BOND RESOURCES INC.

Notes to the Condensed Interim Consolidated Financial Statements

December 31, 2022

(all amounts are expressed in United States dollars)

(Unaudited)

1. Nature of Operations and Going Concern

Bond Resources Inc. (“Bond” or the “Company”) was incorporated on January 22, 2007 under the Business Corporations Act of British Columbia as J. Bond Capital Corporation. It did not commence operations until August 15, 2017. Bond changed its legal name to Bond Resources Inc. on November 16, 2018 and commenced trading on the Canadian Securities Exchange (the “CSE”) on May 2, 2019 under the trading symbol “BJB”.

On May 15, 2020, Bond acquired MJ Mining Inc. (“MJ Mining”). MJ Mining was incorporated on January 15, 2020 under the laws of British Columbia, Canada. MJ Mining’s 100% owned subsidiary, MJ Mining Corp., was formed on October 25, 2019 (originally under the name of MJ Mining LLC) under the laws of the State of Delaware, United States of America. The Company’s principal business activity is the exploration of mineral properties in the United States. The address of the Company’s corporate office is 750– 580 Hornby Street, Vancouver, British Columbia, Canada.

Acquisition by Bond Resources Inc. – Reverse Merger

On May 15, 2020, MJ Mining completed a share exchange agreement (“Agreement”) with Bond whereby Bond issued 62.2 million common shares to the shareholders of MJ Mining, for 100% of the issued and outstanding shares of MJ Mining. As a result, the acquisition of Bond resulted in a change of control, which transaction amounts to a reverse merger transaction (“Reverse Merger”). As a Reverse Merger, Bond is the legal parent, however, the accounting parent going forward is MJ Mining with the acquisition value being the net assets of Bond.

Going concern

The condensed interim consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the payment of liabilities in the ordinary course of business. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and meet its liabilities as they become due. For the period ended December 31, 2022, the Company incurred a loss of \$2,344,507 and had negative cash flows from operations of \$30,165. These condensed interim consolidated financial statements do not reflect the adjustments or reclassification of assets and liabilities which would be necessary if the Company were unable to continue as a going concern and therefore be required to realize its assets and liabilities in other than the normal course of business and potentially at amounts materially different from those recorded in these condensed interim consolidated financial statements.

The Company is in the process of exploring its mineral property interests on the Mary K property in Idaho, USA. As of the date of these condensed interim consolidated financial statements, however, the Landowners have given notice of default on the Mary K property pursuant to the requirements of the property agreements and, if terminated, the Company will have no properties under exploration (please see Note 5 for status of properties and impairment of the Company’s Mary K property). The Company’s continuing operations and the underlying value and recoverability of the amounts shown for assets is entirely dependent upon the ability of the Company to obtain the necessary financing to continue operations. Currently, there are no financing arrangements in place.

These events and conditions create a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern and therefore may be unable to realize its assets and discharge its liabilities in the normal course of business.

BOND RESOURCES INC.

Notes to the Condensed Interim Consolidated Financial Statements

December 31, 2022

(all amounts are expressed in United States dollars)

(Unaudited)

2. Basis of Presentation

(a) Statement of Compliance

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). For the six months ending December 31, 2022, these statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting, and do not include all the information required for full annual financial statement. These condensed interim consolidated financial statements were approved and authorized for issuance on February 28, 2023 by the Board of Directors.

(b) Basis of Presentation and Measurement

These condensed interim consolidated financial statements have been prepared using the historical cost convention, except for certain financial instruments measured at fair value. These consolidated financial statements are prepared using the accrual method of accounting, except for cash flow information.

The consolidated financial statements are presented in United States dollars (“USD”), which is the functional currency of MJ Mining and MJ Mining Corp. The functional currency of Bond is the Canadian dollar (“CAD”).

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company’s accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3 of the Company’s June 30, 2022 audited annual financial statements.

3. Related Party Transactions

The following is a summary of charges incurred by the Company with key management personnel, consisting of the chief executive officer and president, chief financial officer, and directors:

Six Month Period ended December 31,	2022	2021
Management fees	50,946	69,590
Total	\$ 50,946	\$ 69,590

The following is a summary of charges incurred by the Company with related parties, other than key management personnel:

(Unaudited)

3. Related Party Transactions *(continued)*

During the period ended December 31, 2022, Bond incurred operational expenses for accounting, office and legal and corporate services of \$12,403 (December 30, 2021- \$48,451) from companies controlled by an officer and the secretary of the Company. Shareholder communication expenses of \$nil (December 30, 2021- \$23,916) were charged to the Company by a person related to a director for services rendered.

