MANAGEMENT'S RESPONSIBILITY FOR UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS AND NOTICE OF NO AUDITOR REVIEW

The accompanying condensed interim financial statements of Etruscus Resources Corp. (the "Company") are the responsibility of management and have not been reviewed by the Company's auditors.

These condensed interim financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the unaudited condensed interim financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the financial position date. In the opinion of management, the condensed interim financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34, Interim Financial Reporting, as issued by the International Accounting Standards Board using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances.

The Company has established processes, which are in place to provide it sufficient knowledge to support management representations that it has exercised reasonable diligence that (i) the condensed interim financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of, and for the periods presented by, the condensed interim financial statements and (ii) the condensed interim financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented by the condensed interim financial statements.

The Board of Directors is responsible for reviewing and approving the condensed interim financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the condensed interim financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the condensed interim financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

Supplemental Disclosure with Respect to Cash Flows (Note 12)

Notes to the Condensed Interim Financial Statements For the six-month period ended September 30, 2023 (Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Etruscus Resources Corp. ("the Company") was incorporated under the Business Corporations Act (British Columbia) on July 1, 2017. The Company's registered office is located at Suite #1400 - 1125 Howe St., Vancouver, British Columbia, V6Z 2K8, and its operating office is located at Suite #604 - 850 West Hastings St., Vancouver, British Columbia V6C 1E1. The Company's common shares are listed for trading on the Canadian Securities Exchange ("CSE") under the symbol "ETR".

The Company is engaged in the exploration and evaluation of mineral properties and has not yet determined whether any of its properties contain economically recoverable reserves. To date, the Company has not earned any operating revenues and is in the exploration stage. The mining exploration business involves a high degree of risk. The recoverability of the amounts expended on mineral interests by the Company is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the exploration and development of its mineral properties and upon future profitable production or proceeds from disposition of its mineral interests.

These condensed interim financial statements have been prepared on the basis that the Company will continue as a going concern which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of operations. As an exploration stage company, at September 30, 2023 the Company has incurred an accumulated deficit since its inception of \$3,596,555 and had a working capital deficiency of \$85,853. The ability of the Company to continue as a going concern depends upon its ability to raise adequate financing and to ultimately develop profitable operations. These factors indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern.

Since incorporation on July 1, 2017, the Company raised equity financing from investors to provide for its early-stage exploration and working capital needs. The Company expects to undertake additional fundraising over the ensuing year, likely through private placements but the Company may also consider convertible debentures, third party earn-ins or joint ventures using debt or equity financing structures, to ensure the continuation of Company's exploration activities. To the extent future financing is not available, future working capital commitments may not be satisfied and future exploration programs would face curtailment and could result in a loss of property ownership or earning opportunities for the Company.

There can be no assurance that the Company will be able to raise the funds necessary to continue future operations. Should the Company be unable to realize its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded on the statements of financial position. These condensed interim financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

Notes to the Condensed Interim Financial Statements For the six-month period ended September 30, 2023 (Expressed in Canadian Dollars)

2. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

Basis of presentation

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and Interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC") and are presented in Canadian dollars which is the financial currency of the Company. These condensed interim financial statements have been prepared on a historical cost basis, except for certain financial instruments which are classified as fair value through profit or loss. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

These condensed interim financial statements should be read in conjunction with the Company's annual financial statements and notes thereto for the year ended March 31, 2023. These condensed interim financial statements do not include all disclosures required in annual financial statements but rather they follow recommendations for condensed interim financial statements in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB"). These condensed interim financial statements follow the same accounting policies and methods of their application as those followed in the March 31, 2023 annual financial statements.

New accounting standards

New IFRS policies and pronouncements with an adoption date of April 1, 2023 are as follows:

IAS 1 – Presentation of Financial Statements ("IAS 1") was amended effective for annual periods beginning on or after January 1, 2023, to provide a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. The amendments clarify that the classification of liabilities as current or noncurrent is based solely on a company's right to defer settlement at the reporting date. The right needs to be unconditional and must have substance. The amendments also clarify that the transfer of a company's own equity instruments is regarded as settlement of a liability, unless it results from the exercise of a conversion option meeting the definition of an equity instrument.

