Note 1 – Nature of Operations and Going Concern

The Company was incorporated under the Business Corporations Act (British Columbia) on May 30, 2013 under the name Ascent Industries Corp. (“Ascent”). On May 15, 2020 the Company changed its name to Luff Enterprises Ltd. (“Luff” “the Company”). The Company’s head office and principal address is located at Suite 800 – 543 Granville Street, Vancouver, BC V6C 1X8.

The condensed consolidated interim financial statements as at and for the three months ended March 31, 2021 should be read in conjunction with the consolidated financial statements for the year ended December 31, 2020.

The Company’s primary activities relate to the production of cannabinoid consumer packaged goods using THC free product. The Company holds licenses for cannabis processing, production, research, product and brand development, and distribution that could be used in the future.

These consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) on a going concern basis which assumes that the Company will continue to operate for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. In the three months ended March 31, 2021 the Company has generated \$70,598 in revenues from operations and incurred a net loss of \$831,329 (revenues of \$20,080 and a net loss of \$6,438,047 in the year ended December 31, 2020). As of March 31, 2021, the Company had an accumulated deficit of \$67,083,286 (accumulated deficit of \$66,251,957 at December 31, 2020).

In the year ended December 31, 2019, the Company defaulted on certain debts and failed to secure proper licensing in Canada to produce and sell cannabis and cannabis related products. These events substantially restricted access to continue operations and, as a result, the Company filed for protection under the Companies’ Creditors Arrangement Act (the “CCAA”). Effective May 26, 2020 the Company was discharged from this process, having settled with all claimants.

The Company through its subsidiaries owns the assets related to hemp cultivation, production, distribution, research and product development business outside of Canada in Oregon and Nevada.

These interim consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

COVID-19

The outbreak of the Coronavirus Disease 2019, or COVID-19, has spread across the globe and is impacting worldwide economic activity. This global pandemic poses the risk that the Company or its clients, employees, contractors, suppliers, and other partners may be unable to conduct regular business activities for an indefinite period of time. While it is not possible at this time to estimate the impact that COVID-19 could have on the Company’s business, the continued spread of COVID-19 and the measures taken by the federal, provincial and municipal governments to contain its impact could adversely impact the Company’s business, financial condition or results of operations. The extent to which the COVID-19 outbreak impacts the Company’s results will depend on future developments that are highly uncertain and cannot be predicted, including new information that may emerge concerning the spread of the virus and government actions.

Note 10 – Loan Receivable

On January 28, 2020 the Company entered into a secured loan agreement with Enhanced Pet Sciences Corp (the Borrower) for US\$500,000 (CAD\$727,925). The loan bears interest at 8% per annum and was due on December 31, 2020. The principals of the borrower have provided guarantees and have provided collateral security. On April 15, 2021, a revised agreement was signed that extended the maturity of the loan to December 31, 2021 and the outstanding interest of US\$36,995 (CAD\$49,629) was rolled into the principal balance of the loan making the outstanding loan balance US\$536,995 (CAD\$775,057). On October 23, 2020, the Company purchased Wholesome Holdings, Inc. for a purchase price of \$6,396, recorded as goodwill on the interim consolidated statement of financial position at December 31, 2020. The purchase provided the Company with access to already established CBD merchant service accounts, bank accounts and a fulfillment account with a third-party logistics provider. The acquisition was a strategic decision inline with the Company's business plan to launch ecommerce marketplaces to access the national CBD market in the United States. Management determined that this acquisition did not meet the requirements of being recorded as a business combination and therefore it was recorded as an asset acquisition. No impairment of this goodwill has been deemed necessary by management for the three months ended March 31, 2021.

Note 13 – Short Term Note Payable

On December 18, 2020, the Company closed a \$2,000,000 short term financing, made up of \$500,000 from Safeco Developments Ltd and \$1,500,000 from Interdiam Investments Corp. The Convertible Debenture is convertible into 17,520,000 Common shares of the Company at the election of the shareholder, at any time and by the Company's election, during any period where the 20-day weighted average trading price of the Company's common shares is \$0.10 or greater.

The loans and accrued interest are forgivable after 24 weeks as long as the borrower uses the loan proceeds for eligible purposes, including payroll, benefits, rent and utilities, and maintains its payroll levels. The Company has yet to apply for forgiveness as of the date of these interim consolidated financial statements.

