CANNAONE TECHNOLOGIES INC CLOSES DEBT SETTLEMENT

Vancouver, British Columbia -- February 12, 2021 -- CannaOne Technologies Inc. ("CannaOne" or the "Company") (Canadian Securities Exchange: CNNA) is pleased to announce that it has completed a settlement of debt (the "Offering") described in its news release of January 28, 2021. In connection with the closing of the Offering, the Company issued an aggregate of 12,822,009 common shares in the capital of the Company ("Shares") at a price of CDN\$0.075 per Share for deemed gross proceeds of CDN\$961,651.

Insiders of the Company acquired an aggregate of 500,000 Shares in the Offering, which participation constituted a "related party transaction" as defined under Multilateral Instrument 61-101 *Protection of Minority Security Holders in Special Transactions* ("MI 61-101"). Such participation is exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 as neither the fair market value of the Shares acquired by the insiders, nor the consideration for the Shares paid by such insiders, exceed 25% of the Company's market capitalization. As required by MI 61-101, the Company advises that it expects to file a material change report relating to the Offering less than 21 days before completion of the Offering, which is necessary to complete the Offering in an expeditious manner and is reasonable in the circumstances.

This Offering is being conducted in connection with a settlement of debt and was open only to those to whom CannaOne is indebted. In lieu of receiving cash as payment for such indebtedness, the Subscriber has agreed to accept the Shares as payment of the indebtedness pursuant to the terms and conditions set forth in this Subscription Agreement, and, in lieu of receiving cash in payment of the Subscription Amount, CannaOne is willing to apply the indebtedness in payment of the Subscription Amount.

The securities issued under the Offering, will be subject to a statutory hold period expiring four months and one day from the date of issuance of such securities.

About CannaOne

Since inception CannaOne has focused on development and deployment of its proprietary online marketplace platform. Integral to the true intent and directive of the long-term planning of these development efforts was an early-stage technology agreement to allow for integration of a payment and financial technology platform to facilitate merchant sales within its online platform. As such, since March 2017 the company has worked closely with payment technology providers in SE Asia, to ascertain the pathways to the greatest potential for future growth in the world's fastest growing digital payment markets. With the existence of ever-evolving international relationships with parties specifically focused on the facilitation of payment processing and bank acquiring infrastructure, the Company sees potential to increase revenue over time with the continued integration and utilization of complete payment processing capabilities within our online marketplace solutions. The Company will look to expand its online client portfolio to include additional business sectors, such as those to most effectively service the payment processing requirements of e-commerce providers. While CannaOne believes that significant near-term opportunities exist for the Company's solutions, there

can be no assurance that customer agreements will be reached or that such agreements will be profitable should they be implemented.