IAS 1 also includes amendments requiring companies to disclose their material accounting policies instead of their significant accounting policies and clarifies the disclosure of material and immaterial transactions.

IAS 8 clarifies changes in accounting policies (which are applied retrospectively) from changes in accounting estimates (which are applied prospectively).

IAS 12 Income taxes clarify the treatment of deferred income taxes on leases and decommissioning obligations.

There were no material impacts to the Company from the adoption of these accounting standards on April 1, 2023.

Lewis Gold Property, Newfoundland, Canada

On July 20, 2021, the Company announced it had received an option (the "Lewis Option Agreement") to earn a 100% interest in the Lewis Gold Property (the "Lewis Property") in central Newfoundland, from a group of three parties independent to the Company. The Lewis Property consists of two claim blocks in the heart of the Peyton Linear gold trend: the Peyton South claims and the Linear claims. Together, the Lewis Property totals 25.67 square kilometers (2,567 Hectares ("Ha")) and establishes the Company in a key location within central Newfoundland's highly active exploration region. Each claim block carries a two percent (2%) Net Smelter Returns royalty, subject to the purchase of one percent (1%) for \$2,000,000 on or before commercial production.

5. EXPLORATION AND EVALUATION ASSETS – Mineral Properties (continued)

Lewis Gold Property, Newfoundland, Canada (continued)

The Lewis Option Agreement requires aggregate staged payments each year over a four-year period as follows:

| Date | Cash | Shares |
|--------------------|------------------|------------------|
| _ | | |
| Acceptance Date | \$110,000 (paid) | 500,000 (issued) |
| First Anniversary | \$150,000 (paid) | 625,000 (issued) |
| Second Anniversary | \$150,000 (paid) | 650,000 (issued) |
| Third Anniversary | \$195,000 | 650,000 |
| Fourth Anniversary | \$265,000 | 675,000 |
| Total | \$870,000 | 3,100,000 |

Rock & Roll Property, Liard Mining Division, Northwest British Columbia, Canada

The Rock & Roll Property (the "Property") consists of 59 contiguous mineral claims totaling 29,131 Ha situated in the Liard Mining Division of British Columbia, in the Iskut River Valley of the Coast Mountains in northwestern British Columbia.

In 2018, the Company acquired the first 14 claims totalling 4,723 Ha from Equity Exploration Consultants Ltd. ("Equity"), for \$50,000 cash and 800,000 common shares of the Company at a value of \$0.10 per share, for a total initial acquisition cost of \$130,000. Those claims are subject to a 2% net smelter return ("NSR") royalty, held by a group of six parties (the "Royalty Holders"). The Company received an option to purchase one-half of the 2% NSR (the "NSR Buyout Option") for a future payment of \$2,000,000 to the Royalty Holders within 30 days of the commencement of commercial production or December 31, 2030, whichever comes earlier. The Company staked additional claims to expand the Property over the past three years.

Equity has notified the Company that there may be unregistered royalties on the Property in favour of Prime Equities International Corporation. To the Company's best information and belief, such royalties (i) are not evidenced by any completed legal instrument and (ii) have not been the subject of any notice or claim to Equity asserting such royalties. The Company has agreed to indemnify Equity against all costs, charges, and expenses, including any amount paid to settle a threatened or an actual action or to satisfy a judgment, reasonably incurred by Equity in the event that such possible royalties are validated as existing legal obligations binding on the Property.

Sugar Property - Liard Mining Division, Northwest British Columbia, Canada

The Sugar property consisted of 11 contiguous mineral claims totaling 5,181 Ha, staked by the Company in 2019 and early 2020. The claims are located approximately 7 km northwest of the Company's Rock & Roll Property and 25 km southwest of the Galore Creek deposit. During the current period, the Company allowed 10 of the claims to lapse, retaining one claim, nearest to Rock & Roll. Accordingly, exploration and evaluation costs of \$112,092 were written off. The remaining claim retains capitalized costs of \$11,209 and has been grouped into the Rock & Roll Property effective September 30, 2023.

