TOCVAN VENTURES CORP.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Six Months Ended February 29, 2024

The following Management's Discussion and Analysis ("MD&A") of Tocvan Ventures Corp. (the "Company" or "Tocvan") has been prepared by management, in accordance with the requirements of National Instrument 51-102 as of April 29, 2024, and should be read in conjunction with the condensed interim consolidated financial statements for the six months ended February 29, 2024 and February 28, 2023, and the related notes contained therein, which have been prepared under International Financial Reporting Standards ("IFRS"). The information contained herein is not a substitute for detailed investigation or analysis on any particular issue. The information provided in this document is not intended to be a comprehensive review of all matters and developments concerning the Company. The Company is presently a "Venture Issuer" as defined in NI 51-102.

All financial information in this MD&A has been prepared in accordance with IFRS and all dollar amounts are quoted in Canadian dollars, the reporting currency of the Company, unless specifically noted. The Company's functional currency is Canadian Dollar, and the Company's wholly-owned subsidiary's functional currency is also Canadian Dollar.

Additional information related to the Company is available on the Company's website at https://tocvan.com, or on SEDAR+ at www.sedarplus.ca.

Forward Looking Statements

Certain information included in this discussion may constitute forward-looking statements. Readers are cautioned not to put undue reliance on forward-looking statements. These statements relate to future events or the Company's future performance, business prospects or opportunities. All statements other than statements of historical fact may be forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as "seek", "anticipate", "plan", "continue", "estimate", "expect", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe" and similar expressions. These forward-looking statements include statements regarding the future price of metals, the timing and amount of estimated future production, costs of production, capital expenditures, the success of exploration activities, permitting timelines, currency fluctuations, the requirements of future capital, drill results and the estimation of mineral resources and reserves. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. The Company believes that the expectations reflected in those forward-looking statements are reasonable, but no assurance can be given that these expectations will prove to be correct and such forward-looking statements contained in this report should not be unduly relied upon. These statements speak only as of the date of this report. Actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained in this report. Such statements are based on a number of assumptions which may prove to be incorrect, including, but not limited to, assumptions about general business and economic conditions; the supply and demand for, deliveries of, and the level and volatility of prices of gold ore and other commodities; the availability of financing for the Company's exploration programs; the ability to procure equipment and operating supplies in sufficient quantities and on a timely basis; and the ability to attract and retain skilled staff.

These forward-looking statements involve risks and uncertainties relating to, among other things, changes in commodity and, particularly, gold prices, access to skilled mining development personnel, results of exploration and development activities, uninsured risks, regulatory changes, defects in title, availability of materials and equipment, timeliness of government approvals, actual performance of facilities, equipment and processes relative to specifications and expectations and unanticipated environmental impacts on operations. Actual results may differ materially from those expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to, the risk factors hereinabove. Additional risk factors are described in more detail hereinafter. **Investors should not place undue reliance on forward-looking statements as the plans, intentions or expectations upon which they are based might not occur. The Company cautions that the foregoing list of important factors is not exhaustive. Investors and others who base themselves on the Company's forward-looking statements should carefully consider the above factors as well as the uncertainties they represent and the risk they entail. The forward-looking statements contained in this report are expressly qualified by this cautionary statement.** The Company intends to discuss in its quarterly and annual reports referred to as the Company's management's discussion and analysis documents, any events and circumstances that occurred during the year to which such document relates that are reasonably likely to cause actual events or circumstances to differ materially from those disclosed in this management discussion and analysis.

Qualified Person

Brodie Sutherland, P. Geo, a director and CEO of the Company, is a Qualified Person as defined in National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* and has reviewed and approved all technical information in this management's discussion and analysis.

Description of Business

Tocvan was incorporated on May 23, 2018, under the Alberta Business Corporations Act. The Company's shares are traded on the Canadian Securities Exchange (the "CSE") under the symbol "TOC". The Company's head office address is Suite 820 – 1130 West Pender St., Vancouver, British Columbia V6E 4A4, Canada. The registered and records office address is Suite 1150 – 707 7 Avenue SW, Calgary, Alberta T2P 3H6, Canada.

On September 15, 2020, the Company incorporated, under the laws of Mexico, a wholly-owned subsidiary, Burgencio S.A. de C.V. ("Burgencio"). Burgencio's office address is Blvd. Morelos No. 639, locales 13 y 14, Col. Bachoco, C.P. 83148, Hermosillo, Sonora, Mexico.

As of the date of this MD&A, the Company is focused on the exploration and development of its two projects, the Pilar Gold Project ("Pilar Project") and El Picacho Project ("El Picacho Project").

