**1. NATURE OF OPERATIONS**

Lions Bay Mining Corp. (the “Company”) was a wholly owned subsidiary of Bearing Lithium Corp. (“Bearing”) and was incorporated on April 25, 2018, pursuant to the provisions of the Business Corporations Act of BC. The Company is a mineral exploration company. The Company’s shares trade on the Canadian Securities Exchange (the “CSE”) under the symbol “LBM”. The registered and records office is located at Suite 2600, 1066 West Hastings Street, Vancouver, British Columbia, V6E 3X1.

On July 19, 2018, the Board of Directors of Bearing approved a statutory arrangement (the “Arrangement”) where it distributed the shares of the Company to the shareholders of Bearing on the basis of 0.049921 of the Company’s shares for 1 common share of Bearing. The arrangement resulted in participating shareholders of Bearing holding, immediately following completion of the arrangement, 50% of the outstanding common shares in proportion to their holdings of common shares of Bearing and Bearing holding the remaining 50%. In accordance with the terms of the Arrangement, each holder of Bearing’s options and warrants is entitled to receive a replacement option and warrant, each replacement option or warrant entitles the holder to acquire 0.049921 common share of the Company. At the time of the Arrangement, Bearing had a total of 185,228 outstanding warrants and 3,835,000 outstanding options. As a result of the Arrangement, the Company issued 11,020,000 shares, 382,892 stock options and 18,492 warrants. As at July 31, 2020, Bearing held nil% of the outstanding common shares (October 31, 2019 – nil%).

Prior to the distribution, Bearing transferred, to the Company, its interest in (the “Fish Lake Project”) located in Fish Lake Valley, central-western Nevada as well as the Bearing’s interest in 4 additional mineral properties located in the Yukon, Canada (note 6).

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. The Company has implemented safety and physical distancing procedures, including working from home where possible and reduced travel. The Company will continue to monitor the impact of the COVID-19 outbreak, the duration and impact which is unknown at this time, as is the efficacy of any intervention. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its operations in future periods.

**2. BASIS OF PREPARATION**

**(a) Statement of compliance**

These condensed interim financial statements, including comparatives have been prepared using accounting policies consistent with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements, including International Accounting Standards (“IAS”) 34 – Interim Financial Reporting. The accounting policies followed in these condensed interim financial statements are consistent with those of the previous financial year.

These condensed interim financial statements were approved and authorized by the Board of Directors on September 29, 2020.

**(b) Basis of preparation**

These condensed interim financial statements have been prepared on a historical cost basis, except for certain financial instruments that have been measured at fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for the cash flow information.

## **2. BASIS OF PREPARATION (continued)**

### **(c) Going concern of operation**

These condensed interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business in the foreseeable future. The Company's ability to continue as a going concern and realize the carrying value of its assets is dependent on its ability to raise capital through equity and debt financing, the outcome of which cannot be predicted at this time. These matters indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. These condensed interim financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

### **(d) Functional and presentation currency**

These condensed interim financial statements are presented in Canadian dollars, which is the Company's functional and reporting currency.

## **3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

With the exception of the recently adopted accounting policy (note 4), these condensed interim financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company's audited annual financial statement for the fiscal year ended October 31, 2019.

## **4. RECENT ACCOUNTING PRONOUNCEMENTS**

### **Changes in significant accounting policies and adoption of a new accounting standard**

The Company adopted the requirements of IFRS 16 effective November 1, 2019. This new standard replaces IAS 17 Leases and the related interpretative guidance. IFRS 16 applies a control model to the identification of leases, distinguishing between a lease and a service contract based on whether the customer controls the asset. Control is considered to exist if the customer has the right to obtain substantially all the economic benefits from the use of an identified asset and the right to direct the use of that asset. For those assets determined to meet the definition of a lease, IFRS 16 introduces significant changes to the accounting by lessees, introducing a single, on-balance sheet accounting model that is similar to the current finance lease accounting, with limited exceptions for short-term leases or leases of low value assets.

Upon adoption, the Company has elected to apply the available exemptions as permitted by IFRS 16 to recognize a lease expense on a straight-line basis for short-term leases (lease term of 12 months or less) and low value assets. The Company has also elected to apply the practical expedient whereby leases whose term ends within 12 months of the date of initial application would be accounted for in the same way as short-term leases.

Upon the adoption of IFRS 16, the Company was not required to recognize any right-of-use assets and lease liabilities, as the Company had no leases outstanding.

#### **4. RECENT ACCOUNTING PRONOUNCEMENTS (continued)**

For any new contracts entered on or after November 1, 2019, the Company considers whether a contract is or contains a lease. A lease is defined as “a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration”. To apply this definition, the Company assesses whether the contract meets three key evaluations, which are whether:

- i. The contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Company.
- ii. The Company has the right to obtain substantially all the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract.
- iii. The Company has the right to direct the use of the identified asset throughout the period of use. The Company assess whether it has the right to direct “how and for what purpose” the asset is used throughout the period of use.

##### *Measurement and recognition of leases as a lessee*

At lease commencement date, the Company recognizes a right-of-use asset and a lease liability on the statement of financial position. The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease, if that rate is readily available. If the interest rate implicit in the lease is not readily available, the Company discounts using the Company’s incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in-substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognizing a right-of-use asset and lease liability, the payments in relation to these are recognized as an expense in profit or loss on a straight-line basis over the lease term. On the statement of financial position, right-of-use assets have been included under non-current assets and lease liabilities have been included under current and non-current liabilities.

#### **5. ADVANCES**

On April 17, 2020, the Company entered into a non-binding letter of intent to acquire BioVaxys Inc. (“BioVaxys”) a private Delaware corporation. The Company agreed to provide BioVaxys with a secured bridge loan facility of up to US\$200,000 bearing interest at a rate of 9%. At July 31, 2020, \$160,848 (US\$120,000) had been advanced to BioVaxys.

**6. MINERAL PROPERTY INTERESTS**

On July 19, 2018, immediately prior to the closing of the Arrangement (note 1), the Company and Bearing entered into an Asset Purchase Agreement pursuant to which the Company acquired Bearing's interest in the Fish Lake Project located in Nevada, USA and Bearing's interests in the HY and Jay, VM and VBA properties located in the Yukon, Canada (collectively, the "North America Assets").

**Fish Lake Valley property**

On September 27, 2017, as amended on May 2, 2018, September 21, 2018 and February 3, 2020, Bearing entered into an Option Agreement with FenixOro Gold Corp. ("Fenix"), formerly American Battery Metals Corp, whereby Fenix has the option to acquire a 50% interest in the Fish Lake Project (the "Option Agreement"). Bearing transferred its interest in the Fish Lake Project and the Option Agreement to the Company under the Asset Purchase Agreement.

Pursuant to the Option Agreement, to exercise its option, Fenix was required to:

- make a cash payment in the initial amount of \$20,000 (received by Bearing);
- issue 20,000 common shares (received by Bearing);
- make a cash payment of \$10,000 for the amendment dated February 3, 2020 (received); and
- issue an additional 3,000,000 common shares to the Company on or before September 25, 2020 (not received).

Fenix must incur an aggregate of \$1,500,000 in exploration expenditures on the Fish Lake Project as follows:

- \$60,000 on or before September 25, 2018 (incurred);
- \$440,000 on or before June 30, 2020 (not incurred); and
- \$1,000,000 on or before September 25, 2020 (not incurred).

Subsequent to July 31, 2020, the Company terminated the Option Agreement with Fenix and agreed to sell the interest in the Fish Lake Project for \$10,000 upon the completion of the share exchange agreement with BioVaxys (note 10). The expected recoverable amount of the Fish Lake Project is therefore less than the book value and an impairment of the mineral property of \$55,000 was recorded.

**Yukon**

On December 23, 2016, Bearing entered into an agreement with Golden Predator Mining Corp. ("Golden"), pursuant to which Golden has agreed to purchase all the Company's interest in certain mineral claims in the Yukon Territory. As partial consideration for the purchase agreement, Golden will pay an aggregate fee of \$275,000, payable over 48 months from the execution date of the purchase agreement plus additional compensation.

On April 2, 2019, the Company terminated the property purchase agreement entered into with Golden. During the year ended October 31, 2019, the Company impaired the Yukon claims and wrote off the related book value of \$4.

**7. RELATED PARTY TRANSACTIONS**

The Company and Bearing, its former parent company, entered into the Arrangement (note 1). The Arrangement provides for the transfer from Bearing of mineral property interests (note 6) to the Company, a wholly-owned subsidiary, and the immediate distribution of a controlling interest in the common shares of the Company to the shareholders of Bearing as at July 19, 2018. The shareholders of Bearing, at the completion of the Arrangement, continued to collectively own the interest in Bearing's assets, albeit through an altered corporate structure. During the year ended October 31, 2019, Bearing's ownership decreased to nil%.

**Key management compensation**

Key management consists of the Officers and Directors who are responsible for planning, directing and controlling the activities of the Company. The following expenses were incurred to the Company's key management:

	<b>Three months ended July 31, 2020</b>	<b>Three months ended July 31, 2019</b>	<b>Nine months ended July 31, 2020</b>	<b>Nine months ended July 31, 2019</b>

	<b>\$ 13,500</b>	<b>\$ 13,500</b>	<b>\$ 40,500</b>	<b>\$ 40,500</b>

As at July 31, 2020, the Company was indebted to the related parties for a total of \$14,000 (October 31, 2019 - \$60,000). The amount is non-interest bearing and has no terms of repayments.

**8. SHARE CAPITAL**

**(a) Authorized common shares**

Unlimited number of common shares without par value authorized for issue.