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims, as well as the potential for problems arising from the frequently ambiguous conveyance history characteristic of many mineral properties. The Company has investigated title to its mineral properties, and, to the best of its knowledge, titles are in good standing. No impairments of existing claims were noted in the period.

8. SHARE CAPITAL

Authorized: Unlimited number of common shares, without par value.

Issued: 44,085,361 common shares (March 31, 2023 – 38,011,622 common shares).

Transactions for the period ended September 30, 2023:

On June 12, 2023, the Company completed a non-brokered private placement for total gross proceeds of \$879,344. The financing consisted of 3,230,960 non-flow-through units at a price of \$0.18 per unit for proceeds of \$484,644 and 2,192,779 flow-through units at a price of \$0.15 per unit for proceeds of \$394,700. Insiders participated in the financing for \$115,000.

Each non-flow-through unit consists of one common share and ½ of a common share purchase warrant exercisable at \$0.22 per share for a period of 2 years. Each flow-through unit consists of one flow-through common share and ½ of a non-flow-through common share purchase warrant exercisable at \$0.27 per share for a period of 2 years. No residual value was assigned to the warrant component of either the flow-through or non-flow-through units. The Company recorded a flow-through premium liability of \$65,783 as a deduction from share capital, being the difference between the amounts recognized in common shares and the amounts investors paid for the units. Total finder's fees to qualified arms-length finders were \$22,610, and 133,777 finders' warrants valued at \$7,947 were issued, as permitted by securities law. The finders' warrants are exercisable at \$0.165 per share for a two-year period.

On July 6, 2023 the Company issued 650,000 common shares pursuant to the Lewis Property agreement. The shares were valued at \$0.12 per share on the date of issue for total share value of \$78,000.

Transactions for the year ended March 31, 2023:

- a) In July 2022, the Company issued 625,000 common shares to the vendors of the Lewis Property pursuant to the Lewis Option Agreement. The shares were issued at a fair value of \$0.07 per share, for total share compensation valued at \$43,750;
- b) In March 2023, the Company announced a private placement of up to \$1,000,000 consisting of flow-through and non-flow-through units priced at \$0.18 and \$0.15 per unit, respectively. Share subscriptions of \$90,000 were received as at March 31, 2023;

Stock Options:

At the Company's Annual and Special Meeting on November 1, 2022, the shareholders re-adopted a 10% Rolling Stock Option Plan ("SOP") under which the Company is authorized to grant stock options to executive officers and directors, employees and consultants. The exercise price of each stock option equals the market price of the Company's stock as calculated on the date of grant. The options vest upon grant, except for investor relations options which vest over a minimum of a one-year period, pursuant to regulations. The fair values of the option grants are determined under the Black-Scholes option pricing model, and the vested portion is recorded, over time, as a credit to equity reserves.

During the current fiscal year, the Company granted 11,111 stock options to a consultant. The options are exercisable at \$0.15 per share for a two-year period. Share-based compensation of \$520 was recorded.

The following parameters were used in the last fiscal year for valuing stock option grants:

| | Period ended September 30, 2023 | Year ended March 31, 2023 |

9. RELATED PARTY TRANSACTIONS AND BALANCES

All related party transactions are recorded at the exchange amount which is the amount agreed to by the Company and the related party.

The following related parties for the periods presented include key management personnel consisting of officers, and directors of the Company and those entities in which such individuals may hold positions that result in them having control or significant influence over the financial or operation policies of these entities:

- a) Avanti Consulting Inc. is a company controlled by the President and CEO of the Company, providing such services to the Company commensurate with the position;
- b) Hatch 8 Consulting is a company controlled by a former Chief Executive Officer who remains a director of the Company, and provides consulting services to the Company;
- Lever Capital Corp. is a company owned by the Chief Financial Officer and provides consulting services to the Company;
- d) Wetherup Geological Consultants is a business operated by the Company's Vice-President of Exploration and provides the Company with geological consulting services. Amounts billed are recognized as either capitalized under exploration and evaluation assets or expensed under Property investigation; and
- e) Metallis Resources Inc. ("MTS") is a public company that has two directors and an officer in common with the Company. Etruscus subleases one-half of MTS' office premises. The Company and MTS also shared an exploration camp facility in BC's Golden Triangle region in 2022, as their respective properties lie about 35 40 km apart from each other. Consequently, some administrative and exploration costs are accordingly shared or reimbursable with the balances payable on demand.

