CORPORATE GOVERNANCE

General

National Instrument 58-101 *Disclosure of Corporate Governance Practices* (“**NI 58-101**”), as adopted by the Canadian Securities Administrators, prescribes certain disclosure by the Company of its corporate governance practices. This disclosure is presented below.

Board of Directors

The Board facilitates its exercise of independent supervision over the Company’s management through meetings of the Board.

Mr. Parr, a director, is not considered to be independent as he was an officer of the Company within the last three years. Messrs. Trygstad and Vicus are not considered to be independent as they are officers of the Company. Mr. Kampian and Mr. Scott are considered to be independent in that they are independent and free from any interest and any business or other relationship which could or could reasonably be perceived to materially interfere with the respective director’s ability to act with the best interests of the Company, other than the interests and relationships arising from being a Shareholder.

Directorships

The following table sets out information regarding other directorships presently held by directors of the Company with other reporting issuers (or the equivalent) in Canada or any foreign jurisdiction:

| Name of Director | Names of Other Reporting Issuers | Securities Exchange |
|------------------|--|---------------------|
| James E. Scott | StateHouse Holdings Inc. (formerly Harborside Inc.) | CSE |

Orientation and Continuing Education

The Board briefs all new directors with respect to the policies of the Board and other relevant corporate and business information. The Board does not provide any continuing education.

Ethical Business Conduct

The Board has not adopted a written ethical business code of conduct for directors, officers and employees. However, the Board believes that the fiduciary duties placed on individual directors by the Company’s governing corporate legislation and the common law, and the restrictions placed by applicable corporate legislation on an individual director’s participation in decisions of the Board in which the director has an interest, have been sufficient to ensure that the Board operates independently of management and in the best interests of the Company.

Nomination of Directors

The Company's management is in contact with individuals involved in the technology sector. From these sources management has made a number of contacts and in the event that the Company requires any new directors, such individuals will be brought to the attention of the Board. The Company will conduct reference and background checks on suitable candidates. New nominees generally must have a track record in business management, areas of strategic interest to the Company, the ability to devote the time required to carry out the obligations and responsibilities of a director and a willingness to serve in that capacity.

Compensation

At present, the Board as a whole determines the compensation of the CEO and CFO and does so with reference to industry standards and the financial situation of the Company. The Board has the sole responsibility for determining the compensation of the directors of the Company.

Given the Company's size, limited operating history and lack of revenues, the Board does not plan to form a compensation committee to monitor and review the salary and benefits of the executive officers of the Company at the present time. The Board will carry out these functions until such time as it deems the formation of a compensation committee is warranted.

Other Board Committees

The Board has no committees other than the Audit Committee.

Assessments

The Board regularly monitors the adequacy and effectiveness of information given to directors, communications between the Board and management, and the strategic direction and processes of the Board and its committees.
