### BOND RESOURCES INC. Notes to the Condensed Interim Consolidated Financial Statements September 30, 2021 (all amounts are expressed in United States dollars)

#### (Unaudited)

### 1. Nature of Operations and Going Concern

Bond Resources Inc. ("Bond" or the "Company") was incorporated on January 22, 2007 under the Business Corporations Act of British Columbia as J. Bond Capital Corporation. It did not commence operations until August 15, 2017. Bond changed its legal name to Bond Resources Inc. on November 16, 2018 and commenced trading on the Canadian Securities Exchange (the "CSE") on May 2, 2019 under the trading symbol "BJB".

On May 15, 2020, Bond legally acquired MJ Mining Inc. ("MJ Mining"). MJ Mining was incorporated on January 15, 2020 under the laws of British Columbia, Canada. MJ Mining's 100% owned subsidiary, MJ Mining Corp., was formed on October 25, 2019 (originally under the name of MJ Mining LLC) under the laws of the State of Delaware, United States of America. The Company's principal business activity is the exploration of mineral properties in the United States. The address of the Company's corporate office is 750–580 Hornby Street, Vancouver, British Columbia, Canada.

#### Acquisition by Bond Resources Inc. – Reverse Merger

On May 15, 2020, MJ Mining completed a share exchange agreement ("Agreement") with Bond whereby Bond issued 62.2 million common shares to the shareholders of MJ Mining, for 100% of the issued and outstanding shares of MJ Mining. As a result, the acquisition of Bond resulted in a change of control, which transaction amounts to a reverse merger transaction ("Reverse Merger"). As a Reverse Merger, Bond is the legal parent, however, the accounting parent going forward is MJ Mining with the acquisition value being the net assets of Bond (see Note 3).

#### Going concern

The condensed interim consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the payment of liabilities in the ordinary course of business. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and meet its liabilities as they become due. Management is aware of events and conditions that create a material uncertainty that could cast significant doubt about the Company's ability to continue as a going concern and therefore may be unable to realize its assets and discharge its liabilities in the normal course of business. For the period ended September 30, 2021, the Company incurred a comprehensive loss of \$751,848 and had negative cash flows from operations of \$811,799. These condensed interim consolidated financial statements do not reflect the adjustments or reclassification of assets and liabilities which would be necessary if the Company were unable to continue as a going concern and therefore be required to realize its assets and liabilities in other than the normal course of business and potentially at amounts materially different from those recorded in these condensed interim consolidated financial statements.

The Company is in the process of exploring its mineral property interests (Note 6) and has not yet determined whether the projects contain mineral reserves that are economically recoverable. The Company's continuing operations and the underlying value and recoverability of the amounts shown for mineral properties is entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of the mineral properties, obtaining the necessary permits to mine, and future profitable production or proceeds from the disposition of the mineral properties. Management uses 12 month financial forecasts to ensure the Company has capital to meet its financial obligations.

### 1. Nature of Operations and Going Concern (continued)

#### Corona Virus Pandemic

The novel coronavirus ("COVID-19") outbreak was declared a pandemic by the World Health Organization on March 11, 2020. This has resulted in significant economic uncertainty and governments worldwide are enacting emergency measures to contain the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global financial markets have experienced significant volatility and weakness as a consequence of this economic uncertainty. The duration and impact of the COVID-19 outbreak is unknown as this time, as is the effectiveness of interventions by governments and central banks. The full extent of the impact on the Company's future financial results is uncertain given the length and severity of these developments cannot be reliably estimated but may impact the Company's ability to raise sufficient funds to complete planned activities on the properties and be compliant with the earn-in provisions.

#### 2. Basis of Presentation

(a) Statement of Compliance

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim consolidated financial statements, for the three months ending September 30, 2021, have been prepared in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting, and do not include all the information required for full annual financial statement. These condensed interim consolidated financial statements were approved and authorized for issuance on November xx, 2021 by the Board of Directors.

These condensed interim consolidated financial statements should be read in conjunction with the Company's June 30, 2021 audited annual financial statements.

(b) Basis of Presentation and Measurement

These condensed interim consolidated financial statements have been prepared using the historical cost convention, except for certain financial instruments measured at fair value.

