

NEWS RELEASE

nDatalyze Corp. ("NDAT" or the "Corporation") (CSE:NDAT) (OTC:NDATF) provides an operational update.

Calgary, Alberta - June 12, 2023

For Immediate Release – nDatalyze Corp. ("NDAT" or the "Corporation") (CSE:NDAT) (OTC:NDATF) provides an operational update. The Corporation announces that it has completed its gathering of marketing statistics from California and New York States for the consumer application ("B2C") of YMI. The Corporation continues its search for a qualified third-party to conduct a clinical trial and/or peer review of the B2B aspect of the YMI application, which aspect has been expanded to include first responders, law enforcement, government and regulatory agencies, security forces, airlines and insurance risk-assessment markets. The purpose of this process is to determine economic success probabilities of the B2C vs. B2B aspects of the YMI predictive mental health application. The Corporation will provide updates as the search progresses.

About YMI: YMI uses evidence-based, objective data from whole life experiences to predict individual mental states over time and applies this knowledge towards a fuller understanding of how mental health develops and to improve mental wellbeing. After registering at ymihealth.ca (<https://ymihealth.ca>) users gain access to a private, in-depth survey that applies machine-learning using a person's genetic expressions, childhood environment, habits, phobias, lived experiences and lifestyle. Upon completion of the questionnaire YMI generates a personalized graphic report predicting a person's predisposition toward seven mental conditions including anxiety, depression, post-traumatic stress disorder, obsessive compulsive disorder, alcoholism, and personality disorders, both current and forward in time. The downloadable report may be used for reference as the user considers changes to their lifestyle that may help improve their mental wellbeing and mental health journey.

About nDatalyze Corp.: nDatalyze Corp. generates technology-based, health-related solutions. It's machine-learning processed, online consumer mental health application known as "YMI" is based on the Corporation's proprietary Reference Database consisting of >1200 biometric records complete with associated electroencephalogram ("EEG") data. YMI has only recently begun its initial staged launch and accordingly the Corporation cannot accurately predict if or when this application will become a profit generator.
