About ARitize Maps

ARitize Maps is a mobile app, all-in-one no code real-world Metaverse creation tool, with self-generating augmented reality ("AR") mapping solutions for consumers and brands alike. The ARitize Maps offering will be paired with a no-code web based Creator Portal and SDK to form the Metaverse Experience Builder Platform (MEBP), launching to early adopters in July 2022. Creators can map, author and publish various Metaverse experiences ranging from wayfinding, to an array of AR experiences for exclusive branded activations. With the ARitize Maps mobile app, anyone can spatially map their location within minutes, and populate it with interactive 3D content, augmented reality navigation, audio, text, images and more. Nextech provides a number of pre-loaded 3D objects, and creators can also upload their own OBJ/GLB files, and create their own 3D objects to populate their Metaverse. The platform has a Visual Position System ("VPS") which Nextech refers to as Mapping and Localization where users can map and enable VPS in any area through the platform. Occlusion, Depth Sensing and segmentation are also available. Users can share their Metaverse with others, creating a new level of immersive interactivity for social, branding, advertising, gaming and more Metaverse experiences.
