiry date of June 30, 2027.