Pilar Project

Pilar Property is located near the town of Suaqui Grande in Sonora, Mexico, and originally consisted of two concessions, the Guadalupana concession and La Sonora concession, totaling 105 hectares ("ha"). In October of 2023 the Company signed an option agreement to acquire additional concessions contiguous to the original Pilar Property expanding the size of Pilar Project to 2,278 ha.

On September 22, 2019, the Company signed an option agreement with Colibri Resource Corp. ("Colibri") to acquire 51% of the Pilar Property in exchange for series of payments consisting of $425,000 cash, $2,000,000 spent on exploration work on the Pilar Property, and by issuing 5,000,000 common shares of the Company. On September 18, 2023, the Company made the final payment required under the option agreement and acquired the 51% ownership. To acquire the remaining 49% interest in the Pilar Property, the Company was required to make an additional $2,000,000 cash payment within a six-month period from the exercise of the Option. In order to preserve its cash, the Company chose to enter into a joint venture with Colibri, as following the expansion of the Pilar Project (see below), the Pilar Property as acquired under the agreement with Colibri, represents only 4.6% of the total size of the Pilar Project.

As a result of the exploration programs on the Pilar Property, the Company's management saw it advantageous to expand the Pilar Project by acquiring additional concessions in the visiting of the Pilar Property. On October 17, 2023, the Company signed an option agreement with Suaqui Verde Properties, S.A. de C.V. ('SVP") to acquire an additional 2,173 ha in exchange for the series of payments that are described in *Commitments* section of this MDA.

The Pilar Project shows NW-SE trends of gold and silver mineralization with significant grades in several locations. The Company has not yet determined whether the Pilar Project contains ore reserves that are economically recoverable. The recoverability of amounts shown for mineral properties and related deferred exploration costs is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development, and upon future profitable production from the mineral properties or proceeds from the disposition of the mineral properties.

El Picacho Project

El Picacho Project is located 140 kilometers north of Hermosillo in Sonora, Mexico, known as Caborca Orogenic Gold Belt, and is fully accessible by road. El Picacho consists of 12 mining concessions totaling 2,395 ha.

On June 7, 2021, the Company signed a letter of commitment with Recursos Millrock S. de R.L. de C.V. ("Millrock") to purchase El Picacho Property. On signing of the letter of commitment the Company made an initial payment of $94,196 (US$78,000). On September 15, 2021, the Company entered into an assignment agreement with Millrock for an initial five-year option to acquire El Picacho Property from the property owners, Suarez Brothers, in exchange for a series of payments consisting of a cash payment totaling US$1,985,600 and an additional payment of US$60,000 to gain surface rights to use the Picacho Ranch.

El Picacho Project is interpreted as an orogenic gold system within the regional Caborca Orogenic Gold Belt known for producing gold mines that include La Herradura and San Francisco. The Company has not yet determined if El Picacho Project contains ore reserves that are economically recoverable. The recoverability of amounts shown for mineral properties and related deferred exploration costs is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development, and upon future profitable production from the mineral properties or proceeds from the disposition of the mineral properties.

Overall Performance

During the six-month period ended February 29, 2024, the Company incurred a net and comprehensive loss of $550,994 (2023 – $936,731). The Company had no revenues, and the operating expenses were associated primarily with share-based payments, advertising and promotion activities, management and consulting fees.

At February 29, 2024, the Company had cash of $47,376 (2023 – $20,825) and a working capital deficit of $1,025,517 (2022 – $2,046,018). The working capital deficit decreased as a result of a decrease in fair value of convertible debenture from $1,958,304 at August 31, 2023, to $663,398 at February 29, 2024, and decreased fair value of warrants payable from $777,435 to $168,111. In addition, the accounts payable and accrued liabilities decreased from $366,304 at August 31, 2023, to $193,477 at February 29, 2024, thus decreasing total current liabilities. The Company's current assets decreased to $592,162 from $1,575,111 in the previous year, and were mostly affected by decreased fair value of financial assets associated with the financing transactions the Company completed with Sorbie Bornholm LP ("Sorbie") in June of 2022 and April of 2023, which decreased by $980,578 from $1,355,240 at August 31, 2023, to $374,662 at February 29, 2024; this decrease was in part offset by increase of $26,551 in cash balance of $47,376 at February 29, 2024, as compared to $20,825 at August 31, 2023.

To date, the Company's sole source of financing has been derived from the issuance of common shares and convertible debt.

During the period ended February 29, 2024, and up to the date of this MD&A, the Company issued the following shares:

Non-brokered private placements

On November 28, 2023, the Company closed the first tranche of a non-brokered private placement of 820,000 units at $0.45 per unit for gross proceeds of $369,000. Each unit consisted of one common share and one common share purchase warrant. Each warrant entitles the holder to acquire one additional common share at a price of $0.60 expiring on November 28, 2025, subject to accelerated expiry provisions. The warrants were valued at $8,200.

