Westward Gold Inc. (formerly IM Exploration Inc.)

Notes to Condensed Interim Consolidated Financial Statements

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

1. Nature of operations and going concern

Westward Gold Inc. (formerly IM Exploration Inc.) (the “**Company**” or “**Westward**” or “**WG**”) was incorporated under the Canada Business Corporations Act on April 19, 2017. On October 5, 2021, the Company announced a name change from IM Exploration Inc. to Westward Gold Inc. The Company is in the business of acquiring, exploring and evaluating mineral resource properties. The Company’s common shares are currently trading on the Canadian Securities Exchange (the “**CSE**”) under the symbol “**WG**” (prior to October 7, 2021, the Company traded under the symbol “**IM**”). The address of the Company’s corporate office and registered office address is 1090 West Georgia Street, Suite 700, Vancouver, BC, V6E 3V7.

These condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will continue in operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Realization values may be substantially different from carrying values as shown, and the financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

The mineral properties of the Company are in the exploration stage and, as a result, the Company has no source of operating cash flow. The exploration and development of the Company’s properties depend on the ability of the Company to obtain financing.

The Company’s future viability will depend upon its ability to secure financing for ongoing exploration activities at its current mineral properties, or the acquisition and financing of any additional mineral properties. If these mineral properties are to be successful, additional funds will be required for development and, if warranted, to place them into commercial production. The sources of future funds presently available to the Company are through the issuance of common shares or through the sale of an interest in any of its properties or assets in whole or in part. The ability of the Company to arrange such financing or the sale of an interest will depend, in part, on prevailing market conditions as well as the business performance of the Company. These events and conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company’s ability to continue as a going concern. There can be no assurances that the Company will be successful in its efforts to arrange the necessary financing, if needed, on terms satisfactory to the Company. If additional financing is arranged through the issuance of shares, control of the Company may change, and shareholders may suffer significant dilution.

During the period ended December 31, 2021, the COVID-19 pandemic caused significant financial market and social dislocation. The situation is dynamic with various cities and countries around the world responding in different ways to address the outbreak. Consequently, the Company may have limited access to capital and financing which is the primary source of cash for the Company. While the Company continues to monitor the investment portfolio and assess the impact that the COVID-19 pandemic will have on its business activities, the extent of the effect of the COVID-19 pandemic on the Company’s future activities is uncertain.

2. Basis of presentation

Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 *Interim Financial Reporting*, under International Financial Reporting Standards (“**IFRS**”) issued by the International Accounting Standards Board (“**IASB**”). These condensed interim consolidated financial statements should be read in conjunction with the Company’s audited annual consolidated financial statements for the year ended March 31, 2021, as some disclosures from the annual consolidated financial statements have been condensed or omitted.

These condensed interim consolidated financial statements were authorized for issue by the Board of Directors of the Company as of February 25, 2022.

Westward Gold Inc. (formerly IM Exploration Inc.)

Notes to Condensed Interim Consolidated Financial Statements

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

2. Basis of presentation (continued)

Basis of measurement

These condensed interim consolidated financial statements have been prepared on a historical cost basis except for investments, and the derivative liabilities which are measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The functional and presentation currency of the Company and its wholly-owned subsidiaries is the Canadian dollar.

In the preparation of these condensed interim consolidated financial statements, management is required to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of expenses and revenues during the period. Actual results could differ from these estimates.

Principles of Consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its subsidiaries. Where the Company has the power, either directly or indirectly, to govern the financial and operating policies of another entity or business so as to obtain benefits from its activities, it is classified as a subsidiary. The condensed interim consolidated financial statements present the results of the Company and its subsidiaries as if they were a single entity. All inter-company transactions and balances between the Company and its subsidiaries, or between individual subsidiaries, are therefore excluded and eliminated in full.

As of December 31, 2021, the condensed interim consolidated financial statements include the financial information of the Company and its subsidiaries listed in the following table:

Name of Subsidiary	Country of Incorporation	Ownership Interest at December 31, 2021	Ownership Interest at March 31, 2021	Principal Activity
Momentum Minerals Ltd.	Canada	100%	-	Exploration
Golden Oasis Exploration	United States	100%	-	Holding company
Turquoise Canyon Corp.	United States	100%	-	Holding company

The condensed interim consolidated financial statements include the financial statements of Golden Oasis Exploration (“GOE”) from the date of acquisition on June 2, 2021, and Momentum Minerals Ltd. (“Momentum”) and its wholly-owned subsidiary, Turquoise Canyon Corp. (“TCC”), from the date of acquisition on July 5, 2021.

