NexTech Releases Team One Motorcars Augmented Reality Virtual Showroom Design

September 7th, 2018 – Vancouver, British Columbia – NexTech AR Solutions Corp. (“NexTech” or the “Company”) is pleased to announce the release of its virtual augmented reality showroom design for Team One Motorcars, LLC (“**Team One**”), a company which specializes in the sale of pre-owned luxury sports cars. NexTech was engaged by Team One to create an augmented reality virtual showroom allowing customers to view available cars in three-dimensions superimposed on their view of the real world. With augmented reality, shoppers can open the boot or doors, “step inside” and even turn on the radio. The car model stays firmly rooted in place, allowing a user to virtually walk around it and check out all angles with the ability to swap out different paint color options.

“We are excited to be able to work with the Team One group and create an augmented reality exotic car showroom for their company” comments Evan Gappelberg CEO of NexTech. “We are beta testing the NexTech AR Live Streaming platform now, which will allow for a live human salesperson to be beamed directly from Team One’s office right into a person’s home, acting as a 3D virtual salesperson while the customer is viewing the car from home.”

About NexTech

NexTech is bringing augmented reality and holographic teleportation to the Cannabis market and other fast-growing markets by turning 2D products into exciting 3D consumer experiences. NexTech is currently developing a proprietary and disruptive Augmented Reality (AR) advertising and education platform that uniquely engages by connecting brands and retailers through a fully immersive 3D AR experience called Native AR. NexTech launched ARitize™ app in August 2018, which is capable of hosting many brands 3D objects and AR experiences. . NexTech also owns a large and diverse revenue generating App Portfolio that is deployed on the iTunes and Google play store which it intends to ARitize™.