In relation to the first tranche of the private placement, the Company paid a total of $32,399 in cash finders' fees, $7,500 in legal fees, and issued 72,000 finders' warrants. Each finders' warrant entitles the holder to acquire one additional common share at a price of $0.45 expiring on November 28, 2025. These finders' warrants were valued at $12,360 using Black Scholes Option Pricing Model.

On December 11, 2023, the Company closed the second and final tranche of the non-brokered private placement issuing 680,333 units at $0.45 per unit for gross proceeds of $306,150. Each unit consisted of one common share and one common share purchase warrant. Each warrant entitles the holder to acquire one additional common share at a price of $0.60 expiring on December 11, 2025, subject to accelerated expiry provisions. The warrants were valued at $23,812.
In relation to the second tranche of the private placement, the Company paid $5,550 in legal fees and $15,165 in finders' fees; in addition, the Company issued 33,700 finders' warrants. Each finder's warrant is exercisable at a price of $0.45 per common share expires on December 11, 2025. These finders' warrants were valued at $5,363 using Black Scholes Option Pricing Model.

On April 24, 2024, the Company closed the first tranche of a non-brokered private placement ("April PP") for gross proceeds of $2,099,830 for an aggregate of 5,999,514 units at a price of $0.35 per unit, of which 4,285,714 units were issued to Sorbie. Each unit consisted of one common share and one share purchase warrant exercisable at $0.50 per common share expiring on April 25, 2027. The Company paid $52,885 in finders' fees and issued 151,100 finders' warrants exercisable at $0.35 expiring April 25, 2027. In addition, the Company issued an additional 300,000 units to Sorbie in lieu of corporate finance fee of $105,000.

The funds received from Sorbie, being $1,500,000, were deposited with a third-party escrow agent and will be delivered in monthly tranches of $62,500 over the 24-month period pursuant to the terms and conditions of a sharing agreement between the Company and Sorbie dated June 28, 2022, as amended on April 5, 2023, and further amended on April 24, 2024. The monthly payouts will be measured against a benchmark price of $0.48 per share.

Other share issuances

On November 1, 2023, the Company issued 854,000 common shares for a total consideration of $700,280 to Sorbie pursuant to the exercise of 700 Sorbie Notes with each note convertible into 1,220 common shares. The total interest of $2,397 accrued on the 700 Sorbie Notes up to November 1, 2023, was converted into 5,387 common shares at a deemed price of $0.445. These shares were issued on December 12, 2023.

On December 19, 2023, the Company issued 525,000 common shares valued at $210,000 to Colibri in accordance to Section 9 *(Anti-Dilution Clause)* of Pilar Agreement.

On February 2, 2024, the Company issued 826,600 common shares valued at $680,272 to Sorbie upon exercise of 680 Sorbie Notes and an additional 10,977 common shares to settle accrued interest of $4,061.

Commitments

Pilar Gold Project

On September 22, 2019, the Company signed an option agreement ("Pilar Agreement"), as amended on August 31, 2021, to acquire 51% of the Pilar Gold Project in the state of Sonora, Mexico (the "Pilar Project") from Colibri Resource Corp. To acquire 51% of the Pilar Project the Company was required to pay a cash deposit to Colibri of $25,000, which the Company paid on September 18, 2019. After satisfactory due diligence was completed, the Company decided to proceed with the fulfillment of its initial commitment pursuant to the Pilar Agreement, which included the following:

	Cash payment	Exploration work	Common shares
September 22, 2019	$125,000 (paid)	$Nil	2,000,000 (issued)
September 21, 2020	$125,000 (paid)	$175,000 (completed)	1,000,000 (issued)
September 21, 2021	$25,000 (paid)	$425,000 (completed)	1,000,000 (issued)
September 21, 2022	$75,000 (paid)	$400,000 (completed)	1,000,000 (issued)
September 21, 2023	$75,000 (paid)	$500,000 (completed)	
September 21, 2024		$500,000 (completed)	
TOTAL	**$425,000**	**$2,000,000**	**5,000,000**

On September 18, 2023, the Company submitted an exercise notice to Colibri to confirm its 51% ownership of the Pilar Project as the Company fulfilled its initial commitment under the covenants of the Pilar Agreement.

The Pilar Agreement gave the Company an option to acquire the remaining 49% interest in the Pilar Project within a six-month period after the Company acquires 51% ownership, or establish a joint venture agreement with Colibri. The option to acquire the additional interest required a $2,000,000 cash payment and granting Colibri a 2% net smelter return royalty ("NSR"), 1% of which can be repurchased for an additional cash payment of $1,000,000. In March of 2024 the Company elected to enter into a joint venture arrangement with Colibri instead of acquiring the remaining 49% of the Pilar Project. The management of the Company decided that the funds allocated for land acquisition will provide more benefit if used for further exploration activities as the optioned property is too small for mine development and represents only 4.6% of the total land area of Pilar Project .