Included in Bond's accounts payable and accrued liabilities at December 31, 2022 is \$114,618 (June 30, 2022 - \$57,963) owed to officers for management fees. Transactions with related parties are non-interest bearing and have no repayment terms.

During the period ending December 31, 2022, the CEO advanced an additional \$170,000 to the Company (June 30, 2022 - \$746,150) as an unsecured, non-interest bearing loan with no repayment terms for a total loan outstanding of \$916,150.

Mary K Property

MJ Mining, through its US subsidiary MJ Mining Corp. and in exchange for MJ Mining's payment of non-refundable fees of \$350,000, was granted the exclusive option by the Landowners ("Landowners") to acquire, over a period of ten years, the right, title and interest in and to the Mary K Property (the "Agreement"). This right was free and clear of all charges, encumbrances, claims, royalties, or other interests, except for a 5% State Royalty, for a total purchase price of \$8,650,000 (the "Purchase Price") as follows:

- a) \$500,000 payable based upon the "Initial Closing"(paid).
- b) The balance of the Purchase Price, \$8,150,000 to be paid as a Net Profit Royalty ("NPR"), paid on a quarterly basis and will vary depending on the grade of gold realized from operations.

The NPR is also subject to certain minimum annual payments of:

- at least \$200,000 per year commencing in 2020 (paid for 2020 and 2021);
- at least \$4,075,000 must be paid, in aggregate, after five years; and
- at least \$8,150,000 must be paid, in aggregate, after 10 years.

In addition, in March 2020, MJ Mining entered into a ground lease ("Ground Lease") with certain arm's length parties for a mineral lease in the State of Idaho for the Mary K property. The Ground Lease commenced on April 1, 2020 and was to expire at the end of the tenth full lease year. MJ Mining has paid fixed rent in advance on the first day of each calendar quarter of \$26,000 (\$104,000 annually) up to the September 30, 2022 quarter end.

BOND RESOURCES INC.

Notes to the Condensed Interim Consolidated Financial Statements

December 31, 2022

(all amounts are expressed in United States dollars)

(Unaudited)

5. Exploration and Evaluation Assets (continued)

Mary K Property – (continued)

As at December 31, 2022, the Company was in arrears of the \$200,000 minimum annual payment (in lieu of the NPR) and \$26,000 in respect of the Ground Lease commitment. Under the terms of the Agreement, the Company has 30 days *after* the receipt of notice of default from the Landowners to rectify the default; provided, however, if the nature of the default is such that it cannot be cured within 30 days, the Company shall have up to 60 days to cure the default so long as the Company commences to cure the default within 30 days and diligently prosecutes it to completion. The Company received a notice of default of the Agreement from the Landowners in January, 2023 and, according to the Landowners, has until March 3rd to accept the terms of the notice to remedy the default, or accept that the Agreement has been terminated.

Management has decided to record an impairment of the full amount Mary K asset of \$1,672,788 at this time as there is no certainty that the Company will be successful in completing a financing and avoiding a default of the agreement above. This amount includes all minimum annual payments and property costs paid and owing to December 31, 2022.

Should the Company default on the agreement, it will no longer own any mining properties.

Hard Cash Property

In February, 2021, the Company and Winston Gold Corp. (“Winston”) (CSE: WGC) jointly entered into a Lease Agreement, with an option to purchase, (“the Agreement”) with Montana Reclaim LLC over nine mining claims covering approximately 166 acres in Montana, USA, more commonly known as the Hard Cash property (the “Property”). Bond and Winston were equal partners in the project, with Winston as the operator. The Company’s CEO is also a director of Winston. During the year ended June 30, 2022, management withdrew from the Agreement with Winston and, consequently, wrote off \$2,000 in costs associated with this Property.

Aspen Property

Pursuant to the reverse merger, the Company held a 100% interest in the Aspen property claim block located on the Nechako Plateau in British Columbia, Canada. During the year ending June 30, 2022, the Aspen property was sold for \$15,522 (CAD\$20,000) to a Company controlled by a Director and a gain on sale of exploration and evaluation assets of \$15,522 was recognized.

6. Share Capital

(a) Authorized

Unlimited number of common shares without nominal or par value.