On June 2, 2021, the Company completed the acquisition of GOE. The Company purchased GOE (a private Nevada-incorporated company) from American Consolidated Minerals Corp., a wholly-owned subsidiary of Starcore International Mines Ltd. (“Starcore”) for US\$100,000 (\$121,452). GOE holds the exploration permits (“Plan of Operations”) and a reclamation bond registered with the U.S. Bureau of Land Management (“BLM”) with respect to the Toiyabe Gold Project in Lander County, Nevada (the “Toiyabe Property”) (Note 6).

Westward Gold Inc. (formerly IM Exploration Inc.)

Notes to Condensed Interim Consolidated Financial Statements

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

2. Basis of presentation (continued)

Principles of Consolidation (continued)

On July 5, 2021, the Company completed the acquisition of Momentum, a company incorporated under the laws of the Province of British Columbia, Canada, pursuant to the terms of the amalgamation agreement dated June 16, 2021, among the Company's wholly-owned subsidiary, 1307605 B.C. Ltd. ("**WG Subco**"), incorporated pursuant to the agreement, and Momentum (the "**Momentum Transaction**"). Momentum (now a WG subsidiary) is earning into a 100% ownership position in the Turquoise Canyon Project in Lander County, Nevada (the "**Turquoise Canyon Property**") through an option agreement with First Mining Gold Corp. ("**First Mining**"). The Turquoise Canyon Property is contiguous with, and immediately east of, the Company's Toiyabe Property. Momentum, through its wholly-owned subsidiary TCC, also has a 100% ownership position in nine (9) unpatented mining claims situated between the Turquoise Canyon Property and the Toiyabe Property (the "**Momentum Claims**"). The Momentum Claims are not subject to any future obligations related to the option agreement with First Mining. TCC also has a 100% ownership position in eighteen (18) unpatented mining claims which form a portion of the East Saddle Project in Lander County, Nevada (the "**East Saddle Property**"), acquired in December of 2021 (subsequent to the Momentum Transaction), which are not subject to any future obligations apart from ongoing claim maintenance fees to the BLM.

The transaction was completed by way of a three-cornered amalgamation under the Business Corporation Act (British Columbia) amongst the Company, Momentum and WG Subco. Pursuant to the Momentum Transaction, Momentum amalgamated with WG Subco and the holders of shares of Momentum received 0.6 of a common share of WG for every one Momentum common share. The Company issued 19,817,400 common shares to shareholders of Momentum as consideration for all of the outstanding Momentum shares pursuant to the Momentum Transaction. The amalgamated company (operating as Momentum Minerals Ltd.) became a wholly-owned subsidiary of the Company. The Company also issued 240,000 replacement options to a Momentum option holder, allowing such holder to purchase the Company's common shares at a price of \$0.167 up until April 14, 2026. No finder's fees were paid in connection with the Momentum Transaction.

3. Significant accounting policies

Significant accounting estimates and judgments

The preparation of the Company's condensed interim consolidated financial statements in accordance with IFRS requires the Company to make estimates and judgments concerning the future. The Company's management reviews these estimates and underlying judgments on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectivity and anticipated likelihood in the period in which the estimates are revised.

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include determining the fair value of measurements of financial instruments, and the recoverability and measurement of deferred tax assets.

The significant areas requiring the use of management estimates include:

- the assessment of impairment on exploration and evaluation assets
- the recoverability and measurement of deferred income tax assets

Westward Gold Inc. (formerly IM Exploration Inc.)

Notes to Condensed Interim Consolidated Financial Statements

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

3. Significant accounting policies (continued)

Significant accounting estimates and judgments (continued)

The significant judgments applying to these financial statements include:

- the assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty
- the classification / allocation of expenditures as exploration and evaluation expenditures or operating expenses
- the determination of the Company's functional currency based on the primary economic environment in which the entity operates in

The following is the Company's accounting policy for financial instruments under IFRS 9 Financial Instruments:

Classification

The Company classifies its financial instruments in the following categories: at fair value through profit and loss ("FVTPL"), at fair value through other comprehensive income ("FVTOCI") or at amortized cost. The Company determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics. Equity instruments that are held for trading are classified as FVTPL. For other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or if the Company has opted to measure them at FVTPL.