The condensed interim consolidated financial statements are presented in United States dollars, which is the functional currency of MJ Mining and MJ Mining Corp.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3 of the Company's June 30, 2021 audited annual financial statements.

### BOND RESOURCES INC. Notes to the Condensed Interim Consolidated Financial Statements September 30, 2021 (all amounts are expressed in United States dollars) (Unaudited)

### 3. Reverse Merger

On May 15, 2020, Bond completed a share-purchase agreement to acquire a 100% interest in MJ Mining and the Company issued 62,200,000 common shares to the shareholders of MJ Mining. This resulted in a Reverse Merger of Bond by MJ Mining as on closing certain MJ Mining shareholders held 79% voting interest of the Company and the Board of Directors was also comprised of some MJ Mining shareholders.

Since Bond did not meet the definition of a business under IFRS 3, Business Combinations ("IFRS 3"), the acquisition was accounted for as the purchase of Bond's assets by MJ Mining. The consideration paid was measured as equity settled share-based payment under IFRS 2, Share based Payments ("IFRS 2"), being the fair value of the equity of Bond retained by the shareholders of MJ Mining based on the fair value of the Bond's common shares on the date of closing of the Reverse Merger.

For Reverse Merger accounting purposes, the percentage ownership of the shareholders of MJ Mining in the combined entity on completion of the Transaction was 79% (being 62,200,000 of the total 78,647,050 issued and outstanding shares of the Company on closing of the Transaction). Based on the share price of the Bond prior to the Reverse Merger of CAD\$0.20 per share, the consideration received by the shareholders of MJ Mining amounted to CAD\$12.44 million.

The accounting of the purchase price payable pursuant to the Agreement is the cost to acquire Bond's share capital and outstanding options at the fair value at the time of the transaction. The fair value is calculated as CAD\$2,916,210, being the cost of acquiring the 14,581,050 outstanding common shares of Bond at CAD\$0.20, the post-closing trading price of those shares and fair value of the stock options and warrants at the date of the time of the transaction calculated using the Black Scholes method, the details of which are as follows:

Fair value of consideration:	
14,581,050 shares @ CDN \$0.20 per share	\$ 2,069,051
1,866,000 shares @ CDN 0.20 per share, finders fee	264,785

Prepaid	79,469
Amounts payable	(28,643)
Net assets	\$ 1,138,336
Excess of consideration over net assets required	\$ 1,263,883

The net assets of Bond were included at their fair value (equal to the net carrying value).

### 4. Related Party Transactions

The following is a summary of charges incurred by the Company with related parties during the period ended September 30, 2021:

### Mary K Property

MJ Mining, through its US subsidiary MJ Mining Corp. and in exchange for MJ Mining's payment of non-refundable fees of \$350,000, has been granted the exclusive option to acquire, over a period of ten years, the right, title and interest in and to the Mary K Property. This right is free and clear of all charges, encumbrances, claims, royalties, or other interests, except for a 5% State Royalty, for a total purchase price of \$8,650,000 (the "Purchase Price") as follows:

- a) \$500,000 payable based upon the "Initial Closing", defined as April 10, 2020 (all payments completed by June 10, 2020).
- b) The balance of the Purchase Price, \$8,150,000 will be paid as a Net Profit Royalty ("NPR"), paid on a quarterly basis and will vary depending on the grade of gold realized from operations as follows:
  - if the gold grade is 1.0 ounce per ton or greater, the NPR will be 50%;
  - if the gold grade is between 0.25-0.9999 ounces per ton, the NPR will be 30%; or
  - if the gold grade is less than 0.25 ounces per ton, the NPR will be 10%.

The NPR is also subject to certain minimum annual payments of:

- at least \$200,000 per year commencing in 2020 (paid);
- at least \$4,075,000 must be paid, in aggregate, after five years; and
- at least \$8,150,000 must be paid, in aggregate, after 10 years.

Due to the consideration being payable over time, the parties have agreed to a two-phase closing of the Transaction. Subject to approval from the Idaho Department of Lands, the Company will be subleasing the rights starting on the Initial Closing date and continuing until the earlier of the Final Closing Date or the date the agreement is terminated by the Company. If the agreement is not terminated by the Company, on or before the Final Closing Date the lease will be terminated, and the Vendors will assign their rights of the Mary K Mine to the Company.