**(b) Forward Stock-split**

Effective April 29, 2020, the Company completed a forward split of its issued and outstanding common shares on the basis of two-for-one stock split of the Company's common shares. Shareholders received two new common shares for every one common share held. All references to share and per shares amounts in these condensed interim financial statements have been retroactively restated.

**(c) Issued**

During the nine months ended July 31, 2020, the Company issued 4,615,000 common shares pursuant to the exercise of common share purchase warrants for gross proceeds of \$230,750.

**8. SHARE CAPITAL (continued)**

**(c) Issued (continued)**

Share capital activity for the year ended October 31, 2019:

- (i) On November 21, 2018, the Company issued 10,000,000 units for proceeds of \$500,000. Each unit consists of one common share and one warrant exercisable for a period of 2 years at an exercise price of \$0.05 per share. The Company paid cash commissions of \$12,210, other share issuance costs of \$390 and issued 244,200 brokers' warrants with a fair value of \$5,570. The brokers' warrants are exercisable for a period of 2 years at an exercise price of \$0.05 per share. The brokers' warrants were valued using the following Black-Scholes Option Pricing Model assumptions: risk free rate of 2.23%, estimated annualized volatility of 75.55%, expected life of 2 years, exercise price of \$0.05, expected dividend yield of 0% and share price of \$0.105.
- (ii) During the year ended October 31, 2019, 500,000 stock options were exercised for an exercise price of \$0.0125 for proceeds of \$6,250. Pursuant to the exercise, the Company reclassified \$5,725 from reserves to share capital.
- (iii) During the year ended October 31, 2019, 50,000 common share purchase warrants were exercised for an exercise price of \$0.05 for proceeds of \$2,500.
- (iv) Pursuant to the Arrangement (note 1), the Company issued 382,892 stock options ("Bearing Options") which would be exercised concurrently with the exercise of the related Bearing stock option from under which the entitlement was granted. During the year ended October 31, 2019, 50,000 Bearing Options were exercised which triggered 2,496 common shares of the Company to be issued.
- (v) During the year ended October 31, 2019, pursuant to the Arrangement (note 1), the Company cancelled and returned to treasury 117,640 common shares, which related to the cancellation of Bearing shares from under which the original Company shares were issued. Following completion of a merger between Li3 Energy Inc. ("Li3") and Bearing on September 28, 2017, the Li3 shareholders had 2 years to exchange their shares. As of September 28, 2019, any former shareholders of Li3 who did not exchange their shares, ceased to have any entitlement to common shares of Bearing and the related common shares of the Company.

**(d) Stock options**

The Company has a stock option plan (the "Plan") that permits the grant of share purchase options up to 10% of the issued and outstanding common shares of the Company to directors, officers, key employees and consultants. Terms and pricing of options are determined at the date of grant in accordance with the Plan. Stock option transactions and the number of stock options outstanding are summarized below:

**9. FINANCIAL INSTRUMENTS**

*Fair value*

As at July 31, 2020, the Company's financial instruments consist of cash, advances, accounts payable, and due to related parties. The fair values of these financial instruments approximate their carrying values because of their current nature.

IFRS 13, *Fair Value Measurement*, establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. IFRS 13 prioritizes the inputs into three levels that may be used to measure fair value:

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities.
- Level 2 – Inputs that are observable, either directly or indirectly, but do not qualify as Level 1 inputs (i.e. quoted prices for similar assets or liabilities).
- Level 3 – Prices or valuation techniques that are not based on observable market data and require inputs that are both significant to the fair value measurement and unobservable market data.

The Company is exposed to varying degrees to a variety of financial instrument related risks:

*Foreign Exchange Risk*

Foreign exchange risk is the risk that the fair value of future cash flows will fluctuate as a result of changes in foreign exchange rates. The functional and reporting currency of the Company is the Canadian dollar. The Company is not exposed to significant foreign exchange risk.

## **9. FINANCIAL INSTRUMENTS (continued)**

### *Credit Risk*

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's cash is exposed to credit risk. The Company reduces its credit risk on cash by placing these instruments with institutions of high credit worthiness. The does not have significant exposure to credit risk.

### *Interest Rate Risk*

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As at July 31, 2020, the Company is not exposed to significant interest rate risk.

### *Liquidity Risk*

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The Company manages liquidity risk by maintaining sufficient cash balances to enable settlement of transactions on the due date.

As of July 31, 2020, the Company had cash of \$620,120, accounts payable of \$130,349, accrued liabilities of \$12,500 and due to related parties of \$14,000. The Company's accounts payable and accrued liabilities are due within 90 days. Amounts due to related party are due on demand. The Company addresses its liquidity through debt and equity financing obtained through the sale of common shares and the exercise of warrants and options. There is no assurance that it will be able to do so in the future. Liquidity risk is assessed as high.