The Company's financial instruments consist of the following:

Financial assets:	Classification:
Cash	Amortized cost
Receivables	Amortized cost

Financial liabilities:	Classification:
Accounts payable	Amortized cost

Measurement

Financial assets and liabilities at amortized cost

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost less any impairment.

Financial assets and liabilities at FVTPL

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the statements of loss and comprehensive loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in the statements of loss and comprehensive loss in the period in which they arise.

Debt investments at FVTOCI

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in Other Comprehensive Income ("OCI"). On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Westward Gold Inc. (formerly IM Exploration Inc.)

Notes to Condensed Interim Consolidated Financial Statements

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

3. Significant accounting policies (continued)

Financial instruments (continued)

Equity investments at FVTOCI

These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

Impairment of financial assets at amortized cost

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to the twelve month expected credit losses. The Company shall recognize in the statement of loss and comprehensive loss, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

Derecognition

Financial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled, or expire. The Company also derecognizes a financial liability when the terms of the liability are modified such that the terms and / or cash flows of the modified instrument are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

Gains and losses on derecognition are generally recognized in profit or loss.

Exploration and evaluation assets

Costs incurred before the Company has obtained the legal rights to explore an area are expensed as incurred.

Exploration and evaluation expenditures include the costs of acquiring licenses and costs associated with exploration and evaluation activity. Option payments are capitalized.

Property option agreements are exercisable entirely at the option of the optionee. Therefore, option payments (or recoveries) are recorded when payment is made (or received) and are not accrued.

Exploration and evaluation expenditures are capitalized. The Company capitalizes costs to specific blocks of claims or areas of geological interest. Government tax credits received are recorded as a reduction to the cumulative costs incurred and capitalized on the related property.

Westward Gold Inc. (formerly IM Exploration Inc.)

Notes to Condensed Interim Consolidated Financial Statements

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

3. Significant accounting policies (continued)

Exploration and evaluation assets (continued)

Exploration and evaluation assets are tested for impairment if facts or circumstances indicate that impairment exists. Examples of such facts and circumstances are as follows:

- the period for which the Company has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;
- exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the entity has decided to discontinue such activities in the specific area;
- sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

After technical feasibility and commercial viability of extracting a mineral resource are demonstrable, the Company stops capitalizing expenditures for the applicable block of claims or geological area of interest and tests the asset for impairment. The capitalized balance, net of any impairment recognized, is then reclassified to either tangible or intangible mine development assets according to the nature of the asset.

Restoration and environmental obligations

The Company recognizes liabilities for statutory, contractual, constructive or legal obligations associated with the retirement of long-term assets, when those obligations result from the acquisition, construction, development or normal operation of the assets. The net present value of future restoration cost estimates arising from the decommissioning of plant and other site preparation work is capitalized to the related asset along with a corresponding increase in the restoration provision in the period incurred. Discount rates using a pre-tax rate that reflect the time value of money are used to calculate the net present value.

The Company's estimates of restoration costs could change as a result of changes in regulatory requirements, discount rates and assumptions regarding the amount and timing of the future expenditures. These changes are recorded directly to the related asset with a corresponding entry to the restoration provision. The Company's estimates are reviewed annually for changes in regulatory requirements, discount rates, effects of inflation and changes in estimates.

Changes in the net present value, excluding changes in the Company's estimates of restoration costs, are charged to the statement of comprehensive loss for the period.

The net present value of restoration costs arising from subsequent site damage that is incurred on an ongoing basis during exploration or production are charged to the statement of comprehensive loss in the period incurred.

The costs of restoration projects included in the provision are recorded against the provision as incurred. The costs to prevent and control environmental impacts at specific properties are capitalized in accordance with the Company's accounting policy for exploration and evaluation assets.

Westward Gold Inc. (formerly IM Exploration Inc.)

Notes to Condensed Interim Consolidated Financial Statements

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

3. Significant accounting policies (continued)

Impairment of assets

The carrying amount of the Company's assets (which include exploration and evaluation assets) is reviewed at each reporting date to determine whether there is any indication of impairment. If such an indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. An impairment loss is recognized whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognized in the statement of comprehensive loss.

The recoverable amount of assets is the greater of an asset's fair value less cost to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is only reversed if there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount. Any reversal of impairment cannot increase the carrying value of the asset to an amount higher than the carrying amount that would have been determined had no impairment loss been recognized in previous years.

Assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment.

Loss per share

Basic loss per share is calculated by dividing the loss attributable to common shareholders by the weighted average number of common shares outstanding in the period. For all periods presented, the loss attributable to common shareholders equals the reported loss attributable to owners of the Company. Diluted loss per share is calculated by the treasury stock method. Under the treasury stock method, the weighted average number of common shares outstanding for the calculation of diluted loss per share assumes that the proceeds to be received on the exercise of dilutive share options and warrants are used to repurchase common shares at the average market price during the period.

Income taxes

Current income tax:

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date, in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognized directly in other comprehensive income or equity is recognized in other comprehensive income or equity and not in profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Westward Gold Inc. (formerly IM Exploration Inc.)

Notes to Condensed Interim Consolidated Financial Statements

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

3. Significant accounting policies (continued)

Income taxes (continued)

Deferred income tax:

Deferred income tax is recognized, using the asset and liability method, on temporary differences at the reporting date arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred income tax assets is reviewed at the end of each reporting period and recognized only to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax assets and deferred income tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

Adoption of new accounting standards.

During the year, the Company adopted a number of new IFRS standards, interpretations, amendments, and improvements to existing standards. These included IAS 8, IAS 28, IFRS 3, and IFRS 10. These new standards and changes did not have any material impact on the Company's financial statements.

New standards not yet adopted and interpretations issued but not yet effective

IAS 1 – Presentation of Financial Statements (“IAS 1”) was amended in January 2020 to provide a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. The amendments clarify that the classification of liabilities as current or noncurrent is based solely on a company's right to defer settlement at the reporting date. The right needs to be unconditional and must have substance. The amendments also clarify that the transfer of a company's own equity instruments is regarded as settlement of a liability, unless it results from the exercise of a conversion option meeting the definition of an equity instrument. The amendments are effective for annual periods beginning on January 1, 2023.

4. Capital risk management

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence, safeguard the Company's ability to support the exploration and development of its exploration and evaluation assets, and to sustain future development of the business. The capital structure of the Company consists of equity and debt obligations, net of cash.

The Company's objective in managing capital is to maintain adequate levels of funding to safeguard the Company's ability to continue as a going concern in order to pursue the exploration and development of its mineral property interests and to maintain a flexible capital structure allowing it to optimize the costs of capital at an acceptable risk. The Company plans to manage its capital structure in a manner that provides sufficient funding for operational activities through funds primarily secured through equity capital obtained in private placements. There can be no assurances that the Company will be able to continue raising capital in this manner.

Although the Company has been successful at raising funds in the past through the issuance of share capital, it is uncertain whether it will be able to continue this form of financing due to the current difficult conditions for junior mineral exploration companies. The Company makes adjustments to its management of capital in the light of changes in economic conditions and the risk characteristics of its assets, seeking to limit shareholder dilution and optimize its costs of capital while maintaining an acceptable level of risk. There are no restrictions on the Company's capital and there were no changes in the Company's approach to capital management during the reporting period.

5. Financial instruments and risk management

Fair value

Fair value is the amount at which a financial instrument could be exchanged between willing parties based on current markets for instruments with the same risk, principal and remaining maturity. Fair value estimates are based on present value and other valuation techniques using rates reflective of those that the Company could currently obtain, on the market, for financial instruments with similar terms, conditions, and maturities.

The Company classifies the fair value of the financial instruments according to the following hierarchy based on the observable inputs used to value the instrument:

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 – Inputs other than quoted prices included in Level 1 that are observable, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The Company determined that the carrying values of its short-term financial assets and liabilities approximate the corresponding fair values because of the relatively short periods to maturity of these instruments and the low credit risk.

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur financial loss. The Company's primary exposure to credit risk is on its cash and other receivable. Cash is held with two financial institutions to mitigate a concentration of credit risk. This risk is further managed by using major Canadian banks that are high credit quality financial institutions as determined by rating agencies.

Foreign exchange risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company's current exposure to foreign exchange risk consists of fluctuations in the Canadian Dollar / U.S. Dollar exchange rate, with expenses at the Toiyabe Property, the Turquoise Canyon Property, and the East Saddle Property being paid in U.S. Dollars and the Company's operating and fundraising currency being in Canadian Dollars.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. Liquidity risk is considered high.

