Notes to the Condensed Interim Consolidated Financial Statements (Expressed in Canadian dollars)
For the periods ended November 30, 2021 and 2020

1. NATURE OF OPERATIONS AND GOING CONCERN

Orion Nutraceuticals Inc. (the "Company" or "Orion") was incorporated under the Business Corporations Act of British Columbia on November 7, 2017. On October 17, 2018, the shares of the Company commenced trading on the Canadian Securities Exchange ("CSE") under the trading symbol ORI. The Company's head office and principal place of business is located at Suite 810 -789 West Pender Street, Vancouver, British Columbia, V6C 1H2. The Company was in the business of pursuing acquisitions of, or investments in, subsidiaries in global markets to grow cannabis and extract cannabis oil that will be used as an ingredient in proprietary health and beauty products and distributed in bulk to other manufacturers. During the year ended May 31, 2021, the Company changed its business model to focus on re-purposing a United States Food and Drug Administration approved drug to target asthma and chronic obstructive pulmonary disease (COPD) (Note 3).

These condensed interim consolidated financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning they will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. During the period ended November 30, 2021, the Company generated a net income of \$103,472 and at November 30, 2021, the Company had a working capital of \$2,085,756. The Company's ability to meet its obligations and maintain its current operations is contingent upon successful completion of additional financing arrangements, continued cooperation of creditors and related parties, and ultimately upon generating profits from operations. These material uncertainties may cast significant doubt upon the entity's ability to continue as a going concern.

The Company will depend almost exclusively on equity financing. Such equity financings will include the issuance of additional equity shares. There can be no assurance that equity financings will be available to meet the continuing operating costs or, if the equity is available, that it will be on terms acceptable to the Company. The issuances of additional equity securities by the Company may result in significant dilution to the equity interests of its current shareholders. Obtaining commercial loans, assuming those loans would be available, will increase the Company's liabilities and future cash commitments. If the Company is unable to obtain financing in the amounts and on terms deemed acceptable, the business and future success may be adversely affected, thus giving rise to doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments relating to the recoverability and reclassification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

In March 2020, the World Health Organization declared the outbreak of COVID-19 a global pandemic. Government measures to limit the spread of COVID-19, including the closure of non-essential businesses, did not materially disrupt the Company's operations during the period ending November 30, 2021. Due to the rapid developments and uncertainty surrounding COVID-19, it is not possible to predict the impact that COVID-19 will have on the Company's business, financial position and operating results in the future. In addition, it is possible that estimates in the Company's financial statements will change in the near term as a result of COVID-19 and the effect of any such changes could be material, which could result in, among other things, impairment of long-lived assets including intangibles and goodwill. The Company is closely monitoring the impact of the pandemic on all aspects of its business.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

Statement of compliance with International Financial Reporting Standards

These condensed interim consolidated financial statements have been prepared in accordance with the accounting policies described in Note 2 of the Company's annual audited financial statements as at and for the year ended May 31, 2021. Accordingly, these condensed consolidated interim financial statements for the six months ended November 30, 2021 should be read together with the annual audited consolidated financial statements as at and for the year ended May 31, 2021.

These condensed consolidated interim financial statements have been prepared on the accrual basis and are based on historical costs, modified where applicable. The condensed consolidated interim financial statements are presented in Canadian dollars, which unless otherwise noted, is the Company and its subsidiary's functional currency.

These condensed interim consolidated financial statements were approved by the Board of Directors and authorized for issuance by the Board of Directors on January 25, 2022.

Basis of Consolidation

The Company's condensed interim consolidated financial statements include the accounts of the Company and its subsidiary MedicOasis Inc. ("MedicOasis") in which the Company has a 99% ownership. A subsidiary is an entity controlled by the Company, where control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of the Company's subsidiary is included in the consolidated financial statements. All intercompany balances and transactions, income and expenses have been eliminated upon consolidation.

During the year ended May 31, 2020, MedicOasis incurred losses. MedicOasis has been inactive since June 1, 2020. The non-controlling interest of 1% in MedicOasis was held by other minority shareholders.

Total non-controlling interest, November 30, 2021, May 31, 2021 and May 31, 2020	(922)

Significant Judgements and Estimates

In preparing these condensed interim consolidated financial statements, the significant accounting policies and the significant judgments made by management in applying the Company's significant accounting policies and key sources of estimation uncertainty were the same as those that applied to the Company's audited consolidated financial statements for the year ended May 31, 2021, with exception to the new accounting policies adopted by the Company discussed below.

The preparation of condensed interim consolidated financial statements requires that the Company's management make judgments and estimates of effects of uncertain future events on the carrying amounts of the Company's assets and liabilities at the end of the reporting period. Actual future outcomes could differ from present estimates and judgments, potentially having material future effects on the Company's condensed interim consolidated financial statements. Estimates are reviewed on an ongoing basis and are based on historical experience and other facts and circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively.

New or revised accounting standards

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's condensed interim consolidated financial statements.

(a) Fair values

The fair values of cash, promissory notes, other receivable, loans payable and accounts payable approximate their carrying values due to the short-term to maturities of these financial instruments.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 Inputs that are not based on observable market data.
