### **About Crestview Exploration Inc:**

*Crestview Exploration is an experienced exploration company focused on the exploration and development of its portfolio of gold and silver properties located in prolific mining districts of Nevada.*

*The Tuscarora Complex includes the Rock Creek, Dry Creek, and Falcon claim blocks for a total of 239 claims. The Rock Creek gold project is Crestview’s flagship asset, with 72 unpatented lode mining claims wholly owned and controlled by Crestview. The Rock Creek property was acquired in 2017, and the company went public in 2019. Emboldened by the results coming out of Rock Creek, Crestview strategically expanded on the land position with claim staking at Dry Creek (43 claims), and later (September, 2022) with the acquisition of the Falcon silver-gold prospect (124 claims). These three claim blocks are all within close proximity and are targeting similar mineralization and likely the same underlying hydrothermal system. The Tuscarora Complex is situated in a region with proven “world class” gold deposits (including Midas, Jerritt Canyon, Betze-Post, Meikle, and Gold Quarry), where the potential of finding large, high-grade gold-silver deposits is favorable.*

*The Cimarron project is located in the San Antonio Mountains of Nye County, Nevada, and is comprised of 31 unpatented lode mining claims, including control of 6 historically producing claims associated with the historic San Antonio mine. The property is located in the prolific Walker-Lane trend, approximately 44 kms south of the “world class” Round Mountain deposit.*