6. Acquisition of Golden Oasis Exploration

On June 2, 2021, the Company completed the acquisition of GOE (a private Nevada-incorporated company) from American Consolidated Minerals Corp., a wholly-owned subsidiary of Starcore, by paying \$121,453 (US\$100,000) in cash. GOE holds the Plan of Operations and a reclamation bond registered with the BLM with respect to the Toiyabe Property.

The transaction does not constitute a business combination, as GOE does not meet the definition of a business under IFRS 3 – Business Combinations. As a result, the acquisition of GOE has been accounted for as an asset acquisition, whereby all of the assets acquired, and liabilities assumed, are recorded at fair value. Upon closing of the transaction, GOE became a wholly-owned subsidiary of the Company. The net assets acquired pursuant to the acquisition are as follows:

Net assets acquired	
Cash	\$ 391
Reclamation deposit	159,628
Negative goodwill	(38,566)
	<hr/>
	\$ 121,453

Total Purchase Price Consideration:	
Cash	\$ 121,453

7. Acquisition of Momentum Minerals Ltd.

On July 5, 2021, the Company acquired all the issued and outstanding shares of Momentum for consideration of 19,817,400 common shares (0.6 of a common share of WG for every one Momentum common share). The acquisition was determined to be an asset acquisition and the difference between the net assets acquired and the total consideration paid was allocated to the Turquoise Canyon Property. Effective July 5, 2021, the Company included the operations of Momentum in the condensed interim consolidated financial statements.

The following table summarizes the fair value of consideration paid on the acquisition date and the allocation of the purchase price to the assets and liabilities acquired.

Net assets acquired	
Cash	\$ 1,392,155
Prepaid expenses	66,316
Exploration and evaluation assets	342,033
Accounts payable and accrued liabilities	(65,405)
Change in fair value of exploration and evaluation assets	2,327,468
	<hr/>
	\$ 4,062,567

Total prepaid expenses	\$ 72,285	\$ 19,913

9. Exploration and evaluation assets**Mulloy Property, Ontario**

On November 30, 2017, the Company entered into an option agreement to earn a 90% interest in the Mulloy Property situated in Rowlandson Township, Porcupine Division in Ontario in exchange for \$15,000 (paid) and 300,000 common shares of the Company with a fair value of \$30,000 which were issued upon the Company's initial public offering (see note 11).

Pursuant to the option agreement, the Company was required to make the aforementioned cash and share payments, and to complete a future feasibility study in order to earn a 90% beneficial ownership interest free and clear of any encumbrances.

A 2.0% net smelter returns royalty ("NSR") from all production by the Company at the property will be payable in cash or in kind. The Company can buy back half of the NSR (1.0%) for \$1,000,000 in cash.

Toiyabe Property, Nevada

On April 21, 2021, the Company entered into a binding agreement with Starcore, which set forth the terms for the assignment of Starcore's option to acquire a 100% interest in the Toiyabe Property from Minquest Ltd. ("**Minquest**") to the Company.

Starcore assigned all of its rights and obligations under its option agreement with Minquest to the Company. Following the assignment, the Company has the right to acquire a 100% ownership position in the Toiyabe Property, subject to a 3.0% NSR to be retained by Minquest, half of which (1.5%) can be bought back by the Company for US\$2,000,000 per 1.0%.

Westward Gold Inc. (formerly IM Exploration Inc.)

Notes to Condensed Interim Consolidated Financial Statements

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

9. Exploration and evaluation assets (continued)

Toiyabe Property, Nevada (continued)

As consideration for the assignment of Starcore's option to acquire the project, the Company made cash and share payments to Starcore in the following amounts:

- US\$150,000 (\$188,505) in cash, paid upon closing of the transaction;
- 4,100,000 common shares in the capital of the Company, issued upon closing of the transaction (valued at \$984,000). The common shares issued to Starcore are subject to a contractual escrow period of 12 months following the date of issuance, with 25% being released every three months, with the first release having occurred three months after the closing of the transaction.

Following closing of the transaction and payments as described above, the Company will have the option to exercise its right to earn a 100% ownership position in the property by making the following cash payments to Minquest (for an aggregate total of US\$760,000):

- US\$100,000 (\$121,800) on May 31, 2021 (paid);
- US\$120,000 (\$153,302) on or before October 15, 2021 (paid);
- US\$140,000 on or before October 15, 2022;
- US\$400,000 on or before October 15, 2023.

