#### 1. NATURE OF OPERATIONS AND GOING CONCERN

MegaWatt Lithium and Battery Metals Corp. ("the Company") was incorporated on December 11, 2017 under the laws of British Columbia. On July 20, 2019, the Company completed its initial public offering and listed on the Canadian Securities Exchange ("CSE") under the symbol "MEGA". On April 20, 2022, the Company's common shares commenced trading on the OTCQB under the symbol "WALRF". The head office and principal address of the Company is located at Suite 1500 - 1055 West Georgia Street, Vancouver BC, V6E 4N7. The Company's principal business activities include the acquisition and exploration of mineral property assets.

As at December 31, 2023, the Company had not determined whether the Company's mineral property assets contain ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the property or realizing proceeds from its disposition.

As at December 31, 2023, the Company had a working capital deficit of \$520,414 (September 30, 2023 - \$270,107) an accumulated deficit of \$27,912,372 (September 30, 2023 - \$27,804,640) and has not generated revenue to date. The Company's operations to date have been funded through the issuance of equity. These factors represent a material uncertainty which may cast significant doubt upon the Company's ability to continue as a going concern. The Company's ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs.

These unaudited condensed interim consolidated financial statements for the three months ended December 31, 2023 and 2022 (the "financial statements") do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

On May 9, 2023, the Company consolidated its outstanding common shares on a ten-for-one basis. The presentation of the number of shares, warrants, stock options and loss per share in these financial statements have been retrospectively adjusted for this share consolidation.

# 2. BASIS OF PRESENTATION

# a) Statement of compliance

These financial statements were approved by the Board of Directors and authorized for issue on February 28, 2024.

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board and interpretations of the International Financial Reporting Interpretations Committee applicable to the preparation of interim financial statements including International Accounting Standard 34 *Interim Financial Reporting*. These financial statements do not include all disclosures required for annual audited financial statements. Accordingly, they should be read in conjunction with the notes to the Company's audited financial statements for the years ended December 31, 2023 and 2022 (the "Annual Financial Statements").

#### b) Basis of measurement

These financial statements have been prepared using the historical cost basis, except for certain financial assets and liabilities which are measured at fair value, as specified by IFRS for each type of asset, liability, income, and expense as set out in the accounting policies below. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information.

(Unaudited - Expressed in Canadian dollars, except where noted)

# 2. BASIS OF PRESENTATION (continued)

#### c) Functional and presentation currency

These financial statements have been prepared in Canadian dollars, which is the Company's and its subsidiaries' functional and presentation currency. References to "\$" or "CAD" are to Canadian dollars.

Transactions in currencies other than the Canadian dollar are recorded at exchange rates prevailing on the dates of the transactions. At the end of each reporting period, the monetary assets and liabilities of the Company that are denominated in foreign currencies are translated at the rate of exchange at the date of statement of financial position. Revenues and expenses are translated at the exchange rates approximating those in effect on the date of the transactions. Exchange gains and losses arising on translation are included in profit or loss.

#### d) Basis of consolidation

These financial statements include the accounts of the Company and its subsidiaries. All intercompany transactions and balances are eliminated on consolidation. Control exists where the parent entity has power over the investee and is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Subsidiaries are included in these financial statements from the date control commences until the date control ceases.

A summary of the Company's subsidiaries included in these financial statements as at December 31, 2023 are as follows:

	Country of		Functional	
Name of subsidiary	incorporation	Holding	currency	Principal activity
1256714 B.C. Ltd. ("TargetCo")	Canada	100%	CAD	Holding company
1260945 B.C. Ltd. ("New Age Co")	Canada	100%	CAD	Holding company

#### e) Reclassification of prior period presentation

Certain prior period amounts have been reclassified for consistency with the current period presentation. These reclassifications had no effect on the reported results of operations. An adjustment has been made to the condensed interim consolidated statements of loss and comprehensive loss, condensed interim consolidated statements of cash flows, and note 6, exploration and evaluation assets for the three months ended December 31, 2022, to reclassify the exploration and evaluation expenses to impairment.

# 3. SIGNIFICANT ACCOUNTING POLICIES

In the preparation of these financial statements, the Company used the same accounting policies as in the Annual Financial Statements.

#### 4. SIGNIFICANT JUDGEMENTS AND SOURCES OF ESTIMATION UNCERTAINTY

The preparation of financial statements under IFRS requires management to make judgements in applying its accounting policies and estimates that affect the reported amounts of assets and liabilities at the period end date and reported amounts of expenses during the reporting period. Such judgements and estimates are, by their nature, uncertain. Actual outcomes could differ from these estimates.

The impact of such judgements and estimates are pervasive throughout these financial statements and may require accounting adjustments based on future occurrences. These judgements and estimates are continuously evaluated and are based on management's experience and knowledge of the relevant facts and circumstances. Revisions to accounting estimates are recognized in the period in which the estimate is revised and are accounted for prospectively.

In preparing these financial statements, the Company applied the same significant judgements in applying its accounting policies and is exposed to the same sources of estimation uncertainty as disclosed in its Annual Financial Statements.

Option consideration from Cygnus is recorded as a reduction of the properties' capitalized exploration and evaluation assets reflecting a recovery of past costs incurred.

Under the terms of the Property Option Agreement, Cygnus has the option to acquire an initial 51% interest in the James Bay Lithium Project (the "First Option"). Following the exercise of the First Option, Cygnus has the option to acquire an additional 29% interest in the Projects (the "Second Option").

#### 8. FLOW-THROUGH PREMIUM LIABILITY

Flow-through units are issued at a premium, calculated as the difference between the price of a flow-through unit and the price of a unit at issuance date, as tax deductions generated by the eligible expenditures are passed through to the shareholders of the flow-through shares once the eligible expenditures are incurred and renounced.

Funds raised through the issuance of flow-through units are required to be expended on qualifying Canadian mineral exploration expenditures, as defined pursuant to Canadian income tax legislation. The flow-through gross proceeds less the qualified expenditures made to date represent the funds received from flow-through share issuances that have not been spent and are held by the Company for such expenditures.

On November 23, 2021, the Company issued 450,997 flow-through units at a purchase price of \$1.95 per flow-through unit for gross proceeds of \$879,445. The flow-through units were issued at a premium of \$0.15 per unit. As a result, a flow-through premium liability of \$67,650 was recorded.

On September 22, 2022, the Company issued 840,000 flow-through units at a purchase price of \$0.75 per flow-through unit for gross proceeds of \$630,000. The flow-through units were issued at a premium of \$0.10 per unit. As a result, a flow-through premium liability of \$84,000 was recorded.

The Company had intended to spend these proceeds on eligible exploration expenditures by the termination date, December 31, 2023. Due to natural disasters in Quebec, the Company was not able to carry out the exploration expenditures as planned. With the approval of the subscribers, the Company has extended the termination date to August 18, 2024.
