Notes to the Condensed Interim Consolidated Financial Statements

(Expressed in Canadian dollars)

For the three months ended August 31, 2018

1. NATURE OF OPERATIONS AND GOING CONCERN

Orion Nutraceuticals Inc (formerly Cline Capital Corp. (the “Company”) was incorporated under the Business Corporations Act of British Columbia. on November 7, 2017. The Company’s head office and principle place of business is located at Suite 300, 1055 West Hastings Street, Vancouver, British Columbia, V6E 2E9. The Company’s business has been the acquisition of, or investment in, subsidiaries in global markets to grow cannabis and extract cannabis oil that will be used as an ingredient in proprietary health and beauty products and distributed in bulk to other manufacturers.

These condensed consolidated interim financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning they will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. At August 31, 2018, the Company had a working capital of \$453,215. The Company’s ability to meet its obligations and maintain its current operations is contingent upon successful completion of additional financing arrangements, continued cooperation of creditors and related parties, and ultimately upon generating profitable operations. These material uncertainties may cast significant doubt upon the entity’s ability to continue as a going concern.

The Company will depend almost exclusively on equity financing. Such equity financings will include the issuance of equity shares. There can be no assurance that equity financings will be available to meet the Company’s continuing operating costs or, if the equity is available, that it will be on terms acceptable to the Company. The issuances of additional equity securities by the Company may result in significant dilution to the equity interests of its current shareholders. Obtaining commercial loans, assuming those loans would be available, will increase the Company’s liabilities and future cash commitments. If the Company is unable to obtain financing in the amounts and on terms deemed acceptable, the business and future success may be adversely affected, thus giving rise to doubt about the Company’s ability to continue as a going concern. These financial statements do not include any adjustments relating to the recoverability and reclassification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION

Statement of compliance with International Financial Reporting Standards

These unaudited condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Accounting Standard 34 “Interim Financial Reporting” (“IAS 34”) using accounting policies consistent with the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and Interpretations of the IFRS Interpretations Committee.

These unaudited condensed interim consolidated financial statements do not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the audited financial statements of the Company from the period of incorporation on November 7, 2017 to May 31, 2018.

The accounting policies applied in preparation of these condensed interim consolidated financial statements are consistent with those applied and disclosed in the Company’s audited consolidated financial statements, except for the following:

Basis of Consolidation

These consolidated financial statements include the accounts of the Company and its 99% owned subsidiary MedicOasis Inc. incorporated in Quebec in December 2013 and acquired in June 2018 by the Company (Note 4). Control exists when the Company possesses power over an investee, has exposures to variable returns from the investee and has the ability to use its power over the investee to affect its returns. All intercompany balances and transactions have been eliminated.
