Notes to the Condensed Interim Financial Statements

As at and for the three and six months ended September 30, 2020

(In Canadian dollars, Unaudited)

1. Nature of operations and going concern

IM Exploration Inc. (the "Company") was incorporated under the Canada Business Corporations Act on April 19, 2017. The Company is in the business of acquiring, exploring and evaluating mineral resource properties. The address of the Company's corporate office and principal place of business is Suite 4400, 181 Bay Street, Brookfield Place, Toronto, Ontario.

These financial statements have been prepared on a going concern basis which assumes that the Company will continue in operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Realization values may be substantially different from carrying values as shown and the financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

The mineral properties of the Company are in the exploration stage and, as a result, the Company has no source of operating cash flow. The exploration and development of the Company's properties depend on the ability of the Company to obtain financing.

The Company's future viability depends upon the acquisition and financing of mineral exploration projects. If the mineral projects are to be successful, additional funds will be required for development and, if warranted, to place them into commercial production. The sources of future funds presently available to the Company is through the issuance of common shares or through the sale of an interest in any of its properties or assets in whole or in part. The ability of the Company to arrange such financing or the sale of an interest will depend, in part, on prevailing market conditions as well as the business performance of the Company. These events and conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. There can be no assurance that the Company will be successful in its efforts to arrange the necessary financing, if needed, on terms satisfactory to the Company. If additional financing is arranged through the issuance of shares, control of the Company may change and shareholders may suffer significant dilution.

The impact of the novel coronavirus ("COVID-19") pandemic, with its combined health toll and sharp decline in global economic output, is unprecedented and the full extent of the impact will depend on future developments. These developments are highly uncertain and cannot be accurately predicted, including new information which may emerge concerning its severity, its duration and actions by government authorities to contain the outbreak or manage its impact. The Company is continually monitoring the potential impact on its operations and, to the date of the authorization of these condensed interim financial statements, has been significantly impacted in terms of restrictions on its exploration activities. The full extent of the impact on the Company's future financial results is uncertain given the length and severity of these developments cannot be reliably estimated.

2. Significant accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim financial statements are based on IFRSs issued and outstanding as of November 17, 2020, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended March 31, 2020. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending March 31, 2020 could result in restatement of these unaudited condensed interim financial statements.

2. Significant accounting policies (continued)

IAS 1, Presentation of Financial Statements ("IAS 1") and IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors ("IAS 8")

On April 1, 2020, the Company adopted IAS 1, and IAS 8 which refine the definition of materiality and clarify its characteristics. The revised definition focuses on the idea that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The adoption of IAS 1 and IAS 8 had no impact on the financial statements.

3. Exploration and evaluation assets

On November 30, 2017, the Company entered into an option agreement to earn a 90% interest in the Mulloy project situated in the Rowlandson Township, Porcupine Division in Ontario in exchange for \$15,000 (paid) and 300,000 common shares of the Company with a fair value of \$30,000 which were issued upon the Company's initial public offering on May 29, 2019.

Pursuant to the option agreement, the Company is required to make the aforementioned payments and complete a feasibility study to earn 90% interest free and clear of all encumbrances.

A 2% royalty on net smelter returns ("NSR") from all production by the Company at the property will be payable in cash or in kind. The Company can purchase 1% of the NSR for \$1,000,000.

The Company's exploration and evaluation assets consist of the following:

	Mulloy Property

Balance at September 30, 2020	16,600,000	817,822

(i) On May 29, 2019, the Company completed an initial public offering ("Offering") pursuant to which it has issued an aggregate of 3,000,000 common shares at a price of \$0.10 per common share to raise aggregate gross proceeds of \$300,000, all pursuant to a final prospectus dated March 29, 2019. In connection with the offering, a cash commission of \$30,000, a corporate finance fee of \$12,500, legal and other fees of \$42,616 was paid and, 100,000 agent's warrants and 300,000 compensation warrants was issued, each such warrant entitling the holder to acquire one common share at an exercise price of \$0.10 for a period of 24 months from the date of closing of the Offering. These warrants were assigned a value of \$21,000 using the Black-Scholes valuation model. The underlying weighted average assumptions used in the estimation of fair value in the Black-Scholes valuation model are as follows: risk free rate - 1.53%; expected life - 2 years; expected volatility - 100%; and weighted average share price - \$0.10.

(ii) On August 24, 2020, the Company announced that it completed a non-brokered private placement of 6,200,000 common shares at \$0.05 per share for gross proceeds of \$310,000. Legal and filing fees of \$6,033 associated with the private placement were incurred for net cash proceeds of \$303,967.

6. Warrants

On exercise, each warrant allows the holder to purchase one common share of the Company. The changes in warrants outstanding are as follows:
