

GlobeX Data CEO, Alain Ghiai, Interviewed on Proactive About Major Canada Distribution Talks

TORONTO, ON / ACCESSWIRE / October 21 2020 / GlobeX Data Ltd. (OTCQB:SWISF) (CSE:SWIS) ("GlobeX" or the "Company"), the leader in Swiss hosted secure data management and secure communications, is pleased to report that its CEO, Alain Ghiai, was featured in an interview conducted by Christine Corrado on Proactive. The interview discussed the latest talks or a deal at the final stages of completion, between GlobeX and a major Canadian IT distributor with 11,000 resellers in Canada, part of a major global IT distributor listed on the NYSE.

GlobeX Data CEO, Alain Ghiai, caught up with Proactive to talk about how the group has reached the "final stages" of signing a distribution deal in Canada for its [SekurSafe](#) and [Sekur](#) Privacy and Security solutions.

Ghiai says the Toronto-based tech company's distribution deal is being worked out with a NYSE-listed company's Canada division, however, it will cover all of Canada, and will expose GlobeX's security solutions to over 11,000 resellers in Canada alone. Ghiai says investors should stay tuned to hear more details in the next few days.

GlobeX's Data privacy solutions are all hosted in Switzerland, protecting users' data from any outside data intrusion requests. In Switzerland, the right to privacy is guaranteed in article 13 of the Swiss Federal Constitution. The Federal Act on Data Protection ("FADP") of 19 June 1992 (in force since 1993) has set up a strict protection of privacy by prohibiting virtually any processing of personal data which is not expressly authorized by the data subjects. The protection is subject to the authority of the Federal Data Protection and Information Commissioner.

Under Swiss federal law, it is a crime to publish information based on leaked "secret official discussions." In 2010 the Federal Supreme Court of Switzerland found that IP addresses are personal information and that under Swiss privacy laws they may not be used to track Internet usage without the knowledge of the individuals involved.