Pilar Landholding Expansion

On October 18, 2023, the Company signed a definitive agreement (the "SV Agreement") with Suaqui Verde Properties ("SVP"), a private title owner, for the acquisition of 100% ownership of 2,173 ha adjacent and north of its Pilar Project. The additional area acquired expanded the Company's holdings for the Pilar Project from 105 ha to a total of 2,278 ha.

Under the terms of the SV Agreement, the Company will be required to a pay a total of US$4,000,000 in cash, issue 2,500,000 Common Shares and spend US$1,000,000 in exploration work on the property within a five-year period. SVP will retain a 2% NSR on the property acquired. After the five-year period, the Company can elect to extend the SV Agreement by another 10 years by starting advance royalty payments or purchase full title ownership through additional payment of US$500,000. On December 1, 2023, the Company paid $204,705 (US$150,000) as a partial payment of the first cash payment which was due on execution of the SV Agreement. On December 18, 2023, the Company paid the remaining balance of $136,470 (US$100,000).

A summary of the commitments to be fulfilled on the acquisition is as follows:

	Cash payment	Exploration work	Shares
Closing	US$250,000(paid)	US$Nil	Nil
Six months after closing(1)	US$200,000	US$Nil	250,000
1st anniversary	US$Nil	US$100,000	500,000
2nd anniversary	US$1,050,000	US$150,000	500,000
3rd anniversary	US$1,150,000	US$250,000	750,000
4th anniversary	US$650,000	US$250,000	250,000
5th anniversary	US$700,000	US$250,000	250,000
TOTAL	**US$4,000,000**	**US$1,000,000**	**2,500,000**

(1) *The Company and SVP reached a verbal agreement to extend the payment deadline until the close of the private placement financing the Company arranged in April of 2024. The Company expects to make the required payment in the first week of May 2024.*

El Picacho Project

On June 7, 2021, the Company signed a letter of commitment to purchase El Picacho Project from Recursos Millrock S. de R.L. de C.V. ("Millrock") a Mexican corporation. On signing of the letter of commitment the Company made an initial payment of $94,196 (US$78,000). On September 15, 2021, the Company entered into an assignment of option agreement with Millrock, which transferred to the Company the initial 5-year option to acquire El Picacho Project.

To acquire 100% interest in El Picacho Project, the Company is required to pay US$1,985,600 and an additional payment of US$60,000 will be required to gain surface rights to use the Picacho Ranch. Both payments are to be paid in series of instalments ending on April 1, 2026. Millrock is to retain a 2% NSR with option for the Company to purchase back 1%NSR for US$1,000,000. Upon full execution of the Option Agreement and completion of all cash payments, an Annual Advance Minimum Royalty ("AAMR") of US$25,000 will be paid to Millrock, doubling each year until the start of production. AAMR payments will be subtracted from royalty payments on commencement of production.

A summary of the commitments on El Picacho option agreement and surface rights is as follows:

	Option payment	Surface rights payment
Closing	US$5,000 (paid by Millrock)	US$6,000 (paid by Millrock)
Six months after closing	US$Nil	US$6,000 (paid)

Pilar Gold Project

The Pilar Gold-Silver property has returned some of the regions best drill results. Coupled with encouraging gold and silver recovery results from metallurgical test work, Pilar Project is primed to be a potential near-term producer. Pilar is interpreted as a structurally controlled low-sulphidation epithermal system hosted in andesite rocks. Initially three primary zones of mineralization were identified on the original property from historic surface work and drilling and are referred to as the Main Zone, North Hill, and 4-T. The potential connection of some of these areas underground still in process of being verified. Each trend remains open to the southeast and north and new parallel zones have been discovered. Structural features and zones of mineralization within the structures follow an overall NW-SE trend of mineralization. Mineralization extends along a 1.2-km trend, only half of that trend has been drill tested so far. The Company has now expanded its interest in the area by consolidating 22 square-kilometers of highly prospective ground where it has already made significant surface discoveries.

To date, over 23,000 meters of drilling has been completed**.** In 2023, a pilot heap leach test was completed with bulk sample extracted from surface**.** In October of 2023, the project was expanded from 105 hectares to 2,278 ha with the acquisition of adjacent claims. The expansion area hosts several prospective zones that have seen limited exploration to date. Initial surface sampling and mapping across the expansion area has begun to define a 3.3 by 1.5-kilometer trend with gold values up to 5.6 g/t Au and 1,225 g/t Ag. Closer to past drilling and recent placer mining activity rock samples have returned values up to 7.3 g/t Au and 389 g/t Ag.

Currently the Company is drilling at the Pilar Main Zone with plans to drill up to 7,000-meters during the 2024 calendar year.

