We will continue to work hard in order to implement our prime directive, which is to protect the data and communications of all our subscribers without prejudice to size of account or geographic region. We are excited to have been given this distinction right before our major launch of Sekur later this month <https://sekur.com>, our encrypted communications solution covering secure email, secure messaging and secure file share/ We thank the editorial staff of The Silicon Review for their selection and for their appreciation for our global contribution to data security and privacy. Cybersecurity is a global phenomenon and we plan to be present globally in order to help consumers and businesses worldwide fight cyber-crime and protect their data."

GlobeX's Data privacy solutions are all hosted in Switzerland, protecting users' data from any outside data intrusion requests. In Switzerland, the right to privacy is guaranteed in article 13 of the Swiss Federal Constitution. The Federal Act on Data Protection ("FADP") of 19 June 1992 (in force since 1993) has set up a strict protection of privacy by prohibiting virtually any processing of personal data which is not expressly authorized by the data subjects. The

protection is subject to the authority of the Federal Data Protection and Information Commissioner.

Under Swiss federal law, it is a crime to publish information based on leaked "secret official discussions." In 2010 the Federal Supreme Court of Switzerland found that IP addresses are personal information and that under Swiss privacy laws they may not be used to track Internet usage without the knowledge of the individuals involved.