As of December 31, 2021, the Company held a reclamation bond for the Toiyabe Property with the BLM in the amount of US\$131,432 (\$167,102) through its wholly-owned subsidiary GOE.

Turquoise Canyon Property, Nevada

On June 16, 2021, the Company entered into an agreement to acquire an option on the Turquoise Canyon Property through its acquisition of 100% of the common shares of Momentum, by way of an amalgamation between the Company's WG Subco and Momentum (Notes 2 and 7).

The underlying option agreement with First Mining gives the Company the right to acquire a 100% interest in the Turquoise Canyon Property, comprised of 188 unpatented mining claims located in Lander County, Nevada. The agreement has a maximum term of 4 years from the date of signing, being August 20, 2019.

In consideration for the option, the Company is required to pay First Mining up to \$500,000, payable as follows:

- \$25,000 in cash within 30 days from the date of execution (paid);
- 10% of the then-outstanding common shares of Momentum, to be included towards the second anniversary payment on August 20, 2021 (issued 1,000,000 common shares at a deemed value of \$100,000);
- \$50,000 in cash or common shares on or before August 20, 2020 (issued 500,000 common shares of Momentum at a fair value of \$50,000);
- \$150,000 in cash or common shares on or before August 20, 2021 (previously issued 1,000,000 common shares of Momentum at a deemed value of \$100,000; issued an additional 310,889 common shares of the Company at a fair value of \$48,188⁽¹⁾);
- \$137,500 in cash or common shares on or before August 20, 2022;
- \$137,500 in cash or common shares on or before August 20, 2023.

Westward Gold Inc. (formerly IM Exploration Inc.)

Notes to Condensed Interim Consolidated Financial Statements

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

9. Exploration and evaluation assets (continued)

Turquoise Canyon Property, Nevada (continued)

- (1) Share-based payments pursuant to the option agreement are calculated based on a trailing 30-day volume-weighted average price of common shares traded on the CSE, hence there may be a discrepancy between deemed value paid to First Mining and fair value at the time of payment.

The Company is also required to pay all mining claim maintenance fees with respect to the Turquoise Canyon Property and incur \$750,000 in exploration expenditures as follows:

- \$50,000 by August 20, 2020 (incurred);
- An additional \$100,000 by August 20, 2021 (incurred); and
- An additional \$600,000 by August 20, 2023.

The property is subject to a 2.0% NSR, payable to First Mining. The Company may buy back half (1.0%) of the NSR for \$1,000,000 up until the first anniversary of the commencement of commercial production.

In addition to the 188 unpatented mining claims covered by the option agreement with First Mining, the Company also has a 100% ownership position in 9 unpatented mining claims adjacent to the Turquoise Canyon Property; those claims are herein referred to as the Momentum Claims. The Momentum Claims were staked by then-Momentum subsidiary TCC prior to Momentum's acquisition by the Company and are not subject to any future obligations related to the option agreement with First Mining. For reporting purposes, costs related to the Momentum Claims (capitalized or otherwise) are included in the Turquoise Canyon Property.

East Saddle Property, Nevada

On December 21, 2021, the Company acquired the East Saddle Property through the staking of 101 unpatented mining claims registered with the BLM. The East Saddle Property lies immediately south of, and contiguous with, both the Toiyabe Property and the Turquoise Canyon Property. Of the 101 total claims, 83 fall within a defined area of interest as it relates to the Toiyabe Property (the "Toiyabe AOI"). Per the option agreement between Westward and Minquest, the claims within the Toiyabe AOI have been registered under Minquest ownership and are subject to the same terms and conditions as the Toiyabe Property. The 18 remaining claims are 100% owned by the Company and registered under its wholly-owned U.S. subsidiary TCC.

11. Share capital

a) Authorized share capital

Authorized share capital consists of an unlimited number of common shares without par value.

b) Issuance

For the nine months ended December 31, 2021

- (i) On April 21, 2021, the Company issued 4,100,000 common shares valued at \$984,000 to Starcore, as per the terms of the Assignment Agreement related to the option to acquire a 100% ownership interest in the Toiyabe Property from Minquest.
- (ii) On May 12, 2021, certain warrant holders exercised 347,000 warrants, each entitling the holder to receive one common share of the Company, at an exercise price of \$0.10, representing proceeds of \$34,700, and accordingly, the Company reallocated \$18,218 of reserves to share capital.
- (iii) On July 5, 2021, the Company issued 19,817,400 common shares valued at \$4,062,567 pursuant to the acquisition of Momentum (Note 7).
- (iv) On August 20, 2021, the Company issued 310,889 common shares valued at \$48,188 to complete the 2nd anniversary payment for Turquoise Canyon Property (Note 9).