Amounts owing to related parties at September 30, 2023 is \$77,275 (March 31, 2023 - \$117,329), comprised of amounts owing to management and amounts owing to MTS as follows:

 The aggregate value of key management compensation and outstanding balances relating to the above noted related parties are as follows:

| | | Transactions for the period ended September 30, 2023 | | Transactions for the year ended March 31, 2023 | Balance payable as at September 30, 2023 | Balance payable as at March 31, 2023 |

Periodic amounts due to related parties are non-interest bearing, unsecured and due on demand.

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments consist of financial assets and financial liabilities and are accounted for under *IFRS 9 – Financial Instruments*. Financial instruments are initially recognized at fair value along with, in the case of a financial asset or liability not at fair value through profit and loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or liability. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in profit and loss.

The Company classifies its financial assets and financial liabilities in the following measurement categories:

- i) those to be measured subsequently at fair value (either through other comprehensive income or through profit or loss); and
- ii) those to be measured at amortized cost.

The classification of financial assets depends on the business model for managing the financial assets and the contractual terms of the cash flows. Financial assets that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding, are generally measured at amortized cost at the end of subsequent accounting periods. All other financial assets are measured at their fair values at the end of subsequent accounting periods, with any changes taken through profit and loss or other comprehensive income.

Financial liabilities are classified as those to be measured at amortized cost unless they are designated as those to be measured subsequently at fair value through profit or loss (irrevocable election at the time of recognition). Any fair value changes due to credit risk for liabilities designated at fair value through profit and loss are recorded in other comprehensive income.

The Company has implemented the following classifications for financial instruments:

• The Company's financial assets are cash and cash equivalents, deposits, receivables and reclamation deposit which are classified as fair value through profit or loss on a recurring basis and any changes to fair value subsequent to initial recognition are recorded in profit or loss for the period in which they occur. The fair values of these financial instruments equal their carrying values.

Notes to the Condensed Interim Financial Statements For the six-month period ended September 30, 2023 (Expressed in Canadian Dollars)

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

• Financial liabilities comprise accounts payable, lease liability and amounts due to related parties which are classified as other financial liabilities and measured at amortized cost using the effective interest rate method. Interest expense is recorded in profit or loss, as applicable. The fair values of these financial instruments approximate their carrying values due to their short term maturities.

The Company reclassifies financial assets when and only when its business model for managing those assets changes. Financial liabilities are not reclassified.

Fair values of financial instruments are classified in a fair value hierarchy based on the inputs used to determine fair values, as follows:

The three levels of the fair value hierarchy are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 Inputs that are not based on observable market data, with fair value measurement derived from valuation techniques.

The fair values of cash and cash equivalents and reclamation deposits are measured at fair value on a recurring basis based on Level 1 inputs of the fair value hierarchy.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk arises from the potential that one or more counterparties fail to meet their obligations. The Company is exposed to credit risk through its cash and cash equivalents, receivables, deposits and reclamation deposit. As at September 30, 2023, the Company's maximum credit risk is equal to \$46,007. The Company manages credit risk associated with its cash and cash equivalents by using reputable financial institutions, from which management believes the risk to be remote. Receivables and reclamation deposits are government related for which management assesses the collectability of these amounts to be assured.

Liquidity risk

Liquidity risk is related to the ability of the Company to meet its obligations as they come due. The Company's basic approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. The Company has historically relied on equity financings to satisfy its capital requirements and will continue to depend upon equity capital as required but may also enter into earn-in arrangements or the sale of certain property interests. However, there can be no assurance the Company will be able to obtain its future financing needs on acceptable terms. The ability of the Company to continue on this course will depend, in part, on the prevailing market conditions, the market interest in financing the Company's mineral property exploration programs, and the scope of such programs.

