

Scotch Creek Ventures Inc. Receives Drill Permit for Macallan East Lithium Project

VANCOUVER, BC – January 5th, 2022 – Scotch Creek Ventures Inc. (the “**Company**”) (CSE: SCV) (FSE: 7S2) (OTC: SCVFF) (“**Scotch Creek**” or the “**Company**”) is pleased to announce that it has received its drill permit from the Bureau of Land Management (BLM) on its Macallan East lithium project in Clayton Valley, Nevada.

Clayton Valley has been a prolific source of lithium brine in North America and is the home of the only producing lithium operation in North America (Albemarle Corp). Scotch Creek’s Macallan East project borders multiple known lithium resources including Pure Energy Minerals’ 218,000 metric-tonnes lithium resource. Scotch Creek has identified three high-priority lithium drill targets within its Macallan East project and aims to initiate a drill program totaling over 19,000 feet of drilling (See press release [October 27, 2021](#)).

Matt Vitale, Scotch Creek’s Technical Expert, commented “Clayton Valley’s basin has collected, retained, and concentrated lithium into both mineral brines and claystone. The Macallan East Lithium Project is located along a key portion of the eastern margin of the basin. This eastern margin seems to be preferential for lithium concentrations in the Clayton Valley, based on adjacent projects. We are excited to begin our drill campaign in hopes of discovering America’s next considerable lithium resource.”

Scotch Creek would like to invite investors and stakeholders to connect with our investor relations team or visit our [website](#) to sign-up to receive regular updates and news alerts.

About Scotch Creek Ventures

Scotch Creek is a mineral exploration company, focused on the acquisition, exploration, and development of lithium projects located in tier-one North American mining jurisdictions. Scotch Creek's mission is to become a best-in-class lithium exploration company situated in one of the most promising lithium districts in the world, Clayton Valley, Nevada.
