

## **GlobeX Data Increases Exposure to Newsmax - Increases Advertising and Sponsors New SEKUR Segments Every Week**

**TORONTO, ON and NEW YORK, NY / ACCESSWIRE / August 23, 2021 /** GlobeX Data Ltd. (OTCQB:SWISF)(CSE:SWIS) ("GlobeX" or the "Company"), the leader in Swiss hosted secure communications and secure data management, is pleased to announce that, as part of its 2021 and 2022 mass marketing budget previously announced, it has committed and contracted, through its media partners Accel Media International LLC, for additional media exposure on Newsmax, consisting of a minimum of 80 30-seconds commercial spots and 1 new [SEKUR](#) Privacy and Security segment per week.

The additional media exposure is spread as follows:

A minimum of 80 30-seconds [SEKUR](#) commercials.

A new [SEKUR](#) Privacy and Security segment each week, with new content on a weekly basis. The [SEKUR](#) Segment airs every Sunday between 10AM and 11AM EST.

Commercials describe the attributes of [SEKUR](#) and display both the Sekur.com domain name and our company's US listed ticker SWISF.

The [SEKUR](#) Privacy and Security segment airs every Sunday between 10AM and 11AM EST and discusses weekly cyber-attacks and how consumers and businesses can protect themselves against these cyber-attacks. It also discusses [SEKUR](#) as a more private and safer alternative to other solutions, mostly in the BigTech sector, and discusses various features of [SEKUR](#) and how to make the best use of them, educating the public about data privacy and identity protection in the cyberworld.

Commercials will be spread in the following manner:

Newsmax Wall Street Wrap 11:30-12 Mon-Friday, 1 Spot, 5 Days per week.

Newsmax Fringe-Prime Time, Spicer & Co. 6PM, 2 Spots, 4 Days Per week

Newsmax Prime, Greg Kelly Reports 7PM, 1 Spot 4 days per week

Newsmax Sunday Mornings, 1 Spot per week

Newsmax Morning News ,6-10 Spots per month

Newsmax said: "Newsmax is pleased that GlobeX Data, a leading data privacy and secure communications firm, is sponsoring the [SEKUR](#) Privacy and Security segment, and giving our viewers a new option protect their identity and communications on the internet."

Alain Ghiai, CEO of GlobeX Data said: "We are very pleased to increase our media coverage on Newsmax with a minimum of 80 new commercials on such prime-time spots, and 1 new [SEKUR](#)

Privacy and Security segment per week. Newsmax has been an amazing media partner for us and has supported our vision since the beginning of our US mass market launch, and we are very grateful for that. We have been very pleased with the launch of the [SEKUR](#) Privacy and Security segment and are now making the commitment to have 1 new episode per week, in addition to the 80 commercial spots we contracted every month, bringing data privacy and security awareness to the American public."

[Sekur](#) , which includes [SekurMessenger](#) as part of a bundle of email, messaging and file transfer into one app solutions, includes the Company's latest SekurMail technology, which includes proprietary anti-phishing and privacy feature called SekurSend ®. SekurSend ® lets a user send email to any other recipient, whether they have [Sekur](#) or not, in full privacy and security as the email never leaves [Sekur](#) 's encrypted email servers based in Switzerland. The recipient can then click on the notification and reply in the same manner using SekurReply ® , without the recipient having to register for a [Sekur](#) account. The sender can also decide to protect any email sent by adding a password to open it, a read-limit and a self-destruct timer as well. Sending an email with the SekurSend ® feature allows the senders and recipients to add limitless size attachments to the emails without crowding the recipients' email box. This also eliminates BEC attacks for businesses and email phishing attacks. Additionally, SekurMail includes full control of email delivery, automatic data export for large Enterprises and an automatic Data Loss Prevention technology ("DLP") with real time continuous archiving.

Recent data breaches in messaging applications and in particular in the WhatsApp application have created a certain urgency for businesses and data privacy advocates to protect their communications from cyber-attacks and identity theft via mobile and desktop devices.

[SekurMessenger](#) eliminates many of the privacy and security risks by not only not requiring a phone number, which would divulge a user's phone device ID, but also by not social engineering a user's phone or computer contact list and infecting the contacts by default as well, eliminating a huge loophole in security and privacy. [SekurMessenger](#) issues each user a username and a SM number. The SM number is the contact ID a user would disclose in order for other SM users to be added. The service comes with a self-destruct timer and other features as well, including GlobeX's proprietary VirtualVaults and HeliX technologies with all data stored in Swiss hosted encrypted servers.

Additionally, [SekurMessenger](#) now comes with a proprietary feature and technology called Chat by Invites. This feature allows a [SekurMessenger](#) user ("SM user") invite a non-SM user, or a group of non-SM users, to chat in a fully private and secure way, without the recipient ever having to register to [SekurMessenger](#) or download the app. At the end of the chat, the initiator of the conversation can remotely terminate the conversation and all traces of the conversation are deleted from all users, including the recipient. This unique feature is now fully deployed and functional on all iOS and Android devices and web platforms. The target sectors are numerous, including but not limited to real estate, legal, financial, government, energy, mining, manufacturing, trade and medical sectors.

GlobeX's Data privacy solutions are all hosted in Switzerland, protecting users' data from any outside data intrusion requests. In Switzerland, the right to privacy is guaranteed in article 13 of

the Swiss Federal Constitution. The Federal Act on Data Protection ("FADP") of 19 June 1992 (in force since 1993) has set up a strict protection of privacy by prohibiting virtually any processing of personal data which is not expressly authorized by the data subjects. The protection is subject to the authority of the Federal Data Protection and Information Commissioner.

Under Swiss federal law, it is a crime to publish information based on leaked "secret official discussions." In 2010 the Federal Supreme Court of Switzerland found that IP addresses are personal information and that under Swiss privacy laws they may not be used to track Internet usage without the knowledge of the individuals involved.

### **About GlobeX Data Ltd.**

GlobeX Data Ltd. is a Cybersecurity and Internet privacy provider of Swiss hosted solutions for secure communications and secure data management. The Company distributes a suite of encrypted e-mails, and secure communication tools, secure cloud-based storage, disaster recovery and document management. ### **Forward Looking Information**

This news release contains certain forward-looking information within the meaning of applicable Canadian securities laws ('forward-looking statements'). All statements other than statements of present or historical fact are forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as 'anticipate', 'achieve', 'could', 'believe', 'plan', 'intend', 'objective', 'continuous', 'ongoing', 'estimate', 'outlook', 'expect', 'project' and similar words, including negatives thereof, suggesting future outcomes or that certain events or conditions 'may' or 'will' occur. These statements are only predictions. These statements reflect management's current estimates, beliefs, intentions and expectations; they are not guaranteeing future performance. GlobeX cautions that all forward-looking statements are inherently uncertain and that actual performance may be affected by a number of material factors, many of which are beyond GlobeX's control. Such factors include, among other things: risks and uncertainties relating to the future of the Company's business; the success of marketing and sales efforts of the Company; the projections prepared in house and projections delivered by channel partners; the Company's ability to complete the necessary software updates; increases in sales as a result of investments software development technology; consumer interest in the Products; future sales

plans and strategies; reliance on large channel partners and expectations of renewals to ongoing agreements with these partners; anticipated events and trends; the economy and other future conditions; and other risks and uncertainties, including those described in GlobeX's prospectus dated May 8, 2019 filed with the Canadian Securities Administrators and available on [www.sedar.com](http://www.sedar.com). Accordingly, actual and future events, conditions and results may differ materially from the estimates, beliefs, intentions and expectations expressed or implied in the forward-looking information. Except as required under applicable securities legislation, GlobeX undertakes no obligation to publicly update or revise forward-looking information.