Project highlights include:

- 2019 and earlier : 15,000m of Historic Core & RC drilling. Highlights include:
  - 61.0m @ 0.8 g/t Au
  - 16.5m @ 53.5 g/t Au and 53 g/t Ag
  - 13.0m @ 9.6 g/t Au
  - 9.0m @ 10.2 g/t Au and 46 g/t Ag

- 2020 Phase I RC Drilling Highlights include (all lengths are drilled thicknesses):
  - 94.6m @ 1.6 g/t Au, including 9.2m @ 10.8 g/t Au and 38 g/t Ag
  - 41.2m @ 1.1 g/t Au, including 3.1m @ 6.0 g/t Au and 12 g/t Ag
  - 24.4m @ 2.5 g/t Au and 73 g/t Ag, including 1.5m @ 33.4 g/t Au and 1,090 g/t Ag

- 2021 Phase II RC Drilling Highlights include (all lengths are drilled thicknesses):
  - 39.7m @ 1.0 g/t Au, including 1.5m @ 14.6 g/t Au
  - 47.7m @ 0.7 g/t Au including 3m @ 5.6 g/t Au and 22 g/t Ag
  - 29m @ 0.7 g/t Au

- 35.1m @ 0.7 g/t Au

➢ 2022 Phase III diamond Drilling Highlights include (all lengths are drilled thicknesses)
  - 116.9m @ 1.2 g/t Au, including 10.2m @ 12 g/t Au and 23 g/t Ag
  - 108.9m @ 0.8 g/t Au, including 9.4m @ 7.6 g/t Au and 5 g/t Ag
  - 63.4m @ 0.6 g/t Au and 11 g/t Ag, including 29.9m @ 0.9 g/t Au and 18 g/t Ag

Pilar Metallurgy Highlights

➢ 2021 Bottle Roll Results SGS (Durango) – Main Zone RC Drill Hole Composites (from JES-20-32, 94.6m at 1.6 g/t Au)
  - Sample 494801 – 1.15 g/t Au Head Grade, 91.6% Recovery of Au
  - Sample 494804 – 0.63 g/t Au Head Grade, 90.6% Recovery of Au

➢ 2022 Column Leach Study
  - Four (4) Column Leach Samples from Surface Trenches across Main Zone and 4T Trend
  - Head Grade Range: 0.4 g/t Au to 5.0 g/t Au*
  - Gold Recovery Range: 88.9% to 96.9%*

  **Important Note – Testing was completed by a local private producer and contractor based in Sonora, Mexico. The facility used to calculate head-grade and recovery is not a certified lab.*

➢ 2023 Diagnostic Leach Study
  - Five (5) composite samples were submitted to LTM (Hermosillo) for diagnostic leach study to determine the characteristics and mineral association of gold and silver
  - Diagnostic Leach Study Reports High-Percentage of Recoverable Gold and Silver (Au: 95 to 99%; Ag: 73 to 97%)
  - Head screen assays report high-grade gold and silver (2.7 to 24.9 g/t Au and 8.8 to 74.2 g/t Ag)
  - Gravity Concentrate Assays for Gold and Silver range from 35.6 to 290.3 g/t Au and 53 to 1,152 g/t Ag
  - Majority of Gold and Silver can be Recovered with Gravity Concentration and Agitated Cyanide Leach

➢ 2023 Bulk Sample

  - Over 1,400 tonnes of oxide-gold material were extracted from select areas exposed at surface across the project area, focusing on the Main Zone and 4-T Trends where preliminary column leach studies have returned promising head-grade and recovery results. Bulk Sample material was prepared for processing by heap-leach method at a private mining operation less than 25 kilometers to the west of Pilar. Information from the sample aims to provide a more detailed account of expected head-grade and recovery percentage of gold along with providing key information to optimize future production facilities.
  - Over 800 tonnes of material were processed through heap leach, an additional 350 tonnes of crushed material and 250 tonnes of raw-bulk sample are available for gravity recovery and later agitated leach testing.
  - The leaching process was active for 44 days, extracting gold and silver from over 800 tonnes of bulk sample material. Sampling of the Bulk Sample material was completed in May, (News Release, May 16, 2023) results from ALS (Hermosillo) provided an average grade of 1.9 g/t Au and 12.7 g/t Ag. An onsite laboratory was used to sample the pregnant and barren solution during the program with weekly duplicate samples sent to certified labs LTM (Hermosillo) and SGS (Durango).
  - Final bulk tests reported a 62% recovery of gold, achieved over 46-day leaching period. Final results indicated that recovery could be improved extending the leaching time.
  - 62% recovery of gold; head grade calculated at 1.9 g/t Au and 7 g/t Ag; extracted grade calculated at 1.2 g/t Au and 3 g/t Ag
  - In addition to the bulk sample an Agitated Bottle Roll Test returned rapid and high recovery returning

80% recovery of gold and 94% recovery of silver after rapid 24-hour retention time (News Release August 22, 2023).