### 6. Exploration and Evaluation Assets (continued)

### Mary K Property – (continued)

On March 10, 2020, MJ Mining entered into a ground lease ("Ground Lease") with certain arm's length parties ("Vendors") for a mineral lease located in the State of Idaho ("Mary K Mine"). The term of this Ground Lease commences on April 1, 2020 and expires at the end of the tenth full lease year. MJ Mining will pay fixed rent in advance on the first day of each calendar quarter of \$26,000.

### Hard Cash Property

In February, 2021, the Company and Winston Gold Corp. ("Winston") (CSE: WGC) have jointly entered into a Lease Agreement, with an option to purchase, ("the Agreement") with Montana Reclaim LLC (Lessor) over nine mining claims covering approximately 166 acres in Montana, USA, more commonly known as the Hard Cash property (the "Property"). Bond and Winston will be equal partners in the project, however, Winston is the operator. The Hard Cash property is located approximately 3km from Winston's Paradine mill and is west of the small town of Radersburg, Montana. The Company's CEO is alsp a director of Winston.

The Agreement shall remain in effect for an initial term of five (5) years commencing on the date on which the Agreement is signed and shall be renewable for three (3) additional five (5) year terms.

Consideration payable to the Lessor under the Agreement is:

- 1. an initial cash payment of \$2,000 (Paid) and \$1,500 monthly payments thereafter;
- 2. annual payments by each of Bond and Winston of \$25,000, payable in shares of Bond and Winston respectively; and
- 3. \$25,000 upon the expiry of each five year term.

In addition to the lease payments noted above, by the end of each calendar year commencing in 2021, Bond and Winston must incur minimum annual expenditures on the Property of \$75,000 (the "Annual Expenditure").

The Agreement includes the exclusive option to purchase the Property at any time for \$1,500,000, plus a 3.0% net smelter returns royalty (the "Royalty"), (which increases to a \$4.0% NSR Royalty should the price of gold exceed \$2,000 per ounce), in and to all of the minerals produced from the Property.

### 8. Financial Instruments and Risk Management

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

(a) Credit risk

Credit risk arises from the possibility that a counterparty to which the Company provides goods or services is unable or unwilling to fulfill their obligations. The Company's credit risk is primarily attributable to its liquid financial assets, including cash. The Company limits its exposure to credit risk by dealing with well rated entities. Management believes credit risk to be low as its cash which is held in a major financial institution in the United States.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is through regular monitoring of cash requirements by preparing short-term and long-term cash flow analyses. When necessary, the Company obtains financing from various investors to ensure all future obligations are fulfilled. The Company does not have any contractual obligations other than property payments (note 6) and accounts payable and accrued liabilities which are due within the next 12 months. The Company has current assets of \$781,763 to settle current obligations of \$23,357.

### (c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is comprised of three types of market price changes: foreign currency exchange rates, interest rates and commodity prices.

i. Foreign currency exchange risk

Bond is exposed to foreign currency exchange rate fluctuations as the Company trades on a Canadian Stock Exchange and raises funds in Canadian dollars. Canadian AR and AP is \$36,481 and \$6,947 respectively, converted at \$1.26861 USD to CAD.

2025 and

ii. Interest rate risk

Interest rate risk is the risk of change in the borrowing rates of the Company. The Company does not have any exposure to changes in interest rates and is therefore not exposed to this risk.

*iii.* Commodity price risk

Commodity price risk is the risk of price volatility of commodity prices, such as mineral prices. Currently the Company does not have commercial operations and is therefore not exposed to this risk. Commodity prices generally fluctuate beyond the control of the Company. Factors which contribute to the fluctuation are, but not limited to, demand, forward sales, worldwide production, speculative hedging activities, and bank lending rates.

(d) Fair value of financial instruments

Fair value represents the price at which a financial instrument could be exchanged in an orderly market, in an arm's length transaction between knowledgeable and willing parties who are under no compulsion to act. The Company classifies the fair value of the financial instruments according to the following hierarchy based on the amount of observable inputs used to value the financial instrument:

- Level 1 fair value measurements are those derived from quoted prices (adjusted) in the active market for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the assets or liability that are not based on observable market data (unobservable inputs).

The carrying value of cash, accounts payable and accrued liabilities approximates fair value due to the short-term nature.