Unlimited number of preferred shares, issuable in series

(b) Issuances

On December 14, 2021, Bond completed Tranche 1 of its non-brokered private placement, raising \$569,555 (CAD\$729,600) in gross proceeds through the issuance of 12,160,000 units at a price of CAD\$0.06 per Unit. Each Unit is comprised of one common share and one-half common share purchase warrant, with each whole Warrant entitling the holder to purchase one common share of Bond at a price of CAD\$0.12 per share for a period of 2 years, provided that, if after the expiry of all resale restrictions, the closing price of the Company’s Shares is equal to or greater than \$0.25 per share for 20 consecutive trading days, the Company may, by notice

the options are not dependent on any performance-based criteria. Share purchase options will vest when granted except where granted for investor relations activities which vest and may be exercised in accordance with the vesting provisions as to ¼ of the options each 3 months. A summary of the Company's outstanding stock options is presented below:

Number of Options	Exercise Price CAD	Expiry Date	Weighted Average Life Remaining (years)
415,000	\$0.20	June 24, 2024	1.98
3,530,000	\$0.30	May 25, 2025	2.90
3,945,000	\$0.29		2.80

A summary of the Company's outstanding stock options is presented below:

	Number of Options	Weighted Average Exercise Price CAD
Outstanding and exercisable at June 30, 2022 and December 31, 2022	3,945,000	\$ 0.29

7. Financial Instruments and Risk Management

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. There were no changes to the Company's risk exposure during the period ended December 31, 2022.

(a) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's credit risk is primarily attributable to its liquid financial assets, including cash. The Company limits its exposure to credit risk by dealing with well rated entities. Management believes credit risk to be low as its cash is held in a major financial institution in Canada and the United States.

(b) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. When necessary, the Company obtains financing from various investors to ensure all future obligations are fulfilled. The Company does not have any contractual obligations other than property payments (note 5), accounts payable and accrued liabilities which are due within the next 12 months, and due to related party, which is short term in nature. The Company has current assets of \$48,791 to settle current obligations of \$1,618,624.

(b) Liquidity risk - *(continued)*

Obligations due in the period ended December 31,	2023	2024	2025	2026 and beyond
Trade and other payables	\$ 702,474	\$ -	\$ -	\$ -
Due to related party	\$ 916,150	\$ -	\$ -	\$ -

(c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is comprised of three types risk: currency risk, interest rate risk and other price risk.

i. Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Bond is exposed to foreign currency exchange rate fluctuations as the Company trades on a Canadian Stock Exchange and raises funds in Canadian dollars. Canadian cash and accrued liabilities is CAD\$1,765 and CAD\$119,553 respectively, converted at \$1.3544 USD to CAD.

ii. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have any exposure to changes in interest rates and is therefore not exposed to this risk.

iii. Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Currently the Company does not have commercial operations and is therefore not exposed to this risk. Commodity prices generally fluctuate beyond the control of the Company. Factors which contribute to the fluctuation are, but not limited to, demand, forward sales, worldwide production, speculative hedging activities, and bank lending rates.

(d) Fair value of financial instruments

Fair value represents the price at which a financial instrument could be exchanged in an orderly market, in an arm's length transaction between knowledgeable and willing parties who are under no compulsion to act. The Company classifies the fair value of the financial instruments according to the following hierarchy based on the amount of observable inputs used to value the financial instrument:

- Level 1 fair value measurements are those derived from quoted prices (adjusted) in the active market for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (derived from prices).

7. Financial Instruments and Risk Management *(continued)*

(d) Fair value of financial instruments - *(continued)*

- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the assets or liability that are not based on observable market data (unobservable inputs).

The carrying value of cash, accounts payable and accrued liabilities and due to related party approximates their fair values due to the short-term nature of these instruments.

8. Capital Management

The Company manages its capital in a manner consistent with the risk characteristics of the assets it holds. All financing, including equity and debt, are analyzed by management and approved by the Board of Directors.

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern and provide returns for shareholders and to facilitate the development of its core business.

The Company considers shareholders' equity to be capital of the Company, in the amount of \$(1,471,572) (June 30, 2022 - \$868,166). The Company does not have any externally imposed restrictions on its capital.

The Company's strategy for managing capital did not change during the period ended December 31, 2022.

9. Segmented Information

The Company operates in two reportable geographical segments, being the United States and Canada, and one operating segment in the United States. All non-current assets are located in the United States.
