1. NATURE OF OPERATIONS AND GOING CONCERN

Blue Lagoon Resources Inc. (the "Company") was incorporated under the British Columbia Business Corporations Act on March 17, 2017. The Company is in the business of acquiring, exploring, and evaluating mineral resource interests in Canada. The address of the Company's registered office is Suite 1200, 750 West Pender Street, Vancouver, British Columbia. The Company's common shares trade on the Canadian Securities Exchange under the stock symbol "BLLG" and in the United States on the OTCQB under the symbol "BLAGF."

These condensed consolidated interim financial statements are prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of the business for the foreseeable future. The continuing operations of the Company are dependent upon obtaining, in the short term, the necessary financing to meet the Company's operating and mineral property commitments as they come due and to finance future exploration and development of potential business acquisitions, economically recoverable reserves, securing and maintaining title and beneficial interest in the properties, and upon future profitable production. There is no assurance that the Company will be able to obtain such financing or obtain financing on favorable terms. As at June 30, 2024, the Company had working capital of $465,406; however additional financing will be required in the next 12 months. These factors indicate the existence of material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. These condensed consolidated interim financial statements do not reflect adjustments to the carrying values of assets and liabilities or the reported expenses and statement of financial position classifications that would be necessary should the going concern assumption be deemed to be inappropriate. Such adjustments could be material.

2. BASIS OF PREPARATION

Statement of Compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including International Accounting Standards ("IAS") 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC").

The condensed consolidated interim financial statements were authorized for issue by the Board of Directors on August 29, 2024.

Basis of Measurement and Consolidation

The condensed consolidated interim financial statements have been prepared on a historical cost basis except for certain financial instruments measured at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The condensed consolidated interim financial statements are presented in Canadian dollars unless otherwise indicated. The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates.

It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the condensed consolidated interim financial statements are disclosed in Note 4.

(Expressed in Canadian dollars)

2. BASIS OF PREPARATION (Continued)

These condensed consolidated interim financial statements incorporate the accounts of the Company and its controlled subsidiaries, from the date of acquisition. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The Company's wholly owned subsidiaries include ASIC Mining Inc. ("ASIC") (a Canadian corporation), Metal Mountain Resources Inc. (a Canadian corporation), which holds 100% interest in Lloyd Minerals Inc. (a Canadian corporation), and 100% interest in Gavin Mines Inc. (a Canadian corporation) whose principal place of business is British Columbia. The functional currency of the Company and its wholly owned subsidiaries is the Canadian dollar.

Non-controlling interests are measured initially at their proportionate share of the acquiree's identifiable net assets at the date of the acquisition. Changes in the Company's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

3. MATERIAL ACCOUNTING POLICIES

The accounting policies followed by the Company are set out in Note 3 to the audited annual consolidated financial statements for the year ended March 31, 2024 and have been consistently followed in the preparation of these condensed consolidated financial statements.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In the future, actual experience may differ from these estimates and assumptions. The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only, or in the period of the change and future years, if the change affects both.

In preparing these condensed consolidated interim financial statements, the significant estimates and critical judgements were the same as those applied to the audited annual consolidated financial statements for the year ended March 31, 2024.

Receivables are composed of the following amounts:
