

# BIOVAXYS ANNOUNCES COMPLETED DEBT SETTLEMENT

VANCOUVER, BC, Jan. 29, 2024 /CNW/ -- BioVaxys Technology Corp. (CSE: BIOV) (FRA: 5LB) (OTCQB: BVAXF) ("BioVaxys" or the "Company") announces that it completed the settlement of CAD\$215,000 in debt through the issuance of 7,166,666 common shares issued at a deemed price of \$0.03 per common share. None of the debt settled included accrued salaries to officers or directors of the Company, nor does it include payments for Investor Relations Activities. The debt included the participation of certain related parties, including BioVaxys CEO James Passin and BioVaxys COO and President Kenneth Kovan, both of whom are officers of the Company, with James Passin being a director of the Company, and as such it will constitute a "related party transaction" within the meaning of Multilateral Instrument 61-101 – Protection of Minority Security Holders in Special Transactions ("MI 61-101"). The Company relied on the exemptions from the valuation and minority shareholder approval requirements of MI 61-101 contained in sections 5.5(a) and 5.7(1)(a) of MI 61-101.

All securities issued in connection with the completed Debt Settlement are subject to a statutory hold period of four months plus a day from the date of issuance in accordance with applicable securities legislation.

## About BioVaxys Technology Corp.

BioVaxys Technology Corp. ([www.biovaxys.com](http://www.biovaxys.com)), is a biopharmaceuticals company registered in British Columbia dedicated to improving patient lives with immunotherapeutics based on its HapTenix© 'neoantigen' tumor cell construct platform. The Company's clinical stage pipeline includes BVX-0918, a personalized immunotherapeutic vaccine using its proprietary HapTenix© 'platform, which is planned to enter Phase I in Spain for treating refractory late-stage ovarian cancer. The Company is also capitalizing on its tumor immunology know-how through creation of a unique library of T-lymphocytes & other datasets post-vaccination with its personalized immunotherapeutic vaccines and utilize predictive algorithms and other technologies to identify new targetable tumor antigens. BioVaxys common shares are listed on the CSE under the stock symbol "BIOV" and trade on the Frankfurt Bourse (FRA: 5LB) and in the US (OTCQB: BVAXF). ## Cautionary Statements Regarding Forward Looking Information

*This press release includes certain "forward-looking information" and "forward-looking statements" (collectively "forward-looking statements") within the meaning of applicable Canadian and United States securities legislation including the United States Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, included herein, without limitation, statements relating the future operating or financial performance of the Company, are forward looking statements. Forward-looking statements are frequently, but not always, identified by words such as "expects", "anticipates", "believes", "intends", "estimates", "potential", "possible", and similar expressions, or statements that events, conditions, or results "will", "may", "could", or "should" occur or be achieved.. **There can be no assurance that such statements will prove to be accurate, and actual results and future events could differ materially from those expressed or implied in such forward-looking statements.***

*These forward-looking statements reflect the beliefs, opinions and projections on the date the statements are made and are based upon a number of assumptions and estimates, primarily the assumption that BioVaxys will be successful in developing and testing vaccines, that, while considered reasonable by the*

*Company, are inherently subject to significant business, economic, competitive, political and social uncertainties and contingencies including, primarily but without limitation, the risk that BioVaxys' vaccines will not prove to be effective and/ or will not receive the required regulatory approvals. With regards to BioVaxys' business, there are a number of risks that could affect the development of its biotechnology products, including, without limitation, the need for additional capital to fund clinical trials, its lack of operating history, uncertainty about whether its products will complete the long, complex and expensive clinical trial and regulatory approval process for approval of new drugs necessary for marketing approval, uncertainty about whether its autologous cell vaccine immunotherapy can be developed to produce safe and effective products and, if so, whether its vaccine products will be commercially accepted and profitable, the expenses, delays and uncertainties and complications typically encountered by development stage biopharmaceutical businesses, financial and development obligations under license arrangements in order to protect its rights to its products and technologies, obtaining and protecting new intellectual property rights and avoiding infringement to third parties and their dependence on manufacturing by third parties.*

*The Company does not assume any obligation to update the forward-looking statements of beliefs, opinions, projections, or other factors, should they change, except as required by law.*