- Dore bar poured from first bulk sample material extracted from Pilar. The bar weighs 1.487 kilograms in total, with assays from local certified laboratory LTM returning 17.5% of gold and 69% of silver (News Release November 30, 2023).

El Picacho

El Picacho Gold-Silver Property is interpreted as an orogenic gold system within the regional Caborca Orogenic Gold Belt known for producing gold mines that include La Herradura and San Francisco. The project is 140 kilometers north of Hermosillo and totals 2,395.33 hectares. Six primary zones of mineralization have been identified across the property totaling over six kilometers of prospective trends. Surface sampling has identified high-grade gold and silver values. Surface geological and structural mapping has been completed by Tocvan in 2022 adding a new target area which was previously identified.

During the period ended November 30, 2023, the Company carried out a maiden drill program targeting the shallow targets defined at the San Ramon Prospect, an area approximately 500-meters by 500-meters in size where two extensive underground workings have returned high-grade gold with silver. San Ramon represents one prospect of currently seven prospect areas across the 24km^2 property that are defined by artisanal underground workings (adits and shafts) that coincide with high grade gold and silver mineralization.

2023 El Picacho Project Highlights

➢ Surface Sampling, Mapping and Data Compilation Defining Key Target Areas

- San Ramon Prospect – 500-meter trend, highlighted by two underground workings, up to 22 g/t Au (see news release September 13, 2022)
- Murcielago Prospect – 450-meter trend, highlighted by 7.2 g/t Au, 36 g/t Ag and 4.4% Pb in silicified brecciated limestone (see news release July 6, 2022)
- Jabali Prospect – 500-meter trend, highlighted by average sample grade of 3.2 g/t Au, up to 32 g/t Au
- Initial drill targeting at San Ramon Prospect was completed in December of 2022, totaling 1,075.1-meters. (See news releases January 10, 2023 and January 17, 2023)
- Drill results are highlighted by hole SRA-22-003 which returned 27.5-meters of 0.5 g/t Au, including 12.2m of 1.1 g/t Au and hole SRA-22-010 which returned 44.2-meters of 0.6 g/t Au, including 12.2m of 2.0 g/t Au.
- Ongoing surface sampling returning values of gold up to 15.9 g/t Au and up to 31.7 g/t Ag along a well-defined mineralized trend, which extend for 1.6 km, in NW-SE direction along El Exito area.

Share-based compensation	24,609	165,585
Travel	9,947	6,236
Total operating expenses	**257,634**	**700,902**

The Company's operating expenses for the three-month period ended February 29, 2024, were $257,634 (2023 – $700,902). The decrease in operating expenses was mainly due to a decrease in advertising and promotion expenses of $343,055 from $376,404 the Company incurred during the three months ended February 28, 2023, to $33,349 the Company incurred during the three months ended February 29, 2024; a decrease in share-based compensation of $140,976 from $165,585 to $24,609, a decrease in audit and accounting expenses of $19,509 from $46,570 to $27,061, decrease in legal expenses of $11,133 from $20,245 to $9,112, decrease in registration and transfer agent fees of $4,051 from $20,669 to $16,618 , decrease in management fees of $3,000 from $15,000 to $12,000 and decrease in office and miscellaneous expenses of $212 from $9,650 to $9,438. These decreases were in part offset by increases in consulting fees of $76,678 from $38,822 to $115,500 and in travel expenses of $3,711 from $6,236 for the three months ended February 28, 2023 to $9,947 for the three months ended February 29, 2024.

Decreased advertising and promotion expenses and other operating expenses were due to decreased corporate activities; consulting fees increased as a result of more consultants being contracted for the period; decreased share-based compensation resulted from timing of vesting periods for stock options granted to the Company's directors, officers, and consultants in the previous year, and no stock options granted during the three months ended February 29, 2024.

Other items for the three-month periods ended February 29, 2024 and February 28, 2023 included the following:

Other items	**(149,824)**	**109,959**

For the three-month period ended February 29, 2024, the Company recognized other losses of $149,824 (2023 – $109,959 gain), which included $373,320 (2023 – $Nil) in realized loss on convertible notes upon exercise of 680 Sorbie Notes including accrued interest of $4,061 and its conversion to 840,577 common shares, realized loss of $311,543 (2023 – $158,411) on revaluation of monthly Sorbie settlements received during the period as compared to their initial recognition. These losses were offset by unrealized gain on the fair value valuation of warrants payable of $124,574 (2023 – $189,018), unrealized gain of $145,662 (2023 – $Nil) on revaluation of remaining convertible notes to their fair market value at February 29, 2024, and unrealized gain of $279,067 (2023 – $215,418) on revaluation of present value of future monthly Sorbie settlements.

