

Alpha Cognition Announces Director Change and Stock Option Grant

VANCOUVER, B.C., February 15, 2022, **Alpha Cognition Inc. (TSX-V: ACOG) (OTCQB: ACOGF)** (“Alpha Cognition”, or the “Company”) announces the grant of an aggregate of 215,000 stock options (“Options”) to certain officers of the Company, pursuant to the Company’s stock option plan. Each Option is exercisable to acquire one common share of the Company at a price of C\$1.05 per common share until February 14, 2032, and will be subject to vesting conditions.

About Alpha Cognition Inc.

Alpha Cognition Inc. is a clinical stage, biopharmaceutical company dedicated to developing treatments for under-served neurodegenerative diseases, such as Alzheimer's Dementia and Amyotrophic Lateral Sclerosis (ALS).

ALPHA-1062, is a patented new chemical entity that has demonstrated safety and improved tolerability in human clinical trials. It is being developed as a new generation acetylcholinesterase inhibitor for the treatment of Alzheimer's disease, with minimal gastrointestinal side effects and novel routes of administration. ALPHA-1062's active metabolites are differentiated from donepezil and rivastigmine in that they may sensitize neuronal nicotinic receptors, most notably the alpha-7 subtype, which is known to have a positive effect on cognition. ALPHA-1062 is also being developed in combination with memantine to treat moderate to severe Alzheimer's dementia and in a nasal spray formulation to treat traumatic brain injury.

ALPHA-0602 (Progranulin) is expressed in several cell types in the central nervous system and in peripheral tissues, regulates cell survival and certain inflammatory processes, and plays a major role in regulating lysosomal function and microglial responses to disease. Its use for the treatment of neurodegenerative diseases has been patented by the Company and granted an Orphan Drug Designation.
