1. NATURE OF OPERATIONS AND GOING CONCERN

Blue Lagoon Resources Inc. (the “Company”) was incorporated under the British Columbia Business Corporations Act on March 17, 2017. The Company is in the business of acquiring, exploring, and evaluating mineral resource interests in Canada. The address of the Company’s registered office is Suite 1200, 750 West Pender Street, Vancouver, British Columbia. The Company’s common shares trade on the Canadian Stock Exchange under the stock symbol “BLLG”.

These condensed consolidated interim financial statements are prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of the business for the foreseeable future. These conditions indicate the existence of material uncertainty, which casts significant doubt about the Company’s ability to continue as a going concern. The continuing operations of the Company are dependent upon obtaining, in the short term, the necessary financing to meet the Company’s operating and mineral property commitments as they come due and to finance future exploration and development of potential business acquisitions, economically recoverable reserves, securing and maintaining title and beneficial interest in the properties, and upon future profitable production. Failure to continue as a going concern would require that assets and liabilities be recorded at their liquidation values, which might differ significantly from their carrying values. Such adjustments have not been included in these condensed consolidated interim financial statements and could be material.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company’s business or ability to raise funds.

2. BASIS OF PREPARATION

Statement of Compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements, including International Accounting Standards (“IAS”) 34, Interim Financial Reporting, as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

The condensed consolidated interim financial statements were authorized for issue by the Board of Directors on November 30, 2020.

Basis of Measurement and Consolidation

The condensed consolidated interim financial statements have been prepared on a historical cost basis except for certain financial instruments measured at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The financial statements are presented in Canadian dollars unless otherwise indicated. The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates.

2. BASIS OF PREPARATION (Continued)

It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

These condensed consolidated interim financial statements incorporate the accounts of the Company and its controlled subsidiaries, from the date of acquisition. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The Company's wholly owned subsidiaries include, ASIC Mining Inc. ("ASIC") (a Canadian corporation), and Metal Mountain Resources Inc. (a Canadian corporation), which holds 100% interest in Lloyd Minerals Inc. (a Canadian corporation) and 78.28% interest in Gavin Mines Inc, a Canadian corporation whose principal place of business is British Columbia. The functional currency of the Company and its wholly owned subsidiaries is the Canadian dollar.

Non-controlling interests are measured initially at their proportionate share of the acquiree's identifiable net assets at the date of the acquisition. Changes in the Company's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies followed by the Company are set out in Note 2 to the audited annual consolidated financial statements for the four month period ended March 31, 2020 and have been consistently followed in the preparation of these condensed consolidated interim financial statements.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions. The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

In preparing these condensed consolidated interim financial statements, the significant estimates and critical judgments were the same as those applied to the financial statements as at and for the four-month period ended March 31, 2020.