Six Month ended February 29, 2024 and February 28, 2023

During the six-month period ended February 29, 2024, the Company incurred a net and comprehensive loss of $550,994 (2023 – $936,731). The operating expenses for the periods ended February 29, 2024 and February 28, 2023 were as follows:

Operating Expenses	**Six months ended February 29, 2024**	**Six months ended February 29, 2023**

Travel	13,468	21,285
Total operating expenses	**744,200**	**1,324,959**

The Company's operating expenses for the period were $744,200 (2023 – $1,324,959). The decrease in operating expenses was mainly due to a decrease in advertising and promotion expenses of $493,409 from $580,936 the Company incurred during the six months ended February 28, 2023, to $87,527 which the Company incurred during the six months ended February 29, 2024; a decrease in share-based compensation of $202,344 from $481,588 to $279,244 for the six months ended February 29, 2024, decrease in audit and accounting fees of $19,004 from $48,126 for the six months ended February 28, 2023, to $29,122 for the six months ended February 29, 2024, decrease in meals and entertainment of $10,543 from $11,502 to $959, decrease in management fees to $24,000 (2023 – $32,000), travel expenses to $13,468 (2023 – $21,285) and legal expenses to $25,933 (2023 – $32,196).

These decreases were in part offset by ab increase in consulting fees of $161,212 from $66,788 for the six months ended February 28, 2023 to $228,000 for the six months ended February 29, 2024, an increase in office and miscellaneous expenses of $8,324 from $15,638 to $23,962 for the six months ended February 29, 2024, and an increase in regulatory fees from $31,225 to $31,985 for the six months ended February 29, 2024.

Decreased advertising and promotion and other expenses were due to decreased corporate activities; consulting fees increased as a result of more consultants being contracted during the six-month period ended February 29, 2024; decreased share-based compensation resulted from timing of vesting periods for stock options granted to the Company's directors, officers, and consultants in previous year, and no stock options granted during the six months ended February 29, 2024.

Other items for the six-month periods ended February 29, 2024 and February 28, 2023, included the following:

Other gain (loss)	**Six months ended February 29, 2024**	**Six months ended February 28, 2023**
	$	$
Foreign exchange loss	(12,033)	(136,151)

Liquidity and Capital Resources

To date, the Company has not yet realized profitable operations and has relied on equity financing and trade credit to fund the losses. The Company does not have sufficient funds to satisfy its exploration expenditure plans for the current fiscal year and will be required to raise capital through the equity markets.

The Company has incurred losses since inception and the ability of the Company to continue as a going-concern depends upon its ability to develop profitable operations and to continue to raise adequate financing. Management is actively targeting sources of additional financing through alliances with financial, exploration and mining entities, or other business and financial transactions which would assure continuation of the Company's operations and exploration programs. In order for the Company to meet its liabilities as they come due and to continue its operations, the Company is solely dependent upon its ability to generate such financing.

		February 29, 2024		**August 31, 2023**
Working capital deficit	$	(1,025,517)	$	(2,046,018)
Deficit	$	7,320,640	$	6,769,646

At February 29, 2024, the Company had cash of $47,376 (2023 – $20,825) and working capital deficit of $1,025,517 (2023 – $2,046,018). The working capital deficit decreased as a result of decreased valuation of financial asset, which at February 29, 2024, were determined to be $374,662 (2023 – $1,355,240), convertible notes of $663,398 (2023 – $1,958,304), warrants payable of $168,111 (2023 – $777,435) and accounts payable and accrued liabilities of $193,477 (2023 – $366,304). These decreases were in part offset by increased amounts due to related parties of $592,693 (2023 – $519,086), which were mostly related to outstanding exploration expenditures.

Cash flow Analysis

During the period ended February 29, 2024, the Company used $731,174 (2023 – $807,339) to cover its operating activities. The cash was used to cover the Company's cash operating expenses of $477,225 (2023 – $870,522), which was determined as the Company's net loss of $550,994 (2023 – $936,731) adjusted for non-cash items of $73,769 (2023 – $66,209), to decrease its amounts due to related parties by $67,838 (2023 – $163,054), decrease accounts payable and accrued liabilities by $184,973 (2023 – $51,344 increase), and to increase its prepaid expenses by $1,299 (2023 – $184,745 decrease). These uses of cash were in part offset by a decrease in amounts receivables of $160 (2023 – $9,852 increase).

Net cash provided by financing activities during the period ended February 29, 2024, was $1,313,431 (2023 – $1,183,118). Of this amount $614,535 (2023 – $566,482) was generated on issuance of shares on closing of the non-brokered private placement financing net of cash share issuance costs, and $698,896 (2023 – $599,313) received from the Monthly Settlements with Sorbie. During the comparative period ended February 28, 2023, the Company received an additional $17,323 on exercise of options and warrants; the Company did not have similar sources of cash inflow during the six-month period ended February 29, 2024.

