

PRESS RELEASE

Medxtractor Corp. ("MXT") announces receipt of a Canadian Patent for its CO2-based extraction process.

For Immediate Release

Calgary, Alberta – September 10, 2020.

James Durward reports: "I am pleased to announce that Medxtractor has been awarded Canadian patent number CA 2977305 for its CO2-based extraction process. This is a follow-on patent for the previously granted US patent and I believe that these patents help secure the small grower horizontal that MXT serves. When combined with our recently released Essential alcohol-based extractors, I believe we now offer one of the most complete small-scale extraction solutions available anywhere in the World. "

ABOUT MEDXTRACTOR CORP:

The Corporation is a Calgary-based company that manufactures craft-scale extractors that can be used to extract essential oils and compounds from a variety of botanical materials. Growing demand is from the premium craft medical cannabis market as these growers respond to the shift toward high-purity oils and concentrates. The Corporation may also develop related products as demand becomes apparent. The ongoing worldwide cannabis legalization movement is expected to further increase demand for extracts and the Corporation has installations in multiple countries worldwide. The Corporation owns the US patent, and the Canadian Patent application, on its CO₂-based extraction process.
