

GlobeX Data Signs Distribution Agreement with SYNnex Canada Covering Reseller Network Nationwide

TORONTO, ON and NEW YORK, NY / ACCESSWIRE / November 20, 2020 / GlobeX Data Ltd. (OTCQB:SWISF) (CSE:SWIS) ("GlobeX" or the "Company"), a leader in Swiss hosted secure data management and secure communications, is pleased to report that it has signed a nationwide distribution agreement with SYNnex Canada Limited, a wholly-owned subsidiary of [SYNnex Corporation](#) (NYSE:SNX), a leading business process services company.

The distribution agreement with SYNnex Canada covers all of Canada and makes available GlobeX's [Sekur](#) secure email and messaging solutions to SYNnex.

Alain Ghiai, CEO of GlobeX Data, said: "We are very happy to have signed a distribution agreement with SYNnex Canada for our [Sekur](#) Swiss-hosted communications solution suite, which includes secure email, secure file share and secure messaging. We look forward to demonstrating the unique technology and privacy advantages of [Sekur](#) to SYNnex Canada's resellers."

"Whether you are an SME, an Enterprise or a government organization, you need protection from email cyber-attacks and data theft. Our strength in using proprietary technology and Swiss privacy laws puts us in a unique position to provide true privacy and security. GlobeX is here to provide the best protection and privacy to all documents, emails and instant message communications." Ghiai said.

[Sekur](#), the Company's Swiss hosted secure communications suite, includes encrypted messaging and voice recording transfer with self-destruct timer, an encrypted email account and a secure file transfer solution. All data is secured using GlobeX's proprietary encryption technology and is hosted exclusively in Switzerland for ultimate privacy.

[Sekur](#) includes the Company's latest SekurMail technology, which includes proprietary anti-phishing and privacy feature called SekurSend®. Using SekurSend®, a user can send an email to any other recipient, whether they have [Sekur](#) or not, with complete privacy and security because the email never leaves Sekur's encrypted email servers based in Switzerland.

One of the many privacy and security features of [Sekur](#) is that the user does not register with their phone number, eliminating a significant loophole in security and privacy.

Recent data breaches in messaging applications have created a certain urgency for businesses and data privacy advocates to protect their communications from cyber-attacks and identity theft via mobile and desktop devices.