Note 21 – Capital Management

The Company's objectives when managing capital are to ensure that there are adequate capital resources to safeguard the Company's ability to continue as a going concern and to maintain adequate levels of funding to support its ongoing operations and development such that it can continue to provide returns to shareholders and benefits for other stakeholders.

The capital structure of the Company consists of items included in shareholders' equity and debt, net of cash and cash equivalents, which was \$9,565,142 at March 31, 2021 and \$9,617,433 at December 31, 2020. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the Company's underlying assets. In order to maintain or adjust its capital structure, the Company may issue new shares or seek additional debt financing to ensure that it has sufficient working capital to meet its short-term business requirements. There were no changes in the Company's approach to capital management during the three months ended March 31, 2021 or the year ended December 31, 2020.

Note 22 – Financial Instruments

The financial instruments recognized on the consolidated statement of financial position are comprised of cash and cash equivalents, trade and other receivables, investments, right of use leases, trade and other payables, short term debt payable, loans receivable, and loans payable.

Fair value

The carrying values of cash and cash equivalents, trade and other receivables, and trade and other payables approximate their fair values due to the short-term nature of these instruments.

In evaluating fair value information, considerable judgment is required to interpret the market data used to develop the estimates. The use of different market assumptions and different valuation techniques may have a material effect on the estimated fair value amounts. Accordingly, the estimates of fair value presented herein may not be indicative of the amounts that could be realized in a current market exchange.

Note 22 – Financial Instruments, continued

Fair value measurements of investments and loan receivable are as follows:

	Carrying Amount	Fair Value Measurements		
		Level 1	Level 2	Level 3
March 31, 2021				
Investments	\$ 408,204	\$ 48,204	\$ -	\$ 360,000
Loan receivable	775,057	-	775,057	-
Short-term note payable	2,000,000	-	2,000,000	-
Loans payable	593,459	-	593,459	-

Loans payable	427,339	-	427,339	-

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

As at March 31, 2021 and December 31, 2020, the Company measured its investment in Sebastiani Ventures Corp. at Level 1 fair value.

Level 2 – quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

As at March 31, 2021 and December 31, 2020, the Company measured its loan to Enhanced Pet Sciences Corp., its short term loans payable and loans payable at Level 2 fair value as there is no active market for these items.

Level 3 – unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The investment in Enhanced Pet Sciences Corp. is measured at fair value, but as the investment is privately held and there is no quoted market price for its common shares, fair value is deemed to be best represented by the initial acquisition price of the investment.

There were no transfers between levels 1, 2 and 3 inputs during the period.

Risk Management

The Company is exposed to risks of varying degrees of significance from its use of financial instruments which could affect its ability to achieve its strategic objectives for growth and stakeholder returns. The principal risks to which the Company is exposed, and the actions taken to manage them, are described below.

Note 22 – Financial Instruments, continued

Credit Risk

Credit risk is the risk of a potential loss to the Company if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company is moderately exposed to credit risk from its cash and cash equivalents and trade and other receivables. The risk exposure is limited to their carrying amounts at the balance sheet date. The risk is mitigated by holding cash and cash equivalents with highly rated Canadian financial institutions. The Company does not invest in asset-backed deposits or investments and does not expect any credit losses. The Company periodically assesses the quality of its investments and is satisfied with the credit rating of the financial institutions and the investment grade of its guaranteed investment certificates. Trade and other receivables primarily consist of trade accounts receivable and Goods and Services Tax recoverable (“GST”).

The Company provides credit to its customers in the normal course of business and has established credit evaluation and monitoring processes to mitigate credit risk but has limited risk as the majority of sales are transacted with credit cards.

As at March 31, 2021 and December 31, 2020 all of the Company's trade receivables were current.

Interest Rate Risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. In seeking to minimize the risks from interest rate fluctuations, the Company manages exposure through its normal operating and financing activities. The Company has obtained primarily fixed rate debt which limits its exposure to interest rate fluctuations.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations associated with financial liabilities. The Company manages liquidity risk through the management of its capital structure. The Company's approach to managing liquidity is to ensure that it will have sufficient liquidity to settle obligations and liabilities when due.

At March 31, 2021 the contractual obligations related to financial liabilities were as follows:

	Less than 1 year	1-5 Years	Total
Accounts payable, payroll and accrued liabilities	\$ 184,818	\$ -	\$ 184,818
Loan payable and convertible debenture	2,616,034	-	2,616,034
Right of use lease	105,037	77,308	182,345
