FLOW METALS CORP.

Notes to the Condensed Interim Financial Statements
For the nine months ended April 30, 2024 and 2023
(Unaudited - Expressed in Canadian dollars)

1. Nature of Operations and Going Concern

Flow Metals Corp. ("Flow Metals" or the "Company") was incorporated on July 11, 2018 under the *Business Corporations Act* (British Columbia) with 100 common shares issued to its initial and sole shareholder, Go Metals Corp. ("Go Metals"). The Company is an exploration stage company and is in the process of exploring its mineral properties in Canada and has not yet determined whether its properties contain ore reserves that are economically recoverable. The Company is listed on the Canadian Securities Exchange under the symbol "FWM." The Company's registered office is located at Suite 1890 – 1075 West Georgia Street, Vancouver, BC, V6E 3C9, Canada.

These condensed interim financial statements have been prepared on the going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and to meet its liabilities as they become due. As at April 30, 2024, the Company has not generated any revenues from operations and has an accumulated deficit of \$2,045,724 (July 31, 2023 - \$1,913,290). The Company expects to incur further losses in the development of its business, all of which may cast significant doubt about the Company's ability to continue as a going concern. The continued operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management is of the opinion that sufficient working capital will be obtained from external financing to meet the Company's liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These condensed interim financial statements do not reflect any adjustments to the carrying values of assets and liabilities, the reported expenses, and the balance sheet classifications used that may be necessary if the Company is unable to continue as a going concern. Such adjustments could be material.

2. Basis of Presentation

These condensed interim financial statements were authorized for issue on June 17, 2024 by the directors of the Company.

(a) Statement of Compliance

These condensed interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standards ("IAS") 34, "Interim Financial Reporting" using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and Interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC").

(a) Statement of Compliance

The condensed interim financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements as at and for the year ended July 31, 2023.

FLOW METALS CORP.

Notes to the Condensed Interim Financial Statements
For the nine months ended April 30, 2024 and 2023
(Unaudited - Expressed in Canadian dollars)

(b) Basis of Measurement

These condensed interim financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair value, as explained in the accounting policies set out in Note 3. These condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

(c) Functional and Presentation Currency

The functional currency of a company is the currency of the primary economic environment in which the company operates. The presentation currency for a company is the currency in which the company chooses to present its condensed interim financial statements. These condensed interim financial statements are presented in Canadian dollars, which is also the Company's functional currency.

3. Material Accounting Policy Information

In preparing these condensed interim consolidated financial statements, the significant accounting policies and the significant judgments made by management in applying the Company's significant accounting policies and key sources of estimation uncertainty were the same as those that applied to the Company's audited annual consolidated financial statements for the year ended July 31, 2023.

4. Mineral Properties

The Company's mineral property interests are comprised of the following properties:

Sixtymile Property, Yukon Territory, Canada

On March 23, 2019, the Company signed an option agreement with three optionors to acquire a 100% interest in the Sixtymile Property located in Yukon Territory, Canada. For consideration, the Company made the following payments at set dates:

The Company paid \$75,000 Cash and;
Issued 222,857 shares with a fair value of \$118,500.

With the completion of these payments, the Company has earned a 100% interest in the property ("Earn-In") subject to a 3% net smelter return ("NSR") royalty retained by the optionors. At any time, the Company shall have the option to acquire 2% of the 3% NSR by paying \$1,000,000 per 1% to the optionors. In addition, the Company is required to pay an advance royalty of \$30,000 to the optionors one year following the Earn-In and annually thereafter on the Earn-In anniversary date, until the mineral claims are in commercial production which the advance royalty payments shall be deducted from the Optionors' share of the NSR. The Company can elect to issue common shares in substitution for such cash payment at a deemed value equal to the most recent closing price of the Company's shares on the CSE.

Advanced Royalty Payments

Starting March 23, 2023, the Company is required to pay an advance royalty of \$30,000 to the optionors one year following the Earn-In and annually thereafter on the Earn-In anniversary date, until the mineral claims are in commercial production which the advance royalty payments shall be deducted from the Optionors' share of the NSR.

During March 2023, the Company paid \$15,000 advanced royalty payment debts pursuant to the Sixtymile property in cash payments, and the Company settled the balance of \$15,000 advanced royalty payments for the Sixtymile property by issuing 136,500 common shares at a fair value of \$0.11 per share.

During March 2024, the Company settled the \$30,000 advanced royalty payments for the Sixtymile property by issuing 399,999 common shares at a fair value of \$0.075 per share.

(d) Stock Options

The Company grants stock options to directors, officers, employees and consultants and affiliate or any person deemed suitable by the board of directors, pursuant to its Incentive Share Option Plan (the "Plan"). The number of options that may be issued under the Plan is limited to no more than 20% of the Company's issued and outstanding shares on the grant date. Options issued under the Plan vest immediately and must have a term equal to or less than five years and exercise price equal to or greater than market price on grant date.

	Period ended, April 30, 2024		Year ended, July 31, 2023	
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price

Exercisable	850,000	\$ 0.16	850,000	\$ 0.16

As at April 30, 2024, the Company had the following stock options outstanding:

Number of options	Exercise price	Expiry date
150,000	\$0.16	December 5, 2024
700,000	\$0.16	June 9, 2025
850,000	\$0.16	

The weighted average grant date fair value of options granted during the period ended April 30, 2024 was \$0.09 (July 31, 2023 - \$0.09). The weighted average remaining life of outstanding stock options as at April 30, 2024 is 1.02 (July 31, 2023 – 1.86) years.