Net cash used in investing activities during the period ended February 29, 2024, was $555,706 (2023 – $262,168) of this amount, $341,175 (US$250,000) was paid to SVP in relation to the SV Agreement dated October 18, 2023, for Pilar land expansion, $75,000 (2023 – $75,000) was paid to Colibri as the last cash option payment to acquire 51% of the Pilar Project, $4,913 was paid to Colibri as part of an annual payment required to gain surface and mining rights on the Pilar Project and the balance was used for exploration–related expenditures.

There can be no assurance that the Company will be able to obtain adequate financing in the future or that the terms of such financing will be favourable. If adequate financing is not available when required, the Company may be unable to continue operating. The Company may seek such additional financing through debt or equity offerings, but there can be no assurance that such financing will be available on terms acceptable to the Company or at all. Any equity offering will result in dilution to the ownership interests of the Company's shareholders and may result in dilution to the value of such interests.

The Company has sufficient funds to cover anticipated administrative expenses and continue to conduct exploration activities throughout the current fiscal year. It will continue to focus on actively exploring its mineral properties.

Credit Risk

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash, which is held with a high credit quality financial institution and GST receivable from the Government of Canada and amounts due from a related party. As such the Company's credit risk exposure is minimal.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure and financial leverage as outlined above.

The Company monitors its ability to meet its short-term exploration and administrative expenditures by raising additional funds through share issuances when required. The Sorbie Notes mature on June 28, 2025, however, Sorbie may convert to shares at any time. The warrants payable can only be settled in shares. The Company's other financial liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms.

Foreign Exchange Risk

Foreign exchange risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company has financial risk arising from fluctuations in foreign exchange rates as the Company, through its wholly owned subsidiary, does own foreign currency denominated financial assets and liabilities.

Interest Rate Risk

Interest rate risk is the risk that arises from fluctuating interest rates. The Company is not exposed to significant interest rate risk.

Equity Price risk

The Company is exposed to price risk with respect to commodity prices. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors the commodity prices of precious metals and the stock market to determine the appropriate course of action to be taken by the Company. The Company has exposure to equity price risk since the settlement amounts from Sorbie transactions are affected by the movement of the Company's share price. Marketable securities (Cascade Shares) and dividends payable, however, will have no price risk impact as the securities have been distributed to its shareholders before the fiscal year-end.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements as at February 29, 2024.

Business Risks

Natural resources exploration, development, production and processing involve a number of business risks, some of which are beyond the Company's control. These can be categorized as operational, financial and regulatory risks.

- Operational risks include finding and developing reserves economically, marketing production and services, product deliverability uncertainties, changing governmental law and regulation, hiring and retaining skilled employees and contractors and conducting operations in a cost effective and safe manner. The Company continuously monitors and responds to changes in these factors and adheres to all regulations governing its operations. Insurance may be maintained at levels consistent with prudent industry practices to minimize risks, but the Company is not fully insured against all risks, nor are all such risks insurable.

- Financial risks include commodity prices, interest rates and the Canada/United States/Mexico exchange rates, all of which are beyond the Company's control.

- Inflation and other economic factors beyond the Company's control may cause an increase in costs and expenses, resulting in the Company being unable to complete its objectives with its currently available funds, if at all, which may have an adverse impact on the Company's operations.

- Regulatory risks include the possible delays in getting regulatory approval to the transactions that the Board of Directors believe to be in the best interest of the Company, and include increased fees for filings, the introduction of ever more complex reporting requirements the cost of which the Company must meet in order to acquire and maintain its exchange listing.

- The Company currently does not have adequate cash for planned exploration expenditures and general and administrative expenses in the next fiscal year and will require financing in the future to continue in business. There can be no assurance that such financing will be available or, if available, that it will be on reasonable terms. If financing is obtained by issuing common shares from treasury, control of the Company may change and investors may suffer additional dilution. To the extent financing is not available, lease payments, work commitments, rental payments and option payments, if any, may not be satisfied and could result in a loss of property ownership or earning opportunities for the Company.

Internal Controls over Financial Reporting

Management has designed internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. Lack of optimal segregation of duties has been observed due to the relatively small size of the Company, but management believes that these weaknesses have been adequately mitigated through management and director oversight.

Management's Responsibility for Financial Statements

The information provided in this report, including the consolidated financial statements, is the responsibility of management. In the preparation of these statements, estimates are sometimes necessary to make a determination of future values for certain assets or liabilities. Management believes such estimates have been based on careful judgments and have been properly reflected in the interim condensed financial statements.