For the year ended March 31, 2021

- (i) On August 24, 2020, the Company completed a non-brokered private placement with the issuance of 6,200,000 common shares, at a price of \$0.05 per common share, for gross proceeds of \$310,000. In connection with the private placement, the Company paid legal fees totaling \$6,032.
- (ii) On March 16, 2021, certain warrant holders exercised 13,000 warrants, each entitling the holder to receive one common share of the Company, at an exercise price of \$0.10, representing proceeds of \$1,300.
- (iii) On March 26, 2021, the Company completed a non-brokered private placement by issuing 5,158,333 units at a price of \$0.15 per unit, for gross proceeds of \$773,750.

Each unit comprised of one common share and one common share purchase warrant, with each warrant entitling the holder to purchase one additional Common Share for 36 months from the closing date of the private placement, at an exercise price of \$0.25 per common share. The Company can accelerate the expiry of the warrants if the closing price of the common share on the CSE exceeds \$0.50 for 10 consecutive trading days at any time following the date of issuance. The warrants will expire on the date which is 30 business days following the date a press release is issued by the Company announcing the accelerated warrant term. No value has been allocated to the warrants issued.

Westward Gold Inc. (formerly IM Exploration Inc.)**Notes to Condensed Interim Consolidated Financial Statements****(Expressed in Canadian Dollars)****(Unaudited – Prepared by Management)**

11. Share capital (continued)

c) Share purchase warrants

The changes in warrants outstanding are as follows:

	Number of warrants	Weighted average exercise price
Balance, March 31, 2020	400,000	\$ 0.10
Issued pursuant to private placements	5,158,333	0.25
Exercised	(13,000)	0.10
Balance, March 31, 2021	5,545,333	0.24
Exercised	(347,000)	0.10
Expired	(40,000)	0.10
Balance, December 31, 2021	5,158,333	\$ 0.25

Details of warrants outstanding as at December 31, 2021 are as follows:

Number of warrants outstanding	Expiry date	Exercise price	Remaining contractual life
5,158,333	March 26, 2024	\$0.25	2.49 years

d) Stock options

The Company has adopted an incentive stock option plan, which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with CSE requirements, grant to directors, officers, employees and technical consultants to the Company, non-transferable stock options to purchase Common Shares, provided that the number of Common Shares reserved for issuance will not exceed 10% of the Company's issued and outstanding Common Shares. Options may be exercised no later than 30 days following cessation of the optionee's position with the Company, unless the Company determines otherwise. For all options already outstanding as at December 31, 2021, this post-cessation exercise period duration was set at 90 days.

The changes in options are as follows:

	Number of options	Weighted average exercise price
Options outstanding, March 31, 2020 and 2021	850,000	\$ 0.10
Granted	3,390,000	0.22
Options outstanding, December 31, 2021	4,240,000	\$ 0.19

	4,240,000		3,570,000	

For the nine months ended December 31, 2021

On April 9, 2021, the Company granted 1,100,000 stock options to the new Chief Executive Officer and directors of the Company in accordance with the Company's stock option plan. These stock options have a 5-year term and an exercise price of \$0.18 per common share, and vest on a quarterly basis over a period of one year. The fair value of the stock options granted was estimated to be \$0.166 per stock option using the Black-Scholes option pricing model with the following assumptions: risk-free interest rate – 0.95%, volatility – 156.64%, dividend yield – 0%, expected life – 5 years. During the period ended December 31, 2021, \$169,015 was expensed to share-based payments in relation to this grant.

On June 2, 2021, the Company granted 200,000 stock options to a consultant in accordance with the Company's stock option plan. These stock options have a 5-year term and an exercise price of \$0.30 per common share, and vest immediately. The fair value of the stock options granted was estimated to be \$0.277 per stock option using the Black-Scholes option pricing model with the following assumptions: Risk-free interest rate – 0.90%, volatility – 157.08%, dividend yield – 0%, expected life – 5 years. During the period ended December 31, 2021, \$55,400 was expensed to share-based payments in relation to this grant.