On June 9, 2023, the Company issued 850,000 stock options to directors' officers and consultants. The stock options are exercisable to acquire common shares of the Company at a price of \$0.16 for a period of 2 years from grant and will vest on grant.

The fair value of stock options granted were \$79,363 which was estimated using the Black-Scholes option pricing model using the following assumptions:

	2024	2023
Risk free interest rate	-	4.36%
Expected life (in years)	-	2.00
Expected volatility	-	110%
Dividend yield	-	-
Forfeiture rate	-	0%

FLOW METALS CORP.

Notes to the Condensed Interim Financial Statements
For the nine months ended April 30, 2024 and 2023
(Unaudited - Expressed in Canadian dollars)

The expected volatility assumption is based on the historical share price of the Company. The risk-free interest rate assumption is based on yield curves on Canadian government zero-coupon bonds with a remaining term equal to the stock options' expected life. The Company uses historical data to estimate option exercise, forfeiture and employee termination within the valuation model. The Company has not paid and does not anticipate paying dividends on its share capital.

6. Related Party Transactions

During the periods ended April 30, 2024 and 2023, the Company had the following transactions:

Relationship	Purpose of Transaction	Nine months ending	
		April 30, 2024	April 30, 2023
Company controlled by a director	Exploration expenses	15,000	-
Company controlled by the CEO	Management fees	76,500	\$ 76,500
Director	Management fees	-	28,500
		\$ 91,500	\$ 105,000

As at April 30, 2024, the Company had an amount owing of \$269,500 (July 31, 2023- \$198,100) and a loan payable of \$Nil (July 31, 2023 - \$100) to the Chief Executive Officer of the Company. This amount is non-interest bearing, unsecured and repayable on demand.

As at April 30, 2024, the Company had an amount owing of \$3,427 (July 31, 2023- \$Nil) to a company managed by a director of the Company. This amount is non-interest bearing, unsecured and repayable on demand.

As at April 30, 2024, the Company had an amount owing of \$Nil (July 31, 2023- \$63,890) to Go Metals, a company with common management and directors. This amount is non-interest bearing, unsecured and repayable on demand. During the period ended April 30, 2024, Go Metals forgave the debt and the Company recorded a gain on write off of accounts payable of \$63,890.

On March 21, 2024, the Company entered into a debt settlement agreement and issued 153,333 and 46,666 common shares to the CEO and a director of the Company, respectively, with a total fair value of \$15,000.

7. Financial Instruments

(a) Classification of Financial Instruments

The Company has classified its financial instruments as follows:

	April 30, 2024 \$	July 31, 2023 \$
Financial assets, measured at amortized cost:		
Cash and cash equivalents	75,744	190,120
	75,744	190,120
Financial liabilities, measured at amortized cost:		
Accounts payable and accrued liabilities	18,673	27,044
Due to related parties	272,927	262,090
	291,600	289,134

(b) Fair Values

The Company has classified fair value measurements of its financial instruments using a fair value hierarchy that reflects the significance of inputs used in making the measurements as follows:

- Level 1: Valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Valuations based on directly or indirectly observable inputs in active markets for similar assets or liabilities, other than Level 1 prices, such as quoted interest or currency exchange rates; and
- Level 3: Valuations based on significant inputs that are not derived from observable market data, such as discounted cash flow methodologies based on internal cash flow forecasts.

As at April 30, 2024, the fair values of cash and cash equivalents, accounts payable and accrued liabilities, due to related parties and lease liabilities approximate their carrying values due to the relatively short-term maturity of these instruments.

(c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations out of cash. The ability to do this relies on the Company raising equity financing in a timely manner and by maintaining sufficient cash in excess of anticipated needs. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments. Mainly all of the Company's current liabilities are due within 90 days of April 30, 2024.

FLOW METALS CORP.

Notes to the Condensed Interim Financial Statements
For the nine months ended April 30, 2024 and 2023
(Unaudited - Expressed in Canadian dollars)

(d) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. As at April 30, 2024, the Company's credit risk is limited to the carrying amount on the statement of financial position arising from the Company's cash and cash equivalents.

Cash and cash equivalents consist of cash and guaranteed investment certificates held in Canadian financial institutions from which management believes the risk of loss to be remote. The guaranteed investment certificates have a maturity date of May 31, 2024 and an interest rate of prime less 2.70%.

(e) Price Risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities is subject to risks associated with fluctuations in the market price of commodities. The Company is not exposed to any significant price risk at April 30, 2024.

(f) Interest rate risk

Interest rate risk is the risk the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Financial assets and liabilities with variable interest rates expose the Company to cash flow interest rate risk. The Company does not hold any financial liabilities with variable interest rates. The Company is not subject to significant interest rate risk.

(g) Foreign currency exchange rate risk

The Company currently has no significant operations denominated in foreign currencies and is not exposed to significant foreign currency exchange rate risk.

8. Capital Management

The Company defines its capital as cash and equity comprised of issued share capital and deficit. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The properties in which the Company currently has an interest are in the exploration stage. As such, the Company has historically relied on the equity markets to fund its activities. In addition, the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will need to raise additional funds. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There have been no changes in the Company's approach to capital management during the year. The Company is not subject to externally imposed capital requirements as at April 30, 2024.
