

CannaOne Retains Investor Relations Firm

Vancouver, British Columbia--(Newsfile Corp. - January 21, 2019) - **CannaOne Technologies** (CSE: CNNA) ("**CannaOne**" or the "**Company**") is pleased to announce that it has engaged Oak Hill Financial Inc. ("Oak Hill") to provide investor relations and financial communications services to the Company.

Services to be provided by Oak Hill will include initiation and on-going maintenance of a comprehensive strategy comprising investor relations, corporate communications, strategic counsel and retail and institutional investor outreach. This initial 3 month agreement will automatically renew for a further 90 day term unless written notice is provided by either party within five business days of the contract end date. Neither Oak Hill nor any of its principals presently have an ownership interest, directly or indirectly, in CannaOne or its securities.

About CannaOne

CannaOne has developed Bloomkit™, the first product in the Bloom Product Suite™; a turnkey enterprise software solution that can be utilized by any B-to-C cannabis company. The Bloomkit™ product was developed with modular dynamic features in mind, such as the capability to offer unique themed online storefronts for dispensaries, to inherently monitor and track pick-up and delivery logistics, and to deliver historical and current trending analytics to ensure optimal management of medical and recreational sales channels. These functionalities inherently ensure its users the highest levels of on-going customer satisfaction and the adaptability of Bloomkit™, to operate and satisfy regulatory environments of any governing body around the World, truly affords it the ability to serve an overall base of global clientele with a software suite that sits at the forefront of the industry. The Bloom Product Suite™ is representative of complete data driven and design focused software solutions that contain diverse system architectures and provide intelligent, machine learning that will give clients detailed industry business insights and ultimately lead to the creation and management of predictive content and product recommendation engines.