On July 5, 2021, the Company granted 1,400,000 stock options to consultants, a director, and the President of the Company in accordance with the Company's stock option plan. These stock options have a 5-year term and an exercise price of \$0.240 per common share, and vest immediately. The fair value of the stock options granted was estimated to be \$0.187 per stock option using the Black-Scholes option pricing model with the following assumptions: Risk-free interest rate – 0.99%, volatility – 155.21%, dividend yield – 0%, expected life – 5 years. During the period ended December 31, 2021, \$262,000 was expensed to share-based payments in relation to this grant.

On July 5, 2021, the Company granted 240,000 stock options to a consultant in accordance with the Company's stock option plan. These stock options have a 4.78-year term and an exercise price of \$0.167 per common share, and vest over a 9-month period in four equal installments. The fair value of the stock options granted was estimated to be \$0.189 per stock option using the Black-Scholes option pricing model with the following assumptions: Risk-free interest rate – 0.99%, volatility – 155.21%, dividend yield – 0%, expected life – 4.78 years. During the period ended December 31, 2021, \$41,138 was expensed to share-based payments in relation to this grant.

(Unaudited – Prepared by Management)

11. Share capital (continued)

d) Stock options (continued)

On July 22, 2021, the Company granted 200,000 stock options to a consultant in accordance with the Company's stock option plan. These stock options have a 5-year term and an exercise price of \$0.24 per common share, and vest immediately. The fair value of the stock options granted was estimated to be \$0.159 per stock option using the Black-Scholes option pricing model with the following assumptions: Risk-free interest rate – 0.78%, volatility – 154.80%, dividend yield – 0%, expected life – 5 years. During the period ended December 31, 2021, \$31,700 was expensed to share-based payments in relation to this grant.

On August 16, 2021, the Company granted 200,000 stock options to a director in accordance with the Company's stock option plan. These stock options have a 5-year term and an exercise price of \$0.24 per common share, and vest immediately. The fair value of the stock options granted was estimated to be \$0.124 per stock option using the Black-Scholes option pricing model with the following assumptions: Risk-free interest rate – 0.81%, volatility – 152.68%, dividend yield – 0%, expected life – 5 years. During the period ended December 31, 2021, \$24,900 was expensed to share-based payments in relation to this grant.

On September 21, 2021, the Company granted 50,000 stock options to a consultant in accordance with the Company's stock option plan. These stock options have a 5-year term and an exercise price of \$0.24 per common share, and vest immediately. The fair value of the stock options granted was estimated to be \$0.100 per stock option using the Black-Scholes option pricing model with the following assumptions: Risk-free interest rate – 0.85%, volatility – 150.86%, dividend yield – 0%, expected life – 5 years. During the period ended December 31, 2021, \$5,000 was expensed to share-based payments in relation to this grant.

During the period ended December 31, 2021, the Company recognized a total share-based payments of \$589,153 (2020 - \$Nil).

12. Related party transactions

Related parties include the Board of Directors, officers, close family members and enterprises that are controlled by these individuals as well as certain persons performing similar functions.

The Company defines its key management as the Board of Directors, Chief Executive Officer, Chief Financial Officer, President, and Vice-President Exploration. Remuneration of directors and key management personnel of the Company was as follows:

	Nine months ended December 31,	
	2021	2020
Management services	\$ 236,701	\$ 6,094
Consulting services	4,000	-
Share-based compensation to directors and officers	268,772	-
Travel	2,134	-
	\$ 511,607	\$ 6,094

13. Subsequent events

On February 1, 2022, the Company announced a non-brokered private placement (the “**Offering**”) of up to 10,000,000 units at a price of \$0.12 per unit for gross proceeds of \$1,200,000. Each unit will consist of one common share and one common share purchase warrant. Each warrant will entitle the holder to acquire one common share at an exercise price of \$0.20 per share for 36 months from the closing date of the Offering. If the closing market price of the common shares on the CSE is greater than \$0.40 per common share for a period of 10 consecutive trading days at any time after the four-month anniversary of the closing of the Offering, the Company may deliver a notice to holders (the “**Acceleration Notice**”) informing them that the warrants must be exercised within 30 calendar days from the date of the Acceleration Notice, otherwise the warrants will expire at 5 p.m. ET on the 30th calendar day after the date of the Acceleration Notice.

On February 4, 2022, the Company announced an upsizing of the Offering, for up to 18,333,333 units with the same terms as outlined above. The Company anticipates that closing of the Offering will occur shortly after the publication date of these condensed interim consolidated financial statements.