Notes to the Condensed Interim Financial Statements For the six-month period ended September 30, 2023 (Expressed in Canadian Dollars)

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

Liquidity risk (continued)

The following are the contractual maturities of financial liabilities as at September 30, 2023:

| | Carrying amount | Contractual cash flows | Within 1 year | Within 2 years | Within 3-5 years |
|--|---------------------|------------------------|---------------------|----------------|------------------|
| Accounts payable and accrued liabilities Demand loans to related parties | \$ 41,762 77.275 | \$ 41,762 77,275 | \$ 41,762 77.275 | \$ - | \$ - |
| Lease liabilities | 33,256 | 36,113 | 20,419 | 15,694 | |
| Total | \$ 152,293 | \$ 155,150 | \$ 139,456 | \$ 15,694 | \$ - |

Interest rate risk

The Company is not exposed to material risk in the event of interest rate fluctuations. The Company has no long-term debt and has not entered into any interest rate swaps or other financial arrangements to mitigate the exposure to interest rate fluctuations. For these reasons, the Company considers it is not subject to material risks should interest rates change.

Market risk

The Company is subject to limited market risk as the price of its short-term money market investments that it may hold from time to time fluctuates due to market forces. The Company has no control over their fluctuating prices, does not hedge its investments and the fluctuations are limited in scope and volatility. As at September 30, 2023, the Company held no short-term money market investments.

Foreign currency risk

The Company's functional currency is the Canadian dollar, and an immaterial amount of transactions are in other currencies. Management believes the foreign exchange risk derived from currency conversions is not significant and therefore does not hedge its foreign exchange risk.

11. CAPITAL MANAGEMENT

Capital is comprised of all components of equity, and the Company is not subject to externally imposed capital requirements. The Company's objectives when managing capital are to fund critical exploration work, meet its on-going liabilities, continue as a going concern, maintain creditworthiness and to ultimately maximize returns for shareholders over the long term. Meeting current and future liabilities and obligations as a non-revenue early-stage explorer requires management to plan for its current and future cash needs while continually monitoring the Company's internal, exploration and financing risks. The Company endeavors to maintain capital balances over the periods to alleviate unexpected cash flow shortfalls and remains confident that sufficient financing will be raised to ensure working capital needs are met and future exploration funds are available for future exploration. Management strives to minimize shareholder dilution through executing future financings at higher equity prices than prior financings, subject to market conditions.

The capital for operations and the acquisition and exploration of exploration and evaluation assets has historically come from the issuance of common shares.

There were no changes in the Company's capital management objectives during the period ended September 30, 2023.

Notes to the Condensed Interim Financial Statements For the six-month period ended September 30, 2023 (Expressed in Canadian Dollars)

12. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

The significant non-cash investing and financing transaction during the period ended September 30, 2023 are as follows:

The Company's exploration costs incurred during the period included \$320,911 of qualifying expenses which reduced the flow-through premium liability by \$53,486 and which was recognized as other income on settlement of flow-through premium liability for the period ended September 30, 2023.

On July 6, 2023, the Company made the 2nd anniversary payment under the Lewis Option Agreement, disbursing \$150,000 and issuing 650,000 shares to the vendors valued at \$78,000, with both amounts recognized as an acquisition cost.

The significant non-cash investing and financing transactions during the year ended March 31, 2023 were as follows:

- a) The Company's exploration costs incurred during the year included \$325,545 of qualifying expenses which reduced the flow-through premium liability from \$46,506 to \$Nil, recognized as other income on settlement of flow-through premium liability; and
- b) The Company issued 625,000 common shares under the Lewis Agreement, recorded at a value of \$43,750 as a property acquisition cost.

13. EVENTS AFTER THE REPORTING PERIOD

On November 22, 2023, the Company announced a private placement financing would be undertaken to raise up to \$200,000 by the issuance of up to 4,000,000 common shares at a price of \$0.05 per share.

On November 16, 2023, Jason Leikam resigned as a director to pursue other endeavours.

On November 21, 2023 the Company held its Annual and Special Meeting, with each resolution being approved by over 99% of the votes. As Mr. Leikam had previously resigned, and did not stand for re-election, the other three directors were re-elected.
